

5 for 5

Celebrating five years
of merger milestones

American Airlines 

New York

In Dec. 2013, American Airlines and US Airways created the largest airline in the world. And we've been busy ever since.

Since then, we've worked hard to be the carrier of choice for the media and entertainment industry and the like-minded business traveler. Take a look at a few of the things American has been up to in the city that never sleeps over the last five years.

1

Love at first class. **American is the only U.S. airline to offer three-class transcon service on our Airbus A321XLR**, and the only true first class between New York and L.A. and New York and San Francisco.

4

First class starts on the ground at JFK. Last year, we opened JFK's Flagship Lounge, offering our premium customers a world-class experience with first-class amenities.

2

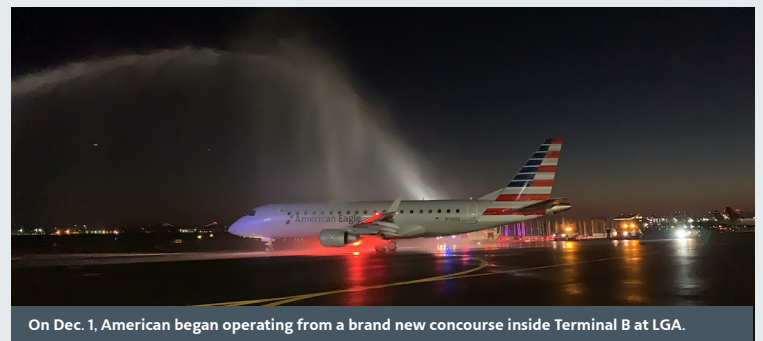

Taking flight at LGA. We combined our legacy operations and **successfully relocated all our operations under one roof**, giving both our customers and team members a better experience to our gates at LGA.

5

Giving back to the Big Apple. **We've increased our corporate giving presence in New York by nearly 30%** since 2016, including sponsoring major events like the Stephen Siller Tunnel to Towers 5K Run & Walk and NYC Veterans Day parade.

3

It's hour pleasure. We've made enhancements to American Shuttle by now offering hourly flights **up to 15 times a day** between the Big Apple and the Windy City.

On Dec. 1, American began operating from a brand new concourse inside Terminal B at LGA.

STRATEGIC OBJECTIVE:
Create a World-Class Customer Experience
