Rambus to Host Analyst Meeting

LOS ALTOS, Calif.--Oct. 21, 2003--Rambus Inc. (Nasdaq:RMBS), a leading developer of chip-to-chip interface products and services, will host an analyst meeting at NASDAQ in New York City on November 12th from 10:00 a.m. to 12:00 p.m. ET.

During this event, Rambus's management will provide a strategic and financial overview of the company. In addition to presentations, the event will provide investors the opportunity to meet senior members of the Rambus management team.

The analyst meeting presentations will be available live via the Internet at www.rambus.com, in the investor relations section of Rambus's web site. For at least one week following the event, interested parties will be able to access an archived version of the audio presentations.

About Rambus

Rambus is one of the world's leading providers of chip-to-chip interface products and services. The company's breakthrough technology and engineering expertise have helped leading chip and system companies to solve their challenging I/O problems and bring industry-leading products to market. Rambus's interface solutions can be found in numerous computing, consumer electronic and networking products. Additional information is available at www.rambus.com.
