Rambus Inc. Announces FQ3 Earnings Conference Call: Thursday, July 11, 2002, at 2:00 p.m. PDT/5:00 p.m. ET

LOS ALTOS, Calif., Jul 3, 2002 -- Rambus Inc. (Nasdaq: RMBS), the world's leading developer of chip-to-chip interface technology, will hold a conference call to discuss FQ3 results at 2:00 p.m. PDT.

This call is being webcast by CCBN and can be accessed at Rambus' web site at www.rambus.com. A replay will be available for one week following conclusion of the call on the web site or at the following numbers: 800/293-4252 (domestic), 402/220-9745 (international).

The webcast is also being distributed over CCBN's Investor Distribution Network to both institutional and individual investors. Individual investors can listen to the call through CCBN's individual investor center at www.companyboardroom.com or by visiting any of the investor sites in CCBN's Individual Investor Network such as America Online's Personal Finance Channel, Fidelity Investments® (Fidelity.com) and others. Institutional investors can access the call via CCBN's password protected event management site, StreetEvents (www.streetevents.com). StreetEvents allows institutional investors to identify, organize, and track the hundreds of conference calls that occur each day during earnings season, to download events of interest to their Outlook calendar, and to RSVP to events online.

About Rambus

Rambus is the leading developer and marketer of breakthrough chip-to-chip interface technology, products and solutions to the electronics industry. The company licenses its technology in the form of ASIC cells that are incorporated into high-performance memory and logic chips by 25 of the world's top semiconductor makers. The company's ASIC cells and system-level solutions are incorporated into hundreds of OEM products such as personal computers, workstations, video game consoles, network routers, HDTVs and set-top boxes.

Rambus and RDRAM are registered trademarks of Rambus Inc.
