

Cboe Announces Global RMC Keynote Speakers Jimmy Chin and Chai Vasarhelyi

Sep 26, 2022

- Cboe's premier educational forum to take place October 17 – 21 in Reykjavik, Iceland

CHICAGO, Sept. 26, 2022 /PRNewswire/ -- Cboe Global Markets, Inc. (Cboe: CBOE), a leading provider of global market infrastructure and tradable products, announced Academy® Award-winning filmmakers Jimmy Chin and Chai Vasarhelyi will deliver the keynote address at Cboe's upcoming Global RMC 2022.

From Monday, October 17 through Friday, October 21, traders, investors, strategists and researchers from around the world will come together for the 27th annual Cboe Risk Management Conference (RMCSM) in Reykjavik, Iceland. Leading practitioners in the derivatives and digital asset markets will share their latest insights, research and real-market applications at the first-ever Global RMC. As financial markets become more connected globally, and trading occurs around the clock, Cboe has expanded its premier educational conference beyond derivatives and volatility to include more asset classes and coverage from around the world.

Keynote speakers Jimmy Chin and Chai Vasarhelyi will discuss the risks they've taken to capture some of the most compelling adventure stories ever told. As creative partners, co-directors and husband and wife, Chin and Vasarhelyi have directed the award-winning documentaries "Meru" and "Free Solo." Their latest award-winning documentary about the daring rescue of 12 boys and their coach from a cave in Thailand, "The Rescue," was released in 2021 to critical acclaim.

Other topics on the Global RMC agenda include:

- Global Perspectives: Asset Allocation Utilizing Derivatives Overlays
- Market Curiosities: An Exploration of Intersecting Trade Ideas
- We're Going on a Liquidity Hunt – Indicators, Impact, and Market Quality
- Liquidity in its Simplest Form – Volume & Volatility Frameworks
- Hedging And Convexity: To Hedge, or Not to Hedge When your Returns are in Question
- Uncertainty and Dispersion – Exploring Allocation Decisions with Evolving Vol Regime
- Democratization of Derivatives: Exploring Buffered Outcome ETFs and Other Topics
- Systematic Investing: Manufacturing Convexity - Is the Trend Your Friend?
- Risk Fragmentation in Global Asset Markets
- Fireside Chat: Digital Assets in the Modern Trading Era

Additionally, attendees will have an opportunity to hear product updates from Cboe executives. To learn more about Cboe RMC, visit www.cboermc.com and follow updates on social media using #GlobalRMC22.

About Cboe RMC

Hosted by Cboe Global Markets, RMC (Risk Management Conference) is an educational forum dedicated to exploring the latest products, trading strategies and tactics used to manage risk exposure and enhance yields. This year, global leaders in the derivatives and digital asset markets will share their latest insights, research and real-market applications. Presenters are selected not only for their expertise, but also for their ability to communicate complex material in a straightforward, easy-to-understand way. The conference will be held in a campus-like setting, providing an elegant yet casual atmosphere that encourages attendees to network and interact.

RMC is an educational event for qualified institutional users of equity derivatives (such as institutional money managers, pension fund managers and consultants, insurance company professionals, or other financial industry professionals). The conference is not intended or suitable for individual investors. Attendance is limited to qualified, approved registrants. Registration and sponsorship may be restricted and may be approved at the discretion of the conference organizers.

Options involve risk and are not suitable for all investors. Prior to buying or selling an option, a person must receive a copy of "Characteristics and Risks of Standardized Options." Copies are available from your broker or from The Options Clearing Corporation at www.theocc.com. Futures trading is not suitable for all investors and involves the risk of loss, which can be substantial and can exceed the amount of money deposited for a futures position. You should, therefore, carefully consider whether such trading is suitable for you in light of your circumstances and financial resources. You should put at risk only funds that you can afford to lose without affecting your lifestyle. For additional information regarding the risks associated with trading futures, see the Risk Disclosure Statement set forth in Appendix A to CFTC Regulation §1.55(c). © 2022 Cboe Exchange, Inc.
