Q2 2024ShareholderLetter

### TODAY'S ANNOUNCEMENTS //

Finalized Key Terms Of Contract Manufacturing Relationship With Stellantis

Stellantis to contribute up to ~\$400M to help scale
 Archer's Midnight manufacturing to 650 aircraft annually
 through an obligation to cover manufacturing labor costs
 as well as certain capital expenditures at Archer's Georgia
 manufacturing facility through 2030\*

Secured \$230M Of Additional Equity Capital Since End Of Q2  This equity capital consists of the \$55M Archer received from Stellantis on July 1, 2024 under the parties' strategic funding agreement, as well as a \$175M investment today from strategic and institutional investors

Unveiled Planned Los Angeles Air Taxi Network  Planned network includes vertiports at LAX, USC, Orange County, Santa Monica, Hollywood Burbank, Long Beach and Van Nuys. Archer is also working with the Los Angeles Rams and Hollywood Park on a planned exclusive vertiport in the area

Delivered First Midnight Aircraft
To United States Air Force

- Archer delivered Midnight to the U.S. Air Force as part of Archer's AFWERX Agility Prime contract
- Last month, the U.S. Department of Defense accepted the military airworthiness assessment for Midnight

Future Flight Global Planned Purchase Of Up to \$580M of aircraft; Archer's Indicative Order Book Now Nearly \$6B\*\*

- Planned purchase by Future Flight Global is for up to 116 Midnight aircraft worth up to \$580M with an initial deposit already paid
- Goal is to support the companies' joint launch of electric vertical take-off and landing aircraft operations in key global markets

### Q2 HIGHLIGHTS //

Completed Midnight's Transition Flight & 70+ Flights Since Transition

- Midnight completed the transition flight on June 8th flying at speeds of 100+ MPH
- At ~6,500 lb MTOW, Midnight is believed to be one of the largest eVTOL aircraft to complete transition

Signed MoU With Southwest Airlines to Develop Operational Concepts for Air Taxi Network

 Southwest and Archer to collaborate on concept of operations that lays the foundation for integrated electric air taxi networks that would support California airports and the surrounding communities that Southwest serves

FAA Finalizes Airworthiness Criteria For Midnight

- The final airworthiness criteria provides the solidified path for the company to achieve Type Certification for Midnight
- One of only two companies in the world to achieve this certification progress with the FAA for an eVTOL aircraft

Received FAA Certification to Begin Operating Commercial Airline  This certificate allows Archer to begin operating aircraft commercially to refine its systems and procedures in advance of launching Midnight into service for airlines like United Airlines when it receives Midnight's Type Certification

Announced Air Taxi Network Connecting Five Locations Across the San Francisco Bay Area

- Features takeoff and landing locations in South San Francisco, Napa, San Jose, Oakland, and Livermore
- Archer and Kilroy Realty have identified Kilroy's Oyster Point South San Francisco development as a critical hub in Archer's planned network

### TODAY'S ANNOUNCEMENTS //

## Archer Announces Key Terms Of Contract Manufacturing Relationship With Stellantis — Representing Up To ~\$400M To Help Scale Midnight Production To 650 Aircraft Annually

- Archer announced today that it has reached an agreement in principle on key terms of its planned contract
  manufacturing relationship with Stellantis\*. In addition to the nearly \$300M Stellantis has previously invested to date,
  including \$55M in July 2024, Stellantis is planning to fund the following to help ensure Archer achieves its
  manufacturing goals:
  - Manufacturing Labor: Stellantis to fund up to ~\$370M of the anticipated manufacturing labor costs necessary to support Archer's planned manufacturing ramp to 650 aircraft annually. In exchange, Stellantis would receive Archer shares on a rolling quarterly basis based on the total labor costs incurred in a particular quarter and Archer's then-current future stock price.
  - Manufacturing CapEx: Additionally, Stellantis will contribute the identified initial incremental manufacturing capital expenditures for the initial ramp of Midnight production, estimated to be up to \$20M.
- Archer's goal with this relationship is to incentivize Stellantis to help Archer achieve its planned production ramp and
  unit cost targets. Therefore, Archer intends to issue Stellantis \$30M of performance warrants that will vest based on
  Stellantis' achievement of certain performance milestones under the contract manufacturing relationship. Archer's
  issuance of any equity to Stellantis pursuant to this contract manufacturing relationship is expected to be subject to
  approval by Archer's stockholders.

# Archer Unveils Planned LA Air Taxi Network Ahead Major Worldwide Sporting Events

- Archer's planned network includes vertiports at key locations such as Los Angeles International Airport (LAX), Orange County, Santa Monica, Hollywood Burbank, Long Beach and Van Nuys. Archer's goal is to begin its LA network operations by as early as 2026.
- As part of its network planning, Archer is working with the Los Angeles
  Rams on planned exclusive vertiports at Woodland Hills and at
  Hollywood Park, the near 300-acre district centered around SoFi
  Stadium\*.
- The University of Southern California is also planning to be a part of Archer's LA network.

"California is showing the world what's possible when you embrace innovation, entrepreneurship, and clean energy to help solve your biggest challenges. Homegrown companies like Archer Aviation are pioneering the next generation of zero-emission transportation that will help California cut pollution, clean our air, and reduce traffic"

GOVERNOR GAVIN NEWSOM STATE OF CALIFORNIA

### TODAY'S ANNOUNCEMENTS //

"Archer's Midnight aircraft has the potential to significantly enhance our operational capabilities,

We look forward to continuing our work with our industry partners as we explore the ways that this advanced aircraft can contribute to the mission."

COL. ELLIOT LEIGH
AFWERX DIRECTOR AND CHIEF
COMMERCIALIZATION OFFICER
FOR THE DEPARTMENT OF THE
AIR FORCE

# Archer Delivers First Midnight Aircraft to U.S. Air Force

- In July, the U.S. Department of Defense (DOD) accepted the military airworthiness assessment of Archer's Midnight aircraft
- Archer delivered Midnight to the U.S. Air Force (USAF) for evaluation as part of Archer's AFWERX Agility Prime contract valued at up to \$142M\*
- Following the recent delivery-in-place handoff at Archer's flight test facility in Salinas, CA, a team of USAF personnel worked alongside Archer's flight test team to execute simulated medical evacuation, cargo, intelligence, surveillance and reconnaissance flights with the aircraft

### **TODAY'S ANNOUNCEMENTS //**

# Archer And Future Flight Global Announce Planned Purchase of up to 116 Midnight Aircraft Worth up to \$580M With Pre-Delivery Payments

- Archer and Future Flight Global have signed a memorandum of understanding (MOU) for the planned purchase of up to 116 Midnight Aircraft worth up to \$580M\*
- Future Flight Global made an initial deposit and the MOU sets out additional significant pre-delivery payments to be paid upon the completion of the parties' definitive aircraft purchase agreement
- Future Flight Global was founded by members of the core leadership team at Titan Aviation, which has been operating business jets worldwide for over two decades
- This aircraft purchase is planned to support the companies' joint launch of vertical take-off and landing services in key global markets

"This new relationship with FFG increases our access to customers globally and opens up Archer's global reach to premium international markets."

> ADAM GOLDSTEIN CHIEF EXECUTIVE OFFICER ARCHER

# Tracking Our Progress On Certification & Testing

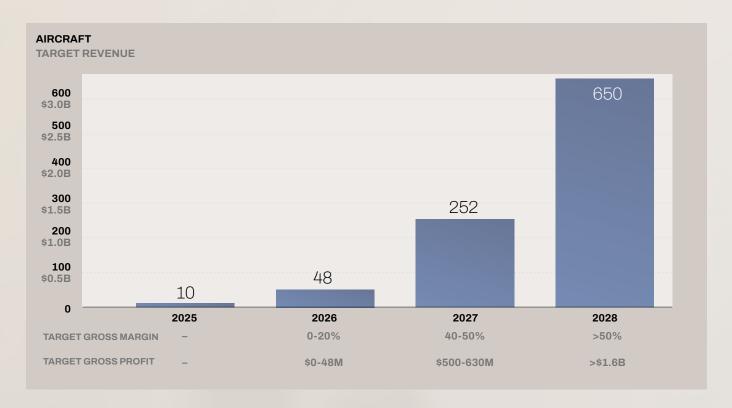

As our focus is now on the "Implementation Phase" of Midnight's certification program as outlined in FAA Order 8110.4c, we use the chart below to explain the phase more simply and provide updates on our progress.

FAA	Language:	Compliance I	Data Generation	Compliance Substantiation	Compliance Findings	
Plain	Language:	Write test plans; build conforming hardware	For credit testing	Submit test and analysis reports	FAA audits and confirms design compliance	
COMPONENT & SYSTEM LEVEL	CERT HERITAGE*					KEY UPDATES

# Archer's Focus Is On Ramping Manufacturing Capabilities To Support Our Planned Commercial Ops

### INDICATIVE POTENTIAL PATH TO ACHIEVING POSITIVE OPERATING MARGIN AND RAMP OF PRODUCTION

### 2025

Archer intends to produce initial Midnight aircraft at our Covington, GA facility, which Archer expects will be delivered predominantly to customers located internationally

### 2026

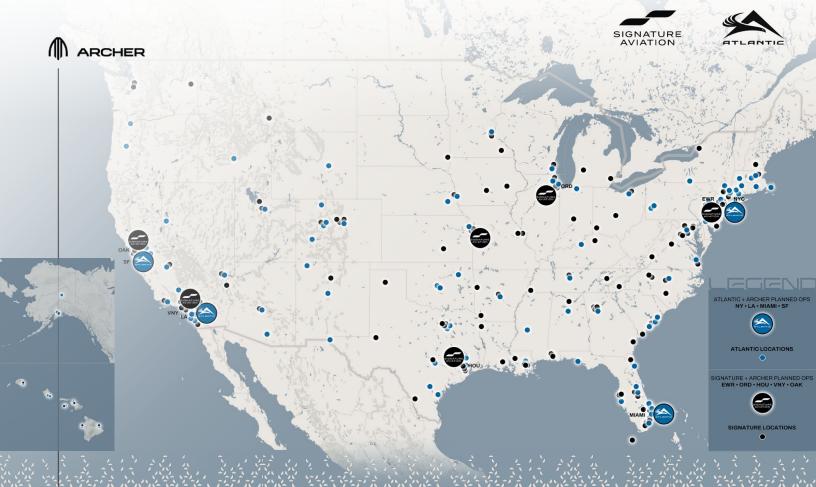

Goal is to scale production and delivery rates for U.S. and international customers while achieving positive gross margin per aircraft

### 2027

Goal is to achieve positive operating margins; targeting ~50% gross margin per aircraft

### 2028

Goal is to achieve full manufacturing facility capacity of 650 aircraft/year; targeting 20% or greater operating margin

# Infrastructure Partners Are Key To Archer's Domestic Go-To-Market Strategy

## PARTNERSHIPS WITH SIGNATURE AVIATION, ATLANTIC $\ensuremath{\mathfrak{S}}$ KILROY

- Archer and Atlantic Aviation plan to electrify sites in LA, New York City metropolitan areas, Northern California and South Florida
- Archer and Signature will work together to electrify ~200 FBO locations at major and regional airports across the U.S. and globally, including New York, Los Angeles, San Francisco Bay Area, and Texas
- Takeoff and landing sites are planned to operate BETA's UL-Certified CCS rapid charging systems endorsed by General Aviation
   Manufacturers Association and used by the industry's leading OEMs
- Archer planned Bay Area UAM network is anticipated to replace one-to-two-hour drives around the Bay Area with flights that take ~10-20 minutes with Kilroy's Oyster Point South San Francisco development as a critical hub in the network

# International Markets Offer Opportunity For Deployment With In-Country Partners

UAE: Goal of Commercializing As Early As 2025

Adam Goldstein

His Excellency Badr Al-Olama
DIRECTOR GENERAL
ABU DHABI INVESTMENT OFFICE

- Framework agreement with ADIO covering planned multi-hundred-million dollar investment to accelerate Archer's planned commercial air taxi operations in the UAE
- Key goals of the collaboration with ADIO include operational enablement for Archer's air taxi operations in the UAE and in-country manufacturing of Archer's Midnight aircraft
- Archer is coordinating with government partners across the UAE to develop the necessary vertiports and charging infrastructure

India: Announced Plans with InterGlobe Enterprises
To Launch All-Electric Taxi Service Across India in
2026

- Initial goal to deploy up to 200 Archer Midnight aircraft
- The goal is for a passenger on an InterGlobe-Archer flight to be able to fly the 27-km Delhi trip from Connaught Place to Gurugram, typically taking 60 to 90 minutes by car, in approximately 7 minutes
- The parties plan to pursue a variety of other use cases for the electric aircraft in India, including cargo, logistics, medical and emergency services, as well as private company and charter services

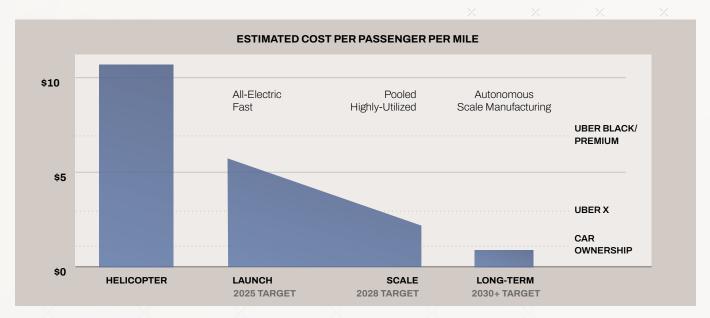

Rahul Bhatia

GROUP MANAGING DIRECTOR
INTERGLOBE

Nikhil Goel

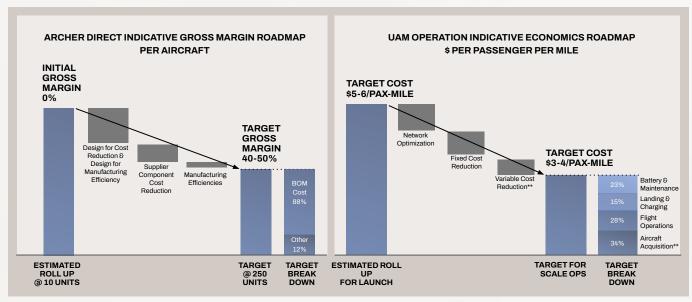

# Goal: Urban Air Transportation That Is Competitive With Taxi or Rideshare

The table above reflects Company estimates based on the following publicly available information: (i) helicopter cost is based the operating cost of an Augusta 109 helicopter (see The table above feeds coin pair a season with a solid miground year and the season with a solid miground point and the season with a solid miground point and the season with a solid miground point in the University of Chicago's Journal of Law and Economics article from November 2022 titled "Does Uber Benefit Travelers by Price Discrimination?" (see https://www.journals.uchicago.edu/doi/abs/10.1086/721266?journalCode=jle); (iv) Uber Black/Premium is based on an estimate that it costs approximately 2.5x the cost of UberX (see https://www.ridester.com/uberx-vs-uber-black/)

# An Indicative Path To Achieving Business Unit Economics That Support That Goal

<sup>\*</sup>Other costs include labor, yield, logistics, manufacturing overhead, and capital depreciation

<sup>\*\*</sup>Cost reduction opportunities include anticipated decrease in landing fees, battery and maintenance costs, and other cost items

<sup>\*\*\*</sup>Aircraft acquisition is a Company estimate based on an indicative aircraft purchase price of \$5M per unit
\*\*\*\*The information presented above reflects management's indicative operational goals. This information does not represent management's projections of future performance

# Indicative Order Book Grows To Nearly \$6B\*

### UPTO 1,141 AIRCRAFT WITH PRE-DELIVERY PAYMENTS (PDPS)

# Q2 2024 Financial Review

We reference several non-GAAP metrics in the financial discussion that follows. Unless otherwise noted or defined, our non-GAAP metrics are calculated by starting with the equivalent GAAP metric and subtracting non-cash stock-based compensation, non-cash warrant expenses and changes in fair value of warrants and non-cash expense taken in connection with the Boeing Wisk Agreements (as defined below). We believe these adjustments are appropriate to enhance the overall understanding of our underlying financial and operational performance.

### **SUMMARY FINANCIALS**

(In millions; unaudited)

	THREE MONTHS ENDED				
	JUN 30, MAR 31, JUN 30, 2024 2024 2023				
TOTAL OPERATING EXPENSES <sup>(1)</sup>	\$ 121.2	\$ 142.2	\$ 181.4		
NET LOSS <sup>(1)</sup>	(106.9)	(116.5)	(184.1)		
NON-GAAP TOTAL OPERATING EXPENSES $^{(2)(3)}$	96.4	89.1	77.4		
ADJUSTED EBITDA <sup>(3)(4)</sup>	(93.8)	(86.8)	(76.3)		
CASH, CASH EQUIVALENTS AND SHORT-TERM INVESTMENTS $^{(5)}$	360.4	405.8	407.6		

- 1) Amounts reflect charges related to the technology and dispute resolution agreements reached on August 10, 2023, between us, Wisk Aero LLC ("Wisk") and The Boeing Company ("Boeing") that provide for certain investments by Boeing into us, an autonomous flight collaboration between the parties, issuance of certain warrants to Wisk and resolution of litigation between us (the "Boeing Wisk Agreements").
- 2) Non-GAAP total operating expenses is a financial measure adjusting total operating expenses for warrant expenses, stock-based compensation, and non-cash expense related to the Boeing Wisk Agreements.
- 3) A reconciliation of non-GAAP financial measures to the most comparable GAAP measures is provided below in the section titled "GAAP to Non-GAAP Reconciliation."
- 4) Adjusted EBITDA is a financial measure adjusting net loss for other income (expense), net, interest income, net, income tax expense, depreciation and amortization expense, warrant expenses, stock-based compensation expense including the credit for the founders grant forfeiture, and non-cash expense related to the Boeing Wisk Agreements.
- 5) Does not include proceeds from the \$55.0 million Stellantis investment, which was received on July 1, 2024

### **NET LOSS AND ADJUSTED EBITDA**

Our second quarter 2024 net loss represents investments required to achieve the key elements of our commercialization plan. We continued to invest in the design, development, test and certification activities for our Midnight aircraft. Further, we incurred non-recurring payments to several of our supply chain partners as they work to establish capabilities to manufacture certain components and subsystems for our Midnight aircraft, made investments to build out our test and manufacturing facilities in San Jose, California and made investments in the people and infrastructure required to scale our operations.

Net loss for the second quarter of 2024 was \$106.9 million, which decreased by \$9.6 million from \$116.5 million in the first quarter of 2024, primarily due to the \$21.0 million decrease in GAAP operating expenses partially offset by the \$11.3 million decrease in other income (expense), net. Year-over-year, net loss for the second quarter of 2024 was lower than the second quarter of 2024 by \$77.2 million, primarily due to the \$60.2 million decrease in GAAP operating expenses and \$15.9 million increase in other income (expense), net.

For the second quarter of 2024, adjusted EBITDA loss increased by \$7.0 million from an adjusted EBITDA loss of \$86.8 million in the first quarter of 2024, primarily due to the increase in people related spending to support the Midnight program development and for our test and manufacturing capabilities. For the same period year-over-year, adjusted EBITDA loss increased by \$17.5 million from an adjusted EBITDA loss of \$76.3 million in the second quarter of 2023 primarily due to increased investment in people, materials, supply chain build-out and related services for our Midnight program.

### **TOTAL OPERATING EXPENSES**

Total GAAP operating expenses for the second quarter of 2024 were \$121.2 million, which were lower than the first quarter of 2024 by \$21.0 million, primarily due to a decrease in non-cash stock-based compensation by \$17.9 million and a \$10.3 million decrease in the expense associated with the technology and dispute resolution agreements, partially offset by the \$7.3 million increase in people related spend to support the Midnight program development and for our test and manufacturing capabilities. Year-over-year, total operating expenses for the second quarter of 2024 were lower than the second quarter of 2023 by \$60.2 million, primarily due to a \$73.0 million decrease in the expense associated with the technology and dispute resolution agreements, partially offset by the \$19.0 million increase in the people related spend to support the Midnight program development as mentioned above.

Total non-GAAP operating expenses (which are GAAP operating expenses less stock-based compensation, warrant expenses and other one-time expenses, a reconciliation for which is provided in the financial statement section of this letter) for the second quarter of 2024 were \$96.4 million, which increased \$7.3 million over the first quarter of 2024 primarily due to the increase in people related spending to support the Midnight development program and for our test and manufacturing capabilities. Total non-GAAP operating expenses increased \$19.0 million year-over-year from the second quarter of 2023, as we continued our investment in people, materials, supply chain build-out and related services for our Midnight program.

### **CASH & LIQUIDITY**

We ended Q2'24 with \$360.4 million of cash and cash equivalents on our balance sheet, with another \$6.7 million of restricted cash. Since the end of Q2'24, we raised an additional \$230 million in equity financing.

### **Q3 2024 FINANCIAL ESTIMATES**

We anticipate total non-GAAP operating expenses of \$90 million to \$100 million for the third quarter of 2024.

We have not reconciled our non-GAAP total operating expenses estimates because certain items that impact non-GAAP total operating expenses are uncertain or out of our control and cannot be reasonably predicted. In particular, stock-based compensation expense is impacted by the future fair market value of our common stock and other factors, all of which are difficult to predict, subject to frequent change, or not within our control. The actual amount of these expenses during 2024 will have a significant impact on our future GAAP financial results. Accordingly, a reconciliation of non-GAAP total operating expenses is not available without unreasonable effort.

# GAAP to Non-GAAP Reconciliation

A reconciliation of total operating expenses to non-GAAP total operating expenses for the three months ended June 30, 2024, March 31, 2024, and June 30, 2023, respectively, are set forth below.

### **RECONCILIATION OF OPERATING EXPENSES**

(In millions; unaudited)

	THREE MONTHS ENDED			
	JUN 30, 2024	MAR 31, 2024	JUN 30, 2023	
TOTAL OPERATING EXPENSES	\$ 121.2	\$ 142.2	\$ 181.4	
Adjusted to exclude the following:				
Stellantis warrant expense (1)	(2.0)	(2.1)	(4.5)	
Stock-based compensation (2)	(22.8)	(40.7)	(26.5)	
Technology and dispute resolution agreements (3)	-	(10.3)	(73.0)	
NON-GAAP TOTAL OPERATING EXPENSES	\$ 96.4	\$ 89.1	\$ 77.4	

<sup>1)</sup> Amounts include non-cash warrant costs, classified as research and development expenses, for the warrants issued to Stellantis in connection with certain services they are providing to the Company.

<sup>2)</sup> Amounts include stock-based compensation for options and restricted stock units issued to both employees and non-employees, including the grants issued to our founders in connection with the closing of the business combination.

<sup>3)</sup> Amounts reflect charges relating to the Boeing Wisk Agreements.

# GAAP to Non-GAAP Reconciliation (cont.)

A reconciliation of net loss to Adjusted EBITDA for the three months ended June 30, 2024, March 31, 2024, and June 30, 2023, respectively, are set forth below.

### **RECONCILIATION OF ADJUSTED EBITDA**

(In millions; unaudited)

	THREE MONTHS ENDED		
	JUN 30, 2024	MAR 31, 2024	JUN 30, 2023
NET LOSS	\$ (106.9)	\$ (116.5)	\$ (184.1)
Adjusted to exclude the following:			
Other (income) expense, net (1)	(9.3)	(20.6)	6.6
Interest income,net	(5.1)	(5.3)	(4.1)
Income tax expense	0.1	0.2	0.2
Depreciation and amortization expense	2.6	2.3	1.1
Stellantis warrant expense (2)	2.0	2.1	4.5
Stock-based compensation (3)	22.8	40.7	26.5
Technology and dispute resolution agreements <sup>(4)</sup>	-	10.3	73.0
ADJUSTED EBITDA	\$ (93.8)	\$ (86.8)	\$ (76.3)

<sup>1)</sup> Amounts include changes in fair value of the public and private warrants, which are classified as warrant liabilities, gain on share issuance and accretion and amortization income of short-term investments.

<sup>2)</sup> Amounts include non-cash warrant costs, classified as research and development expenses, for the warrants issued to Stellantis in connection with certain services they are providing to the Company.

<sup>3)</sup> Amounts include stock-based compensation for options and restricted stock units issued to both employees and non-employees, including the grants issued to our founders in connection with the closing of the business combination.

<sup>4)</sup> Amounts reflect charges related to the Boeing Wisk Agreements.

# GAAP to Non-GAAP Reconciliation (cont.)

### **NON-GAAP FINANCIAL MEASURES**

To supplement our condensed consolidated financial results prepared in accordance with GAAP, we use a number of non-GAAP financial measures to help us in analyzing and assessing our overall business performance, for making operating decisions and for forecasting and planning future periods. We consider the use of non-GAAP financial measures helpful in assessing our current financial performance, ongoing operations and prospects for the future as well as understanding financial and business trends relating to our financial condition and results of operations.

While we use non-GAAP financial measures as a tool to enhance our understanding of certain aspects of our financial performance and to provide incremental insight into the underlying factors and trends affecting our performance, we do not consider these measures to be a substitute for, or superior to, the information provided by GAAP financial measures. Consistent with this approach, we believe that disclosing non-GAAP financial measures to the readers of our financial statements provides useful supplemental data that, while not a substitute for GAAP financial measures, can offer insight in the review of our financial and operational performance and enables investors to more fully understand trends in our current and future performance.

In assessing our business during the second quarter ended June 30, 2024, we excluded items in the following general categories from one or more of our non-GAAP financial measures, certain of which are described below:

- STOCK-BASED COMPENSATION EXPENSE We believe that providing non-GAAP measures excluding stock-based compensation expense, in addition to the GAAP measures, allows for better comparability of our financial results from period to period. We prepare and maintain our budgets and forecasts for future periods on a basis consistent with this non-GAAP financial measure. Further, companies use a variety of types of equity awards as well as a variety of methodologies, assumptions and estimates to determine stock-based compensation expense. We believe that excluding stock-based compensation expenses enhances our ability and the ability of investors to understand the impact of non-cash stock-based compensation on our operating results and to compare our results against the results of other companies.
- WARRANT EXPENSE & GAINS OR LOSSES FROM REVALUATION OF WARRANTS Expense from our
  common stock warrants issued to Stellantis, which is recurring (but non-cash) and gains or losses from change in fair
  value of public and private warrants from revaluation will be reflected in our financial results for the foreseeable future.
   We exclude warrant expense and gains or losses from change in fair value for similar reasons to our stock-based
  compensation expense.

Each of the non-GAAP financial measures presented in this letter to shareholders should not be considered in isolation from, or as a substitute for, a measure of financial performance prepared in accordance with GAAP and are presented for supplemental informational purposes only. Further, investors are cautioned that there are inherent limitations associated with the use of each of these non-GAAP financial measures as an analytical tool. In particular, these non-GAAP financial measures have no standardized meaning prescribed by GAAP and are not based on a comprehensive set of accounting rules or principles and many of the adjustments to the GAAP financial measures reflect the exclusion of items that are recurring and may be reflected in our financial results for the foreseeable future. In addition, the non-GAAP measures we use may be different from non-GAAP measures used by other companies, limiting their usefulness for comparison purposes. We compensate for these limitations by providing specific information in the reconciliation included in this letter to shareholders regarding the GAAP amounts excluded from the non-GAAP financial measures. In addition, as noted above, we evaluate the non-GAAP financial measures together with the most directly comparable GAAP financial information. Investors are encouraged to review the reconciliations of these non-GAAP measures to their most directly comparable GAAP financial measures included in this letter to shareholders.

# Forward-Looking Statements & Disclaimers

This shareholder letter includes forward-looking statements. These statements include, but are not limited to, statements regarding our future performance and our market opportunity, including expected financial results for the third quarter of fiscal year 2024, our business strategy and plans, aircraft performance, the design and target specifications of our aircraft, the design of our manufacturing and automation processes, the pace at which we intend to design, develop, certify, conduct test flights, manufacture and commercialize our planned eVTOL aircraft, operational goals with respect to the timing of the launch of our commercial operations, the rate of scaling aircraft production and operating margins, the buildout and collaboration with Stellantis of our planned manufacturing facility and processes, including the ability to reach definitive documentation with respect to ongoing negotiations, the buildout and deployment of our UAM network, including the ability to reach definitive documentation with respect to our planned Los Angeles UAM network, our ability to produce aircraft on our anticipated timeline to fulfill order demand, timing of the closing of the equity investment round and use of proceeds, the design, development and implementation of vertiport infrastructure, the development, and projected market size of, the future urban air mobility market, total expected contract value with the DoD, indicative orders for aircraft in agreements with third-party partners, and the expected timeline for the receipt of regulatory certification from the FAA and international regulatory agencies. In addition, this shareholder letter refers to certain memorandums of understanding that are conditioned on the future execution by the parties of additional binding definitive agreements incorporating the terms outlined in each memorandum of understanding, which definitive agreements may not be completed or may contain different terms than those set forth in each memorandum of understanding. Forward-looking statements are based upon various estimates and assumptions, as well as information known to us as of the date hereof, and are subject to risks and uncertainties. Accordingly, actual results could differ materially due to a variety of factors, including: the early stage nature of our business and our past and projected future losses; our ability to design, develop, certify, manufacture and commercialize our aircraft and UAM ecosystem; the operation of aircraft and manufacturing processes to meet the Company's designed-for targets and goals; our dependence on a limited number of customers for our current indicative aircraft orders, which are subject to conditions, further negotiation and reaching mutual agreement on certain material terms, and the risk that such parties may cancel those orders or never place them; the effectiveness of our marketing and growth strategies, including our ability to effectively market electric air transportation as a substitute for conventional methods of transportation; our ability to compete in the UAM and eVTOL industries; our ability to obtain any required certifications, licenses, approvals, or authorizations from governmental authorities; our ability to achieve our business milestones, such as the completion of our manufacturing facility in Georgia, commencing the manufacturing of aircraft, and launch products and services on anticipated timelines; our dependence on suppliers for the parts and components in our aircraft; our ability to develop commercial-scale manufacturing capabilities; regulatory requirements and other obstacles outside of our control that slow market adoption of electric aircraft, such as the inability to obtain and maintain adequate vertiport infrastructure; our ability to hire, train and retain qualified personnel; risks related to our UAM ecosystem operating in densely populated metropolitan areas and heavily regulated airports; adverse publicity from accidents involving electric aircraft or lithium-ion battery cells; the impact of labor and union activities on our workforce; losses resulting from indexed price escalation clauses in purchase orders; regulatory risks related to evolving laws and regulations in our industry; the impact of macroeconomic conditions, inflation, interest rates, war and geopolitical conflicts, natural disasters, infectious disease outbreaks and pandemics; our need for and the availability of additional capital; and cybersecurity risks; and risks related to the dual class structure of our common stock, which has the effect of concentrating voting power with holders of our Class B common stock, including Adam Goldstein, Archer's Chief Executive Officer and a member of Archer's board of directors, and which Class B common stock will automatically convert into shares of Class A common stock, and therefore no longer have concentrated voting power on the last trading date of the fiscal year in which the number of Class B common stock represents less than 10% of the total number of common stock outstanding.

# Forward-Looking Statements & Disclaimers (cont.)

The indicative operational goals referenced in this document reflect numerous estimates and assumptions with respect to general business, economic, regulatory, market and financial conditions and other future events, as well as matters specific to the our business, all of which are difficult to predict and many of which are beyond the our control including, among other things, the timing of the receipt of required certifications, licenses, approvals or authorizations from governmental authorities, the timing of the completion of the manufacturing facility in Georgia, the actual price per vehicle paid by customers and the costs of manufacturing the aircraft, consumer demand for our aircraft and the other matters described above. These operational goals should not be relied upon as being indicative of future economic performance or results. The inclusion of the operational goals in this document is not an admission or representation that such information is material. The assumptions and estimates underlying the operational goals are inherently uncertain and are subject to a wide variety of significant business, economic and competitive risks and uncertainties that could cause actual operating results to differ materially from those presented. There can be no assurance that these goals are indicative of our future performance or that actual results will not differ materially from those presented in the operational goals. Inclusion of the operational goals in this document should not be regarded as a representation by any person that the operational goals will be achieved. The information concerning our operational goals is subjective in many respects and thus is susceptible to multiple interpretations and periodic revisions based on actual experience and business developments.

Additional risks and uncertainties that could cause actual results to differ from the results predicted are more fully detailed in our filings with the Securities and Exchange Commission (SEC), including our most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q, which are or will be available on our investor relations website at http://investors.archer.com and on the SEC website at www.sec.gov.

All forward-looking statements contained herein are based on information available to us as of the date hereof and you should not rely upon forward-looking statements as predictions of future events. The events and circumstances reflected in the forward-looking statements may not be achieved or occur. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, performance, or achievements. We undertake no obligation to update any of these forward-looking statements for any reason after the date of this shareholder letter or to conform these statements to actual results or revised expectations, except as required by law. Undue reliance should not be placed on forward-looking statements.
