Cautionary Note Regarding Forward-Looking Statements

The information contained in this report may contain forward-looking statements. When used or incorporated by reference in disclosure documents, the words "believe" "anticipate," "estimate," "expect," "project," "target," "goal" and similar expressions are intended to identify forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements may include but are not limited to: statements of our goals, intentions and expectations; statements regarding our business plans, prospects, growth and operating strategies; statements regarding the quality of our loan and investment portfolios; and estimates of our risks and future costs and benefits. These forward-looking statements are based on current beliefs and expectations of our management and are subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to certain risks, uncertainties and assumptions, including but not limited to those set forth below:

- Operating, legal and regulatory risk;
- Economic, political and competitive forces;
- Legislative, regulatory and accounting changes;
- Demand for our financial products and services in our market area;
- Major catastrophes such as earthquakes, floods or other natural or human disasters and infectious disease outbreaks, including the current coronavirus (COVID-19) pandemic, the related disruption to local, regional and global economic activity and financial markets, and the impact that any of the foregoing may have on us and our customers and other constituencies;
- Volatility in interest rates;
- Fluctuations in real estate values in our market area;
- The composition and credit quality of our loan and investment portfolios;
- Changes in the level and direction of loan delinquencies, classified and criticized loans and charge-offs and changes in estimates of the adequacy of the allowance for credit losses;
- Economic assumptions utilized to calculate the allowance for credit losses;
- Our ability to access cost-effective funding;
- Our ability to continue to implement our business strategies;
- Our ability to manage market risk, credit risk and operational risk;
- Timing of revenue and expenditures;
- Adverse changes in the securities markets;
- Our ability to enter new markets successfully and capitalize on growth opportunities;
- Competition for loans, deposits and employees;
- System failures or cyber-security breaches of our information technology infrastructure and those of our third-party service providers;
- The failure to maintain current technologies and to successfully implement future information technology enhancements;
- Our ability to retain key employees;
- Other risks and uncertainties, including those occurring in the U.S. and world financial systems; and
- The risk that our analysis of these risks and forces could be incorrect and/or that the strategies developed to address them could be unsuccessful.

Safe Harbor Statement (cont'd)

Cautionary Note Regarding Forward-Looking Statements

Given the ongoing and dynamic nature of the COVID-19 pandemic, it is difficult to predict the full impact of the COVID-19 pandemic on our business. The extent of such impact will depend on future developments, which are highly uncertain, including when the coronavirus can be controlled and abated and whether the continued reopening of businesses will result in a meaningful increase in economic activity. As a result of the COVID-19 pandemic and the related adverse local and national economic consequences, our forward-looking statements are also subject to the following risks, uncertainties and assumptions:

- Demand for our products and services may decline;
- If the economy is unable to remain open, and higher levels of unemployment continue for an extended period of time, loan delinquencies, problem assets, and foreclosures may increase;
- Collateral for loans, especially real estate, may decline in value;
- Our allowance for credit losses may have to be increased if economic conditions worsen or if borrowers experience financial difficulties;
- The net worth and liquidity of loan guarantors may decline, impairing their ability to honor commitments to us;
- A material decrease in net income or a net loss over several quarters could result in the elimination of or a decrease in the rate of our quarterly cash dividend;
- Our wealth management revenues may decline with continuing market turmoil;
- Our cyber security risks are increased as the result of an increase in the number of employees working remotely;
- FDIC premiums may increase if the agency experiences additional resolution costs; and
- Litigation, regulatory enforcement risk and reputation risk regarding our participation in the Paycheck Protection Program and the risk that the Small Business Administration may not fund some or all PPP loan guaranties.

Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated, expected or projected. These and other risk factors are more fully described in this report and in the Univest Financial Corporation Annual Report on Form 10-K for the year ended December 31, 2020 under the section entitled "Item 1A - Risk Factors," and from time to time in other filings made by the Corporation with the SEC.

Non-GAAP Financial Measures

This presentation contains financial information determined by methods other than in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Management uses these "non-GAAP" measures in its analysis of the Corporation's performance. Management believes these non-GAAP financial measures allow for better comparability of period to period operating performance. Additionally, the Corporation believes this information is utilized by regulators and market analysts to evaluate a company's financial condition and therefore, such information is useful to investors. These disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. A reconciliation of the non-GAAP measures used in this presentation to the most directly comparable GAAP measures is provided in the Appendix to this presentation.

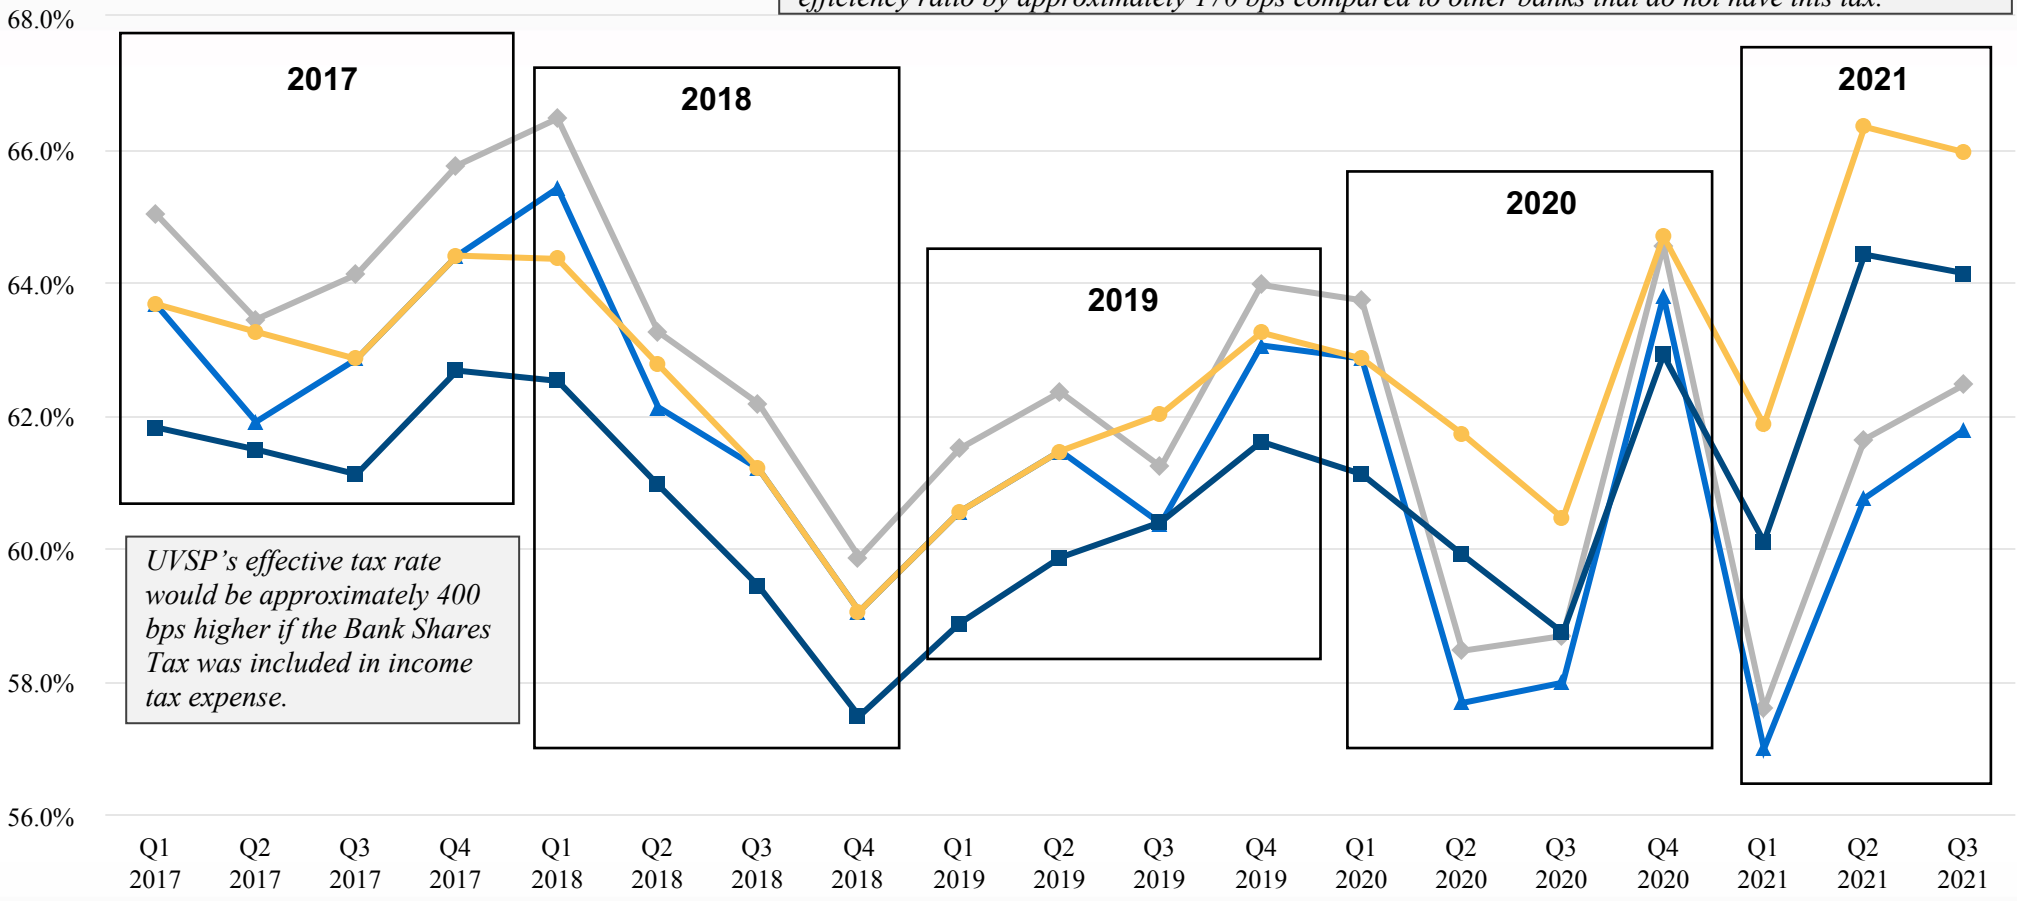
Efficiency Ratios

UVSP pays a Bank Share Tax rather than Bank Income Tax to the Commonwealth of Pennsylvania as a result of our type of charter. This amount is included in noninterest expense and increases our efficiency ratio by approximately 170 bps compared to other banks that do not have this tax.



UVSP's effective tax rate would be approximately 400 bps higher if the Bank Shares Tax was included in income tax expense.

Current Expected Credit Loss (CECL)

- On January 1, 2020, the Corporation adopted Accounting Standard Update No. 2016-13, "Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments" ("CECL"). Upon adoption, the Corporation recognized:
  - $12.9 million increase in the allowance for loans and leases credit losses. Resulted in a 1.10% coverage ratio.
  - $1.1 million increase in the reserve for unfunded commitments
  - $300 thousand increase in the allowance for investment credit losses
  - This resulted in an after-tax retained earnings adjustment of $11.3 million
- During 2020, the provision for credit losses was $40.8 million, of which $39.4 million related to loans and leases, $786 thousand related to unfunded commitments and $569 thousand related to investment securities.
  - $27.4 million of the 2020 provision was attributable to changes in economic-related assumptions
  - At 12/31/20, the allowance for loan and lease credit losses as a percentage of loans and leases held for investment (excluding PPP loans) was 1.72% compared to 0.81% at 12/31/19
- During the nine months ended September 30, 2021, the reserve release was $11.5 million, of which $12.4 million related to loans and leases and $53 thousand related to investment securities which were offset by $971 thousand provision expense related to unfunded commitments
  - $18.7 million of the year-to-date provision release was attributable to changes in economic-related assumptions
  - At 9/30/21, the allowance for loan and lease credit losses as a percentage of loans and leases held for investment (excluding PPP loans) was 1.36%
