Rambus to Present at Morgan Stanley Semiconductor & Systems Conference

LOS ALTOS, Calif., Mar 01, 2006 (BUSINESS WIRE) -- Rambus Inc. (Nasdaq:RMBS), one of the world's premier technology licensing companies specializing in high-speed chip interfaces, today announced that Harold Hughes, chief executive officer, will present at the Morgan Stanley Semiconductor & Systems Conference on March 8, 2006 at 9:30 a.m. PT.

This event will be available through a webcast and can be accessed at Rambus' Investor Relations web site at http://investor.rambus.com/. The audio replay will be available on Rambus' IR web site following the event.

About Rambus Inc.

Rambus is one of the world's premier technology licensing companies specializing in the invention and design of high-speed chip interfaces. Since its founding in 1990, the company's patented innovations, breakthrough technologies and renowned integration expertise have helped industry-leading chip and system companies bring superior products to market. Rambus' technology and products solve customers' most complex chip and system-level interface challenges enabling unprecedented performance in computing, communications and consumer electronics applications. Rambus licenses both its world-class patent portfolio as well as its family of leadership and industry-standard interface products. Headquartered in Los Altos, California, Rambus has regional offices in North Carolina, India, Taiwan, and Japan. Additional information is available at www.rambus.com.
