5 for 5
Celebrating five years
of merger milestones

American Airlines

Miami

In Dec. 2013, American Airlines and US Airways created the largest airline in the world. And we've been busy ever since.

Since then, American has grown, improved and made history in Miami. Take a look at some of what we've been up to over the past five years.

1 It's in the bag. **American's baggage performance at MIA has improved almost 40 percent since the merger.** October 2018 was our best month on record at MIA with regards to mishandled baggage.

4 Living large in Miami, and adding stamps to your passport. With our merger, **MIA became the largest international gateway of the world's largest airline.** American now flies to 74 international destinations from MIA.

2 In 2016, we made history, launching groundbreaking commercial service to Cuba after more than 50 years. **American is now the leading U.S. carrier in Cuba,** serving six cities in the island nation.

5 We continue to be a driver on the employment front. Since the merger, **American has added more than 2,000 jobs at MIA** across all departments.

3 We've added more flights out of the Magic City. **Since our merger, American has added 31 new routes from MIA,** including the only nonstop service from the U.S. to Pereira, Colombia.

STRATEGIC OBJECTIVE:
Create a World-Class Customer Experience
