

Cboe to Host Global Risk Management Conference, October 17-20 in Austin, Texas

Mar 16, 2023

CHICAGO, March 16, 2023 /PRNewswire/ -- Cboe Global Markets, Inc. (Cboe: CBOE), a leading provider of global market infrastructure and tradable products, today announced it will host its global Risk Management Conference (RMCSM) from Tuesday, October 17 to Friday, October 20, 2023, in Austin, Texas.

Cboe RMC is an educational forum dedicated to exploring the latest products, trading strategies and tactics used to manage risk exposure and enhance yields. Leaders from across the global derivatives markets will come together in Austin to share their investment research and its practical applications within portfolios.

A fitting backdrop for exploring risk, performance and leading-edge insights, Austin is a recognized "beta" city known for shaping the future of technology, education, and entrepreneurship. The city is also host to the famed Formula 1 Grand Prix circuit, taking place later during the week of the conference. Bringing the need for speed and accuracy into focus, Cboe RMC invites guests from across the globe to share their diverse perspectives.

Keynote speakers for this year's Cboe RMC include Claire Williams and Jason Ramos. Williams was a deputy team principal of the Williams Racing Formula 1 team from 2013 to 2020. A proven leader with a track record in strategic decision-making, she plans to discuss her experience heading one of the most successful teams in Formula 1 history.

Ramos is one of the most renowned airborne firefighters in the U.S. Currently in his 27th season as a wildland firefighter, Ramos will discuss his risk-taking experiences serving as a smokejumper, parachuting into remote areas to fight fires across the country.

The four-day conference will feature presentations and discussions led by more than 40 highly regarded financial industry experts. Signature speakers are not only experts in their field, but can communicate complex material in a straightforward, easy-to-understand way.

Visit the Cboe RMC webpage at go.cboe.com/global-rmc-2023 for additional information and to sign up to receive updates on this year's conference. Please inquire about discounts for qualified end-users and complimentary registration for financial journalists. Registration in advance is required and space is limited.

RMC is an educational event for qualified institutional users of equity derivatives (such as institutional money managers, pension fund managers and consultants, insurance company professionals, or other financial industry professionals). The conference is not intended or suitable for individual investors. Attendance is limited to qualified, approved registrants. Registration and sponsorship may be restricted and may be approved at the discretion of the conference organizers.

Options involve risk and are not suitable for all investors. Prior to buying or selling an option, a person must receive a copy of "Characteristics and Risks of Standardized Options." Copies are available from your broker or from The Options Clearing Corporation at www.theocc.com. Futures trading is not suitable for all investors and involves the risk of loss, which can be substantial and can exceed the amount of money deposited for a futures position. You should, therefore, carefully consider whether such trading is suitable for you in light of your circumstances and financial resources. You should put at risk only funds that you can afford to lose without affecting your lifestyle. For additional information regarding the risks associated with trading futures, see the Risk Disclosure Statement set forth in Appendix A to CFTC Regulation §1.55(c). © 2023 Cboe Exchange, Inc.
