

# Alliances

In Dec. 2013, American Airlines and US Airways created the largest airline in the world. And we've been busy ever since.

Even the world's largest airline gets by with a little help from our friends. Take a look at some of the ways global partnerships have strengthened our airline over the past five years.

1

Can't stop, won't stop, nonstop. Together, American and our partners **provide access to nearly 1,000 destinations on 2,800 nonstop routes.**

2

Since the merger, **American and its joint business partners have added 19 new routes to the Atlantic Joint Business and eight new routes to the Pacific Joint Business.** Customers have more options between Asia and Europe and North America than ever.

3

In 2017, **we made a \$200 million equity investment** in China Southern, Asia's largest airline. The partnership benefits our teams, the communities we serve and the customers who travel with us every day.

4

We're big fans of the buddy system. **We've laid the groundwork to form additional joint businesses with Qantas Airways and LATAM Airlines Group** so we can better serve customers traveling between North America and Australia/New Zealand and Latin America.

5

Connecting our world with **oneworld**. This year, **American helped launch oneworld connect**, a new way for airlines to link to the world's premier alliance. **oneworld** also announced the addition of Royal Air Maroc as the first full member from Africa.
