Forward-Looking Statements

INTERNATIONAL PAPER

These slides contain forward-looking statements. Such statements are subject to risks and uncertainties that could cause actual results to differ materially, including but not limited to, the ability of the company to accomplish its transformation plan and to realize anticipated cost savings, the demand and pricing for the company's products and changes in overall demand, the effects of competition from foreign and domestic producers, the level of housing starts, changes in the cost or availability of raw materials, changes in energy costs, unanticipated expenditures related to the cost of compliance with environmental and other governmental regulations, performance of the company's manufacturing operations, results of legal proceedings, changes related to international economic conditions, specifically in Brazil, Russia and China, changes in currency exchange rates, particularly the relative value of the U.S. dollar to the Euro, and the war on terrorism. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. These and other factors that could cause or contribute to actual results differing materially from such forward looking statements are discussed in greater detail in the company's Securities and Exchange Commission filings.

Statements Relating to Non-GAAP Financial Measures

During the course of this presentation, certain non-U.S. GAAP financial information will be presented. A reconciliation of those numbers to U.S. GAAP financial measures is available on the company's website at www.internationalpaper.com under Investors.
