Packing with purpose

11/5/2018

No matter where a natural disaster happens, American Airlines team members are there to help. Over the past few weeks, our team members around the system have gathered at Charlotte Douglas International Airport and Miami International Airport to pack 75,000 pounds of food with Feeding America and 5,000 hygiene comfort kits with the American Red Cross. Later this week, team members will gather at O'Hare International Airport in Chicago to pack an additional 75,000 pounds of food. Learn more about the joy that serving brings in the video below.
