

5 for 5

Celebrating five years of merger milestones

Los Angeles

In Dec. 2013, American Airlines and US Airways created the largest airline in the world. And we've been busy ever since.

Since then, American has worked hard to be the preeminent carrier in the City of Angels. Take a look at a few of the things American has been up to at LAX over the last five years.

1

They like us. They really like us. **American became the Official Airline of the Los Angeles Rams**, joining a team of hand-selected Homecoming Partners to welcome the Rams back to L.A. for the first time in two decades.

2

We combined our legacy operations and successfully relocated four gates from Terminal 6 to Terminal 5.

3

We've added more landings in La La Land by adding **27 new routes to LAX since our merger**, including launching the first and only nonstop service from L.A. to Buenos Aires.

4

Groundbreaking in more ways than one, we started construction on a **\$1.6 billion investment to fully reimagine LAX Terminals 4 and 5**, the largest capital investment at an airport in our 92-year history.

5

A global team for a global airline, over the last five years **we've increased our team member presence in Los Angeles by 60%**, including hiring nearly 200 Mandarin- and Chinese-speaking team members.
