CRANE NEXT

WELCOME

Jason Feldman

Vice President, Investor Relations

FORWARD-LOOKING STATEMENTS – DISCLAIMER

This presentation contains forward-looking statements within the meaning of the federal securities laws. Forward-looking statements include all statements that are not historical statements of fact and those regarding our intent, belief, or expectations, including, but not limited to: statements regarding Crane Holdings, Co. (“Crane”) and the ultimate spin-off company’s (“SpinCo”) portfolio composition and their relationship following the business separation; the anticipated timing, structure, benefits, and tax treatment of the separation transaction; benefits and synergies of the separation transaction; strategic and competitive advantages of each of Crane and SpinCo; future financing plans and opportunities; and business strategies, prospects and projected operating and financial results. In addition, there is also no assurance that the separation transaction will be completed, that Crane’s Board of Directors will continue to pursue the separation transaction (even if there are no impediments to completion), that Crane will be able to separate its businesses or that the separation transaction will be the most beneficial alternative considered. We caution investors not to place undue reliance on any such forward-looking statements.

Words such as “anticipate(s),” “expect(s),” “intend(s),” “believe(s),” “plan(s),” “may,” “will,” “would,” “could,” “should,” “seek(s),” and similar expressions, or the negative of these terms, are intended to identify such forward-looking statements. These statements are based on management’s current expectations and beliefs and are subject to a number of risks and uncertainties that could lead to actual results differing materially from those projected, forecasted or expected. Although we believe that the assumptions underlying the forward-looking statements are reasonable, we can give no assurance that our expectations will be attained.

Risks and uncertainties that could cause actual results to differ materially from our expectations include, but are not limited to: changes in global economic conditions (including inflationary pressures) and geopolitical risks, including macroeconomic fluctuations that may harm our business, results of operation and stock price; the continuing effects from the COVID-19 pandemic on our business and the global and U.S. economies generally; information systems and technology networks failures and breaches in data security, theft of personally identifiable and other information, non-compliance with our contractual or other legal obligations regarding such information; our ability to source components and raw materials from suppliers, including disruptions and delays in our supply chain; demand for our products, which is variable and subject to factors beyond our control; governmental regulations and failure to comply with those regulations; fluctuations in the prices of our components and raw materials; loss of personnel or being able to hire and retain additional personnel needed to sustain and grow our business as planned; risks from environmental liabilities, costs, litigation and violations that could adversely affect our financial condition, results of operations, cash flows and reputation; risks associated with conducting a substantial portion of our business outside the U.S.; being unable to identify or complete acquisitions, or to successfully integrate the businesses we acquire, or complete dispositions; adverse impacts from intangible asset impairment charges; potential product liability or warranty claims; being unable to successfully develop and introduce new products, which would limit our ability to grow and maintain our competitive position and adversely affect our financial condition, results of operations and cash flow; significant competition in our markets; additional tax expenses or exposures that could affect our financial condition, results of operations and cash flows; inadequate or ineffective internal controls; specific risks relating to our reportable segments, including Aerospace & Electronics, Process Flow Technologies, Payment & Merchandising Technologies and Engineered Materials; the ability and willingness of Crane and SpinCo to meet and/or perform their obligations under any contractual arrangements that are entered into among the parties in connection with the separation transaction and any of their obligations to indemnify, defend and hold the other party harmless from and against various claims, litigation and liabilities; and the ability to achieve some or all the benefits that we expect to achieve from the separation transaction.

FORWARD-LOOKING STATEMENTS – DISCLAIMER

Readers should carefully review Crane’s financial statements and the notes thereto, as well as the section entitled “Risk Factors” in Item 1A of Crane’s Annual Report on Form 10-K for the year ended December 31, 2022 and the other documents Crane and its subsidiaries file from time to time with the SEC. Readers should also carefully review the “Risk Factors” section of the registration statement relating to the business separation, which has been filed by SpinCo with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements.

These forward-looking statements reflect management’s judgment as of this date, and Crane assumes no (and disclaims any) obligation to revise or update them to reflect future events or circumstances.

We make no representations or warranties as to the accuracy of any projections, statements or information contained in this document. It is understood and agreed that any such projections, targets, statements and information are not to be viewed as facts and are subject to significant business, financial, economic, operating, competitive and other risks, uncertainties and contingencies many of which are beyond our control, that no assurance can be given that any particular financial projections ranges, or targets will be realized, that actual results may differ from projected results and that such differences may be material. While all financial projections, estimates and targets are necessarily speculative, we believe that the preparation of prospective financial information involves increasingly higher levels of uncertainty the further out the projection, estimate or target extends from the date of preparation. The assumptions and estimates underlying the projected, expected or target results are inherently uncertain and are subject to a wide variety of significant business, economic and competitive risks and uncertainties that could cause actual results to differ materially from those contained in the financial projections, estimates and targets. The inclusion of financial projections, estimates and targets in this presentation should not be regarded as an indication that we or our representatives, considered or consider the financial projections, estimates and targets to be a reliable prediction of future events.

This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, securities for sale.

1:00-1:05	Welcome and Agenda	Jason Feldman
1:05-1:35	Introduction and Strategy Overview	Aaron Saak
1:35-2:05	Crane Currency Overview	Sam Keayes
2:05-2:35	Crane Payment Innovations Overview	Kurt Gallo
2:35-2:50	<i>Break</i>	
2:50-3:15	Expanding Beyond the Core	Aaron Saak
3:15-3:40	Financial Overview	Christina Cristiano
3:40-3:45	Closing Comments	Aaron Saak
3:45-4:00	Q&A	

SEPARATION OVERVIEW

- In March 2022, Crane Holdings, Co. announced its intention to separate into two independent, publicly traded companies
 - Crane NXT (NYSE: CXT)
 - Crane Company (NYSE: CR)
- Separation permits Crane NXT to attract a shareholder base aligned with its distinct value proposition
- Upon separation, Crane NXT will be a leading industrial technology business
- Separation enables Crane NXT to better capitalize on investment opportunities to grow the core business and expand the portfolio

Separation on track to occur on April 3, 2023

CRANE NEXT

INTRODUCTION AND STRATEGY OVERVIEW

Aaron W. Saak
President and CEO

CRANE NXT – FOCUSED ON COMPOUNDING VALUE CREATION

- Leading provider of trusted technology solutions to secure, detect, and authenticate our customers' most valuable assets
- Durable, resilient business growing at ~MSD today
- Best-in-class margins and free cash flow conversion
- Strong balance sheet with substantial capital available for acquisitions
- Track record of disciplined M&A generating high returns
- Focused on diversifying the business to higher-growth end markets

5-YEAR GOALS

~\$3B

BUILT ON TECHNOLOGY LEADERSHIP

OUR FOUNDATION

Crane Paper Co. founded by Zenas Crane in 1801 in Dalton, MA

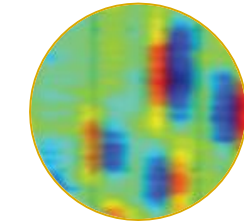

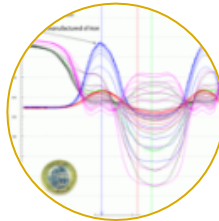

Won rights to U.S. currency paper in 1879

CRANE NXT TODAY

- Advanced detection and sensing systems
- Micro-optics materials technology
- Self-learning image recognition with adaptive algorithms
- Advanced substrate manufacturing

History of innovation for over 200 years

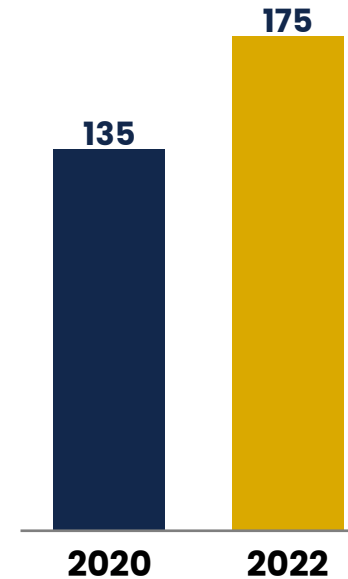

CULTURE FOCUSED ON CONTINUOUS IMPROVEMENT

Crane Business System (CBS)

- Rigorous, data-driven management cadence
- Toolkit focused on
 - Safety
 - Quality
 - Delivery
 - Cost
 - Growth
- Commitment to continuous improvement

KAIZENS

ADJ. OPERATING PROFIT*

Best-in-class operating discipline

LEGACY OF DOING BUSINESS THE RIGHT WAY

“ I am resolved to conduct my business in the strictest honesty and fairness; to avoid all deception and trickery; to deal fairly with both customers and competitors; to be liberal and just toward employees; and to put my whole mind upon the business. ”

— RT Crane, 1855

CHARITABLE FUND IMPACT

- 600+ charitable organizations received contributions
- Donations to financially burdened former employees

VOLUNTEERISM

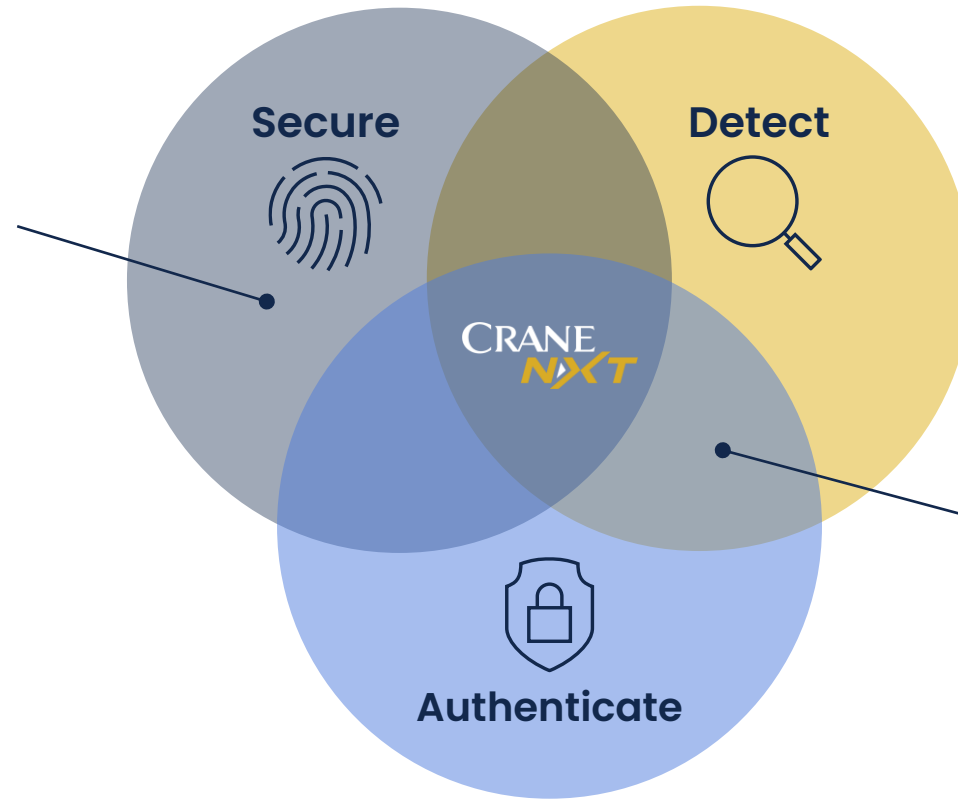

- 26,000+ associate hours
- Over 1,000 global events
- 425 organizations served

Core values that are lived every day, supporting the communities where we live

PROVEN CAPABILITIES TO EXPAND MARGINS UTILIZING CRANE BUSINESS SYSTEM

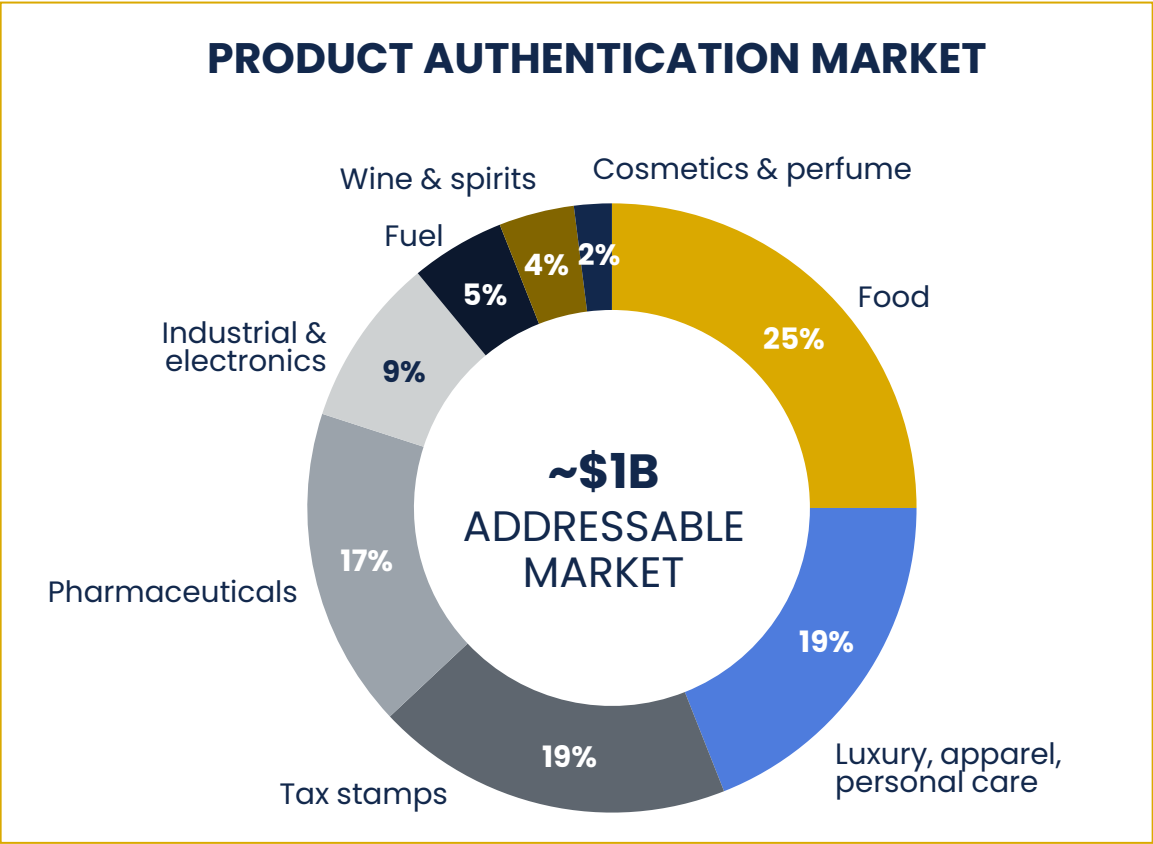

- CBS deployed post-acquisition per M&A playbook
- Drove improvement in:
 - Operational excellence & quality
 - Manufacturing productivity
 - SG&A cost optimization
- Core capability to deploy with future acquisitions

CBS deployment transformed profitability post-acquisition

PRODUCT AUTHENTICATION IS NATURAL GROWTH ADJACENCY

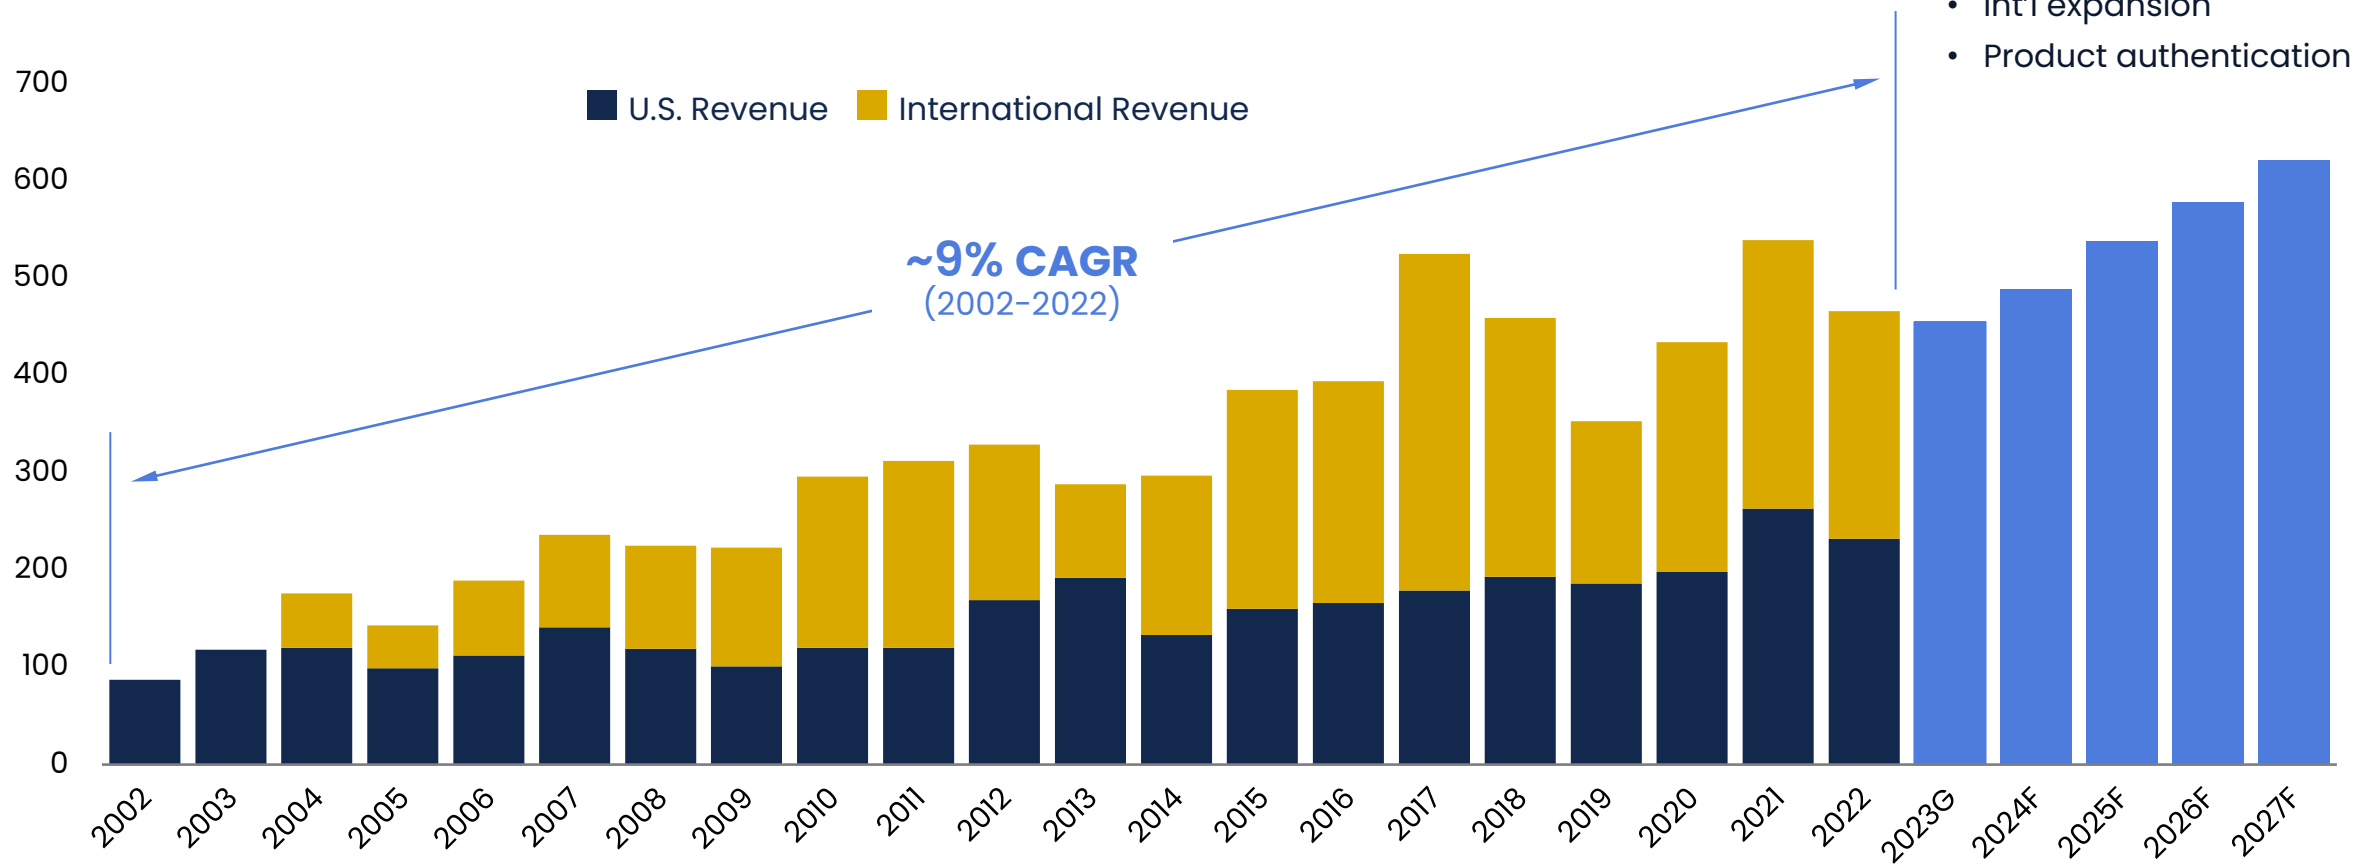

- Prevents counterfeiting
 - Ensures regulatory compliance
 - Increases consumer engagement
 - Enhances customer brand experience
 - Built on micro-optics technology
-
- The figure shows three examples of product authentication technology. The first is a green pattern with the words 'SECURE' and 'PROTECT' repeated in a grid. The second is a purple pattern with butterfly shapes and the words 'SECURE' and 'PROTECT' repeated. The third is a blue pattern with the Ford logo and the words 'Official Licensed Product' repeated.

On track to double sales in 2023

TRACK RECORD OF LONG-TERM GROWTH

Crane Currency sales (\$ millions)

Continued growth expected driven by market tailwinds and new products

CRANE CURRENCY – WHAT WE DISCUSSED

- Market leader with proprietary technology that secures and authenticates banknotes, including the U.S. \$100
- Long-standing, trusted partner to over 50 central banks
- Tailwinds for long-term growth in the core business:
 - Increasing cash in circulation, growing for the foreseeable future
 - Central banks seeking improved anti-counterfeiting technology
 - US Government new series
- Opportunities to continue to grow Product Authentication business
- Continued execution of Crane Business System driving margin expansion

Resilient business with ~MSD+ growth over the long term

~\$20B MARKET IN NEAR ADJACENCIES FOCUSED ON TECHNOLOGIES THAT SECURE, DETECT, AND AUTHENTICATE

Targeting higher-growth end markets with fragmented competition

SECULAR TRENDS DRIVING DEMAND FOR TECHNOLOGY SOLUTIONS TO SECURE, DETECT, AND AUTHENTICATE

LABOR SCARCITY

Gap in labor pool will create opportunity to reformulate cost base, increasing demand for automated detection and sensing systems

IoT & ADVANCED CONNECTIVITY

Rapid ongoing growth of connected and smart devices will drive demand for devices with increasing detection capabilities

SUPPLY CHAIN SECURITY & TRACEABILITY

Verification and security, coupled with a desire for data-driven insights on usage will drive adoption of technologies to detect and authenticate goods

TRUST ARCHITECTURE

Increasing sophistication of fraud technologies promoting adoption of biometrics and other overt and covert security technologies

Tailwinds present across multiple end markets

UNIQUE SET OF CAPABILITIES THAT ARE EXTENDABLE

Secure 

Detect 

Authenticate 

Technology Capabilities

- **Micro-optic** motion and substrate integration
- **Self learning** image recognition
- **Extraction of data from images** to measure, recognize, and authenticate

- **Cost effective sensor development** and manufacturing
- **Near-IR machine authentication**
- **Image recognition**

- **Image recognition** with adaptive algorithms
- **Repeatable microstructures**, with proprietary materials formulation
- **Image translation** into complex encoded microscale images

Manufacturing & Operational Capabilities

Regulated Markets / Government Expertise

Leveraging Crane Business System (CBS)

+150 years growing relationships build on trust

Well positioned to expand into attractive adjacent markets

ADJACENCIES LEVERAGE SIMILAR TECHNOLOGIES & CAPABILITIES

Secure & Detect

Software & hardware for face, fingerprint, palm, and iris recognition

Secure & Authenticate

Overt and covert authentication & security technology for physical products; software for authenticating products, supply chain tracking and analyzing customer data

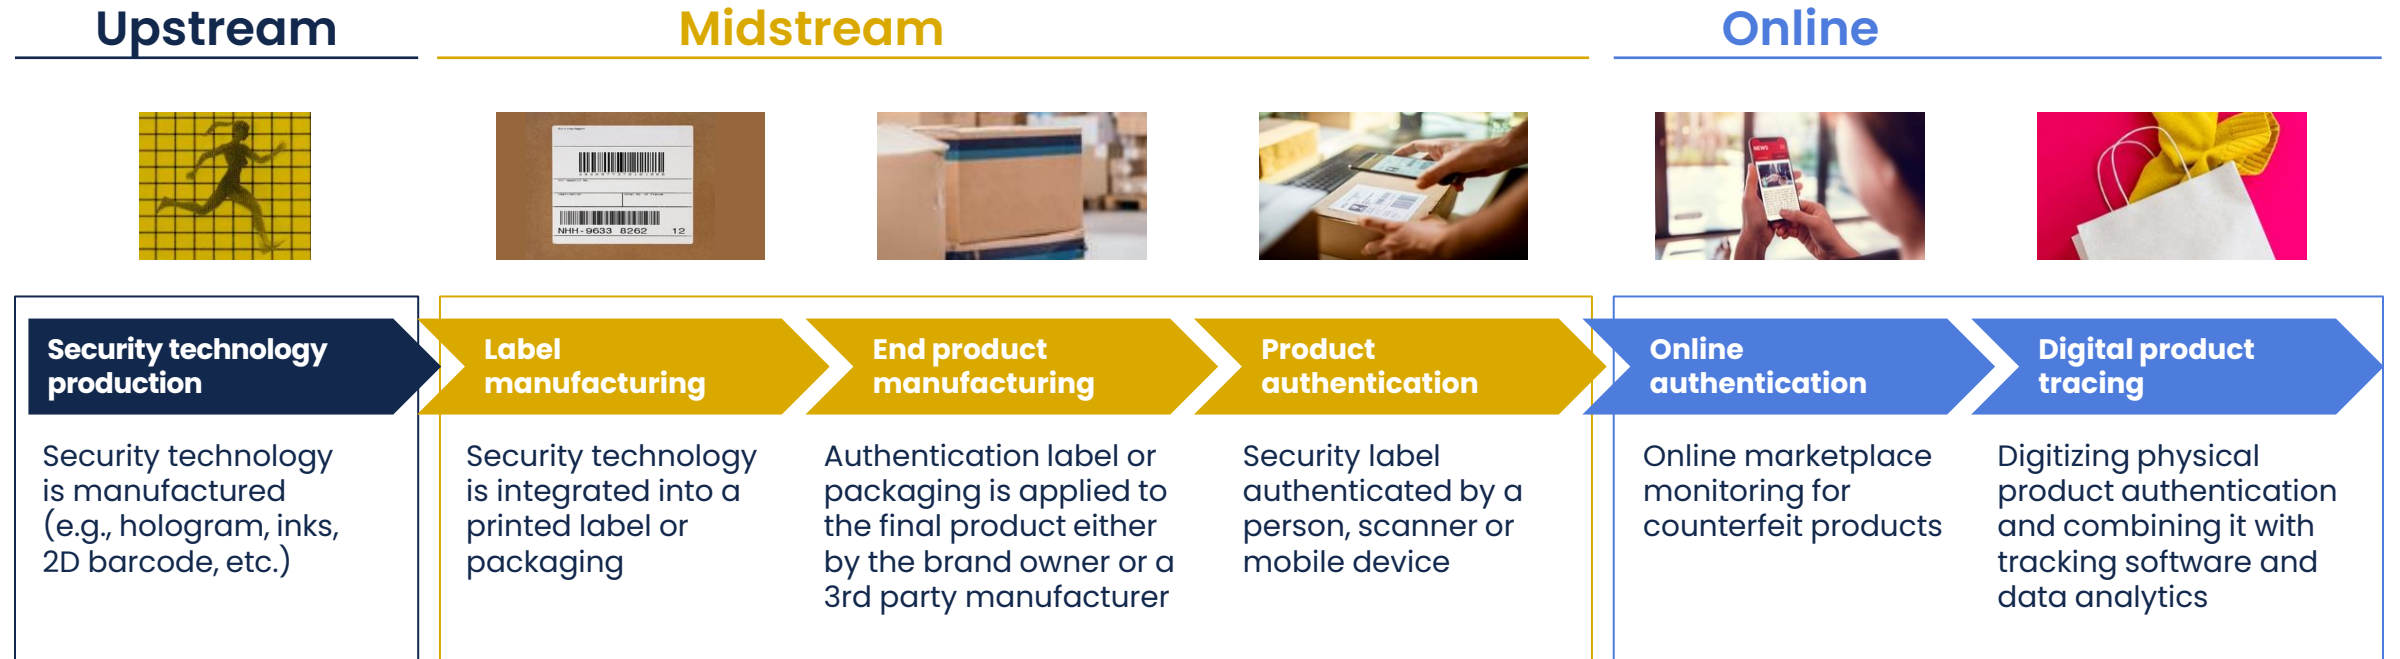

Detect & Authenticate

Hardware and software systems used to improve productivity processes by analyzing images

Multiple vectors of growth to expand beyond the core

EXAMPLE: PRODUCT AUTHENTICATION IS ~\$5B MARKET GROWING AT HSD

Fragmented market with opportunities to expand across value chain

PROVEN M&A FRAMEWORK

Where we start...

Focused on technology solutions that secure, detect, and authenticate what matters most

- Niche technologies with high barriers to entry
- Fragmented market segment with consolidation opportunities
- Market growth of >MSD

Leading position in their market niche

- Differentiation in technology, brand or channel
- Target revenue between \$100M to \$500M

Clear path to value creation

- Ability to apply CBS to improve margins and growth
- >10% ROIC by year 5

Targeting value creation opportunities to expand into near adjacencies

LONG TRACK RECORD EXECUTING M&A THAT CREATES VALUE

Leading manufacturer of detection components for coin and cash transactions

- Acquired 2013
- Revenue: ~\$380M*
- Purchase Price ~\$820M
- ~12% ROIC by Year 5

Market leader in technology for securing and authentication the world's currency

- Acquired 2018
- Revenue: ~\$460M*
- Purchase Price ~\$750M
- ~12% ROIC by Year 5

North America's leading systems and service provider of automation solutions for cash handling

- Acquired 2020
- Revenue: ~\$170M*
- Purchase Price ~\$160M
- ~27% ROIC by Year 3

Utilizing Crane Business System to improve performance post acquisition

DISCIPLINED CAPITAL ALLOCATION STRATEGY

Organic Investment

- Expect core business growth of ~MSD
- ~2% to ~2.5% CapEx as percent of sales
- Focused on new product development and added capacity for US Gov and micro-optics technology

Disciplined M&A

- Expand and align portfolio to higher-growth end markets
- ~\$3B of capacity through 2027

Competitive Dividend

- ~Mid-Teens Payout Ratio
- In-line with SMID Diversified Industrial Technology peer group

Target Leverage Level

- Net debt / adjusted EBITDA of <3x
- Share repurchases opportunistic based on market conditions

Cash Available to Deploy (2023-2027)

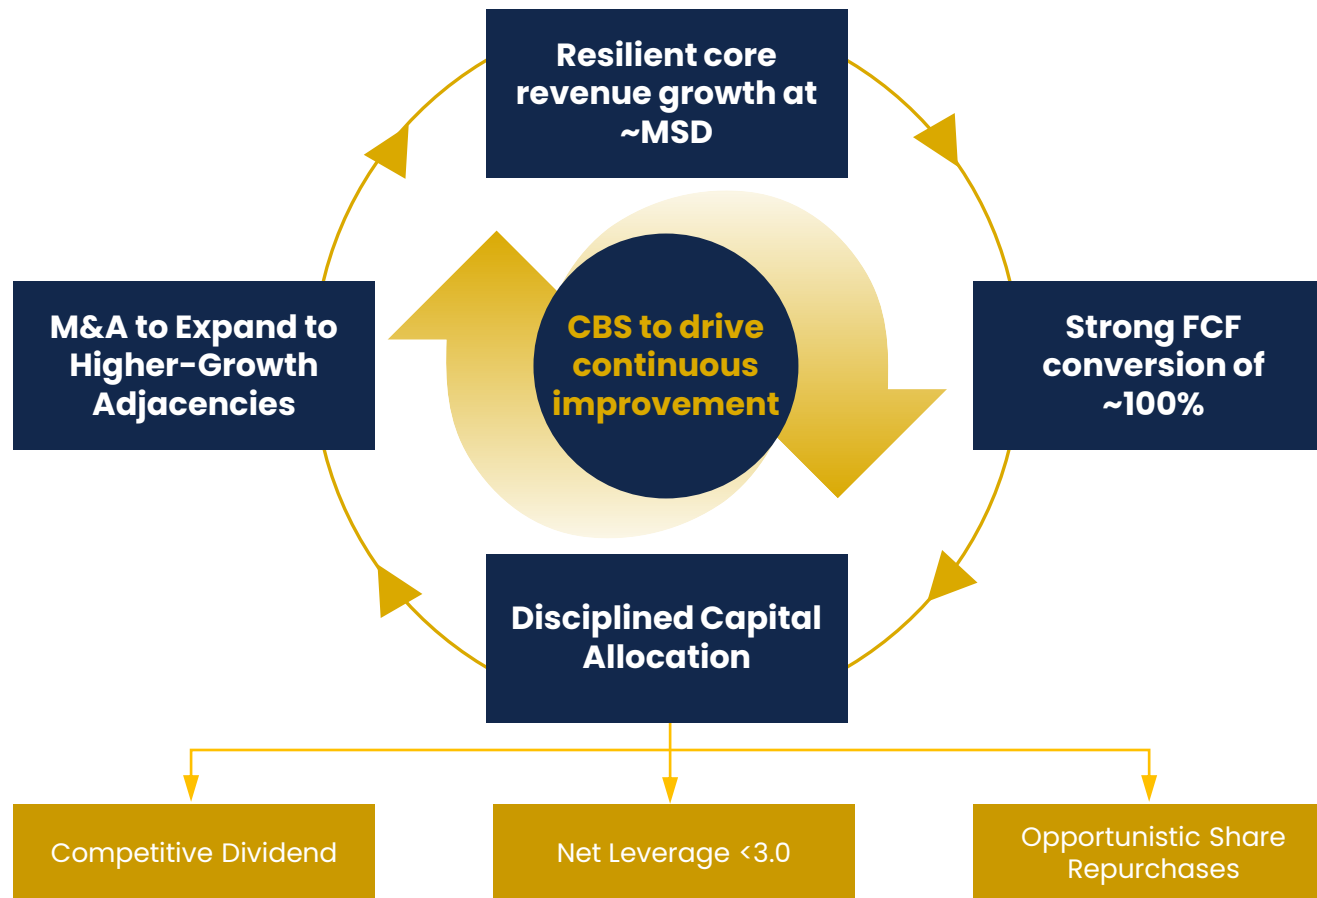

Capital Allocation as % of available cash

Focused on maximizing shareholder return

CRANE NXT VALUE CREATION FORMULA

- Investing in core business to capitalize on opportunities to enhance organic growth
- Continuously utilizing CBS to improve margins and generate high FCF
- Deploying capital to purposefully diversify and move the portfolio to higher-growth end markets through M&A
- Maintaining strong balance sheet while returning capital to shareholders via competitive dividend

Compounding value creation from core growth, margin expansion, and M&A

WHAT WE DISCUSSED

- Leveraging existing core capabilities to expand and diversify the business
- Targeting opportunities in ~\$20B market to extend our leadership in technology solutions that secure, detect, and authenticate what matters most
- Proven capability to improve margins of acquisitions over time
- Disciplined capital allocation strategy focused on shareholder value creation

Significant opportunities for shareholder value creation

FINANCIAL OVERVIEW

Christina Cristiano

Senior Vice President and CFO

FINANCIAL OVERVIEW – WHAT YOU WILL HEAR TODAY

- Durable, resilient business growing at ~MSD with EBITDA in high 20s%
- Best-in-class free cash flow
- Solid capital structure with substantial flexibility for M&A
- Roadmap in place to significantly grow the company
- Reaffirming 2023 guidance
- On track for separation on April 3

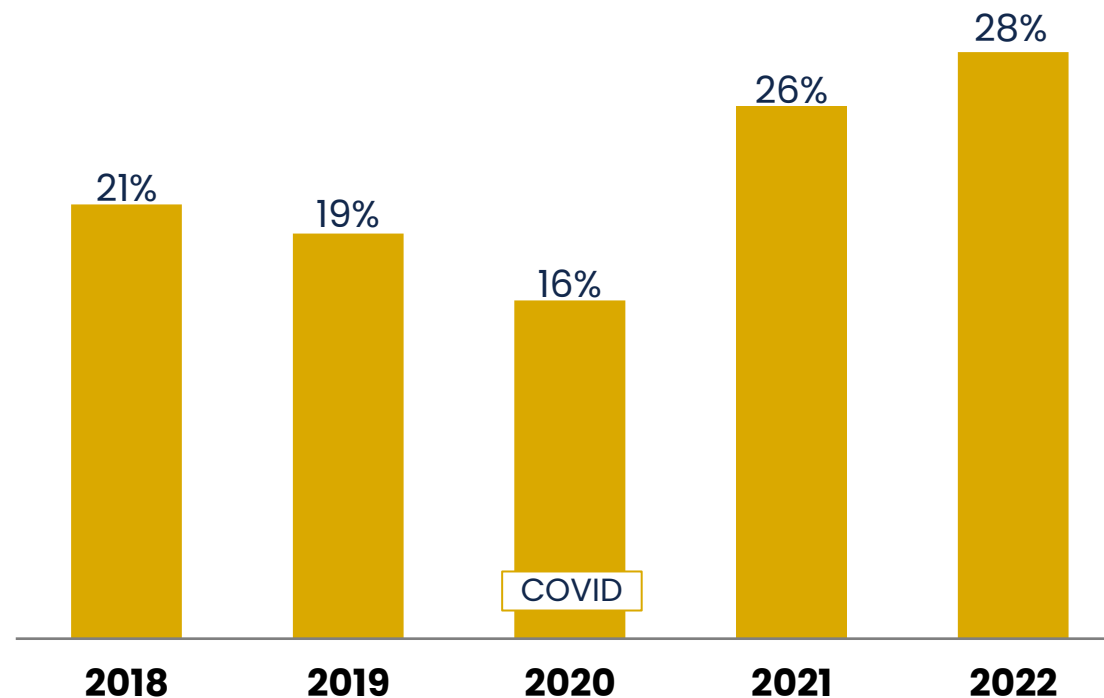

Well positioned to drive strong shareholder value creation

RESILIENT PERFORMANCE AND STRONG PROFITABILITY

ADJUSTED SALES *

ADJUSTED OPERATING PROFIT MARGIN *

						Leverage**	
						Total	Core
Operating Profit							
Crane Payment Innovations (CPI)	217	223	246	262	6%	49%	35%
Crane Currency	117	117	132	109	(17%)	NM	NM
Other	(1)	(1)	(1)	(1)			
Total Segment	333	339	376	369	(2%)	NM	NM
Operating Margin							
Crane Payment Innovations (CPI)	24.8%	25.5%	28.2%	28.9%	70 bps		
Crane Currency	25.2%	25.2%	28.2%	24.0%	(430 bps)		
Total Segment	24.9%	25.3%	28.1%	27.1%	(90 bps)		

Additional Details

- Crane Payment Innovations (CPI) growing mid-single digits driven by secular trends with solid core operating leverage
- Expect Crane Currency sales approximately flat in 2023 as the U.S. Government diverts production capacity and testing for the “Catalyst \$10” bill redesign program; temporary mix impact on margins
- U.S. Government currency demand expected to rebound in 2024, with substantial potential for growth from the New Series redesign of the \$10, followed by the \$20 and \$50
- Well positioned to ramp output if macroeconomic conditions and supply chain permit

Strong Financial Profile With Transitory Headwinds

* Please see Non-GAAP explanation and tables for details.

** “Total Leverage” defined as the change in Adjusted Operating Profit divided by the change in Sales. “Core Leverage” defined as the change in Adjusted Operating Profit divided by the change in core sales. Core sales is defined as the change in sales excluding the impact of foreign currency translation, acquisitions, and divestitures.

Additional Details

- First quarter 2023 will be reported on a Crane Holdings, Co. consolidated basis
- Guidance items for 2023 below are based on annualized, post-separation run-rates
 - Expect annualized post-separation corporate costs of ~\$50 million in 2023
 - Expect 2023 annualized net non-operating expense of ~\$45 million
 - Expect post-separation adjusted tax rate of ~20%
 - Expect 2023 diluted shares of ~57.3 million
 - Expect average free cash flow conversion [(Operating Cash Flow less Capital Expenditures) / Adjusted Net Income] of ~100% after adjusting for separation related cash items
- Pro Forma 2023 (non-segment income and expenses on an annualized, post-separation basis) guidance of \$3.65–\$3.95

Expect 2023 Adjusted Crane NXT EPS* of ~\$3.65–\$3.95

NON-GAAP EXPLANATION

Crane Holdings, Co. reports its financial results in accordance with U.S. generally accepted accounting principles (“GAAP”). This presentation includes certain non-GAAP financial measures, including Adjusted Net Sales, Adjusted Operating Profit, Adjusted Operating Margin, Adjusted Net Income, Adjusted EPS, Free Cash Flow, Free Cash Flow Conversion, Total Leverage, and Core Leverage that are not prepared in accordance with GAAP. These non-GAAP measures are an addition, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP and should not be considered as an alternative to operating income, net income or any other performance measures derived in accordance with GAAP. We believe that these non-GAAP measures of financial results (including on a forward-looking or projected basis) provide useful supplemental information to investors about Crane Holdings, Co. Our management uses certain forward looking non-GAAP measures to evaluate projected financial and operating results. However, there are several limitations related to the use of these non-GAAP measures and their nearest GAAP equivalents. For example, other companies may calculate non-GAAP measures differently or may use other measures to calculate their financial performance, and therefore our non-GAAP measures may not be directly comparable to similarly titled measures of other companies.

Reconciliations of certain forward-looking and projected non-GAAP measures for post-separation Crane Company and Crane NXT, including Adjusted Operating Profit, Adjusted Net Income, Adjusted EPS, EBITDA, Adjusted EBITDA, Adjusted EBITDA Margin, Total Leverage, and Core Leverage to the closest corresponding GAAP measure are not available without unreasonable efforts due to the high variability, complexity and low visibility with respect to the charges excluded from these non-GAAP measures, which could have a potentially significant impact on our future GAAP results. For post-separation Crane Company and Crane NXT, these forward looking and projected non-GAAP measures are calculated as follows:

- “Adjusted Operating Profit” is calculated as Operating Profit before Special Items which include transaction related expenses such as tax charges, professional fees and incremental corporate costs related to the proposed separation and other potential corporate transactions, as well as include intangible amortization.
- “Adjusted Net Income” is calculated as Net Income before Special Items which include transaction related expenses such as tax charges, professional fees and incremental corporate costs related to the proposed separation and other potential corporate transactions, as well as intangible amortization.
- “Adjusted EPS” is calculated as Adjusted Net Income divided by diluted shares.
- “EBITDA” is calculated as earnings before interest, tax, depreciation and amortization expenses.
- “Adjusted EBITDA” is calculated as earnings before interest, tax, depreciation and amortization expenses, before Special Items which include transaction related expenses such as tax charges, professional fees and incremental corporate costs related to the proposed separation and other potential corporate transactions.
- “Adjusted EBITDA margin” is calculated as Adjusted EBITDA divided by sales.
- “Total Leverage” is calculated as the change in sales divided by the change in Adjusted Operating Profit.
- “Core Leverage” is calculated as the change in core sales divided by the change in Adjusted Operating Profit. The change in core sales is defined as the change in sales after excluding the impacts from foreign exchange, acquisitions, and divestitures.

NON-GAAP EXPLANATION

We believe that each of the following non-GAAP measures provides useful information to investors regarding the Company's financial conditions, operations, and historical performance:

- "Adjusted Net Sales" adds back to net sales pre-acquisition deferred revenue that would otherwise have been recognized but for the purchase accounting treatment of acquisitions.
- "Adjusted Operating Profit" and "Adjusted Operating Margin" add back to Operating Profit items which are outside of our core performance, some of which may or may not be non-recurring, and which we believe may complicate the interpretation of the Company's underlying earnings and operational performance. These items include income and expense such as: the loss on divestiture of asbestos-related assets and liabilities, transaction related expenses, and repositioning related (gains) charges. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. We believe that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.
- "Adjusted Net Income" and "Adjusted EPS" exclude items which are outside of our core performance, some of which may or may not be non-recurring, and which we believe may complicate the presentation of the Company's underlying earnings and operational performance. These measures include income and expense items that impacted Operating Profit such as: the loss on divestiture of asbestos-related assets and liabilities, transaction related expenses, and repositioning related (gains) charges. Additionally, these non-GAAP financial measures exclude income and expense items that impacted Net Income and Earnings per Diluted Share such as: interest expense on the 364 Day Credit Agreement related to the asbestos transaction, tax benefit related to the divestiture of asbestos-related assets and liabilities, the impact of pension curtailments and settlements, gain on the sale of business, deferred tax adjustment related to sale of business, discrete tax reserve adjustment and gain on the sale of property. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. We believe that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.
- "Free Cash Flow" and "Adjusted Free Cash Flow" provide supplemental information to assist management and investors in analyzing the Company's ability to generate liquidity from its operating activities. The measure of free cash flow does not take into consideration certain other non-discretionary cash requirements such as, for example, mandatory principal payments on the Company's long-term debt. Free Cash Flow is calculated as cash provided by or used for operating activities less capital spending. Adjusted Free Cash Flow is calculated as Free Cash Flow adjusted for certain cash items which we believe may complicate the interpretation of the Company's underlying free cash flow performance such as certain transaction related cash flow items related to 2022 portfolio actions and the divestiture of asbestos-related assets and liabilities. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. We believe that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future cash flows that are complementary to GAAP metrics.

This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, securities for sale.

SPEAKER BIOS

AARON W. SAAK

**President & Chief Executive Officer
Crane NXT, Co.**

Aaron Saak was appointed Crane NXT President and Chief Executive Officer in November 2022. Mr. Saak has more than 20 years of experience leading technology-focused businesses for multinational organizations.

Before joining Crane, Mr. Saak served as President and CEO of Mobility Solutions and President of Gilbarco Veeder-Root (GVR), a subsidiary of the Vontier Corporation, with approximately \$2 billion in revenue and sales in over 40 countries. Prior to GVR, Mr. Saak held senior leadership roles with Tyco International, including as Vice President and General Manager for the SimplexGrinnell business. Additionally, his career includes a ten-year tenure at General Electric.

Mr. Saak obtained a Ph.D. in Materials Science and Engineering from Northwestern University, Master's degree Industrial Engineering and Management Science from Northwestern University, and a Bachelor's degree in Ceramic Engineering from the University of Illinois at Urbana-Champaign.

CHRISTINA CRISTIANO

Senior Vice President & CFO
Crane NXT, Co.

Christina Cristiano joined Crane as Vice President, Controller & Chief Accounting Officer in May 2019. In this role, Christina is responsible for overseeing Crane’s global accounting policies and operations; leading the Company’s enterprise risk management process; and ensuring the integrity of the Company’s internal and external reporting. In 2023, Christina was promoted to Senior Vice President & Chief Financial Officer, Crane NXT.

Prior to joining Crane, Christina was Vice President and Controller of Global Accounting and Statutory Reporting at Thomson Reuters. Christina started her career in the Assurance and Advisory Business Services practice at Ernst & Young.

Ms. Cristiano has a Bachelor of Science in Accounting from Villanova University and an MBA in Finance from Columbia Business School. She is a Certified Public Accountant.

KURT GALLO

Senior Vice President Crane NXT, Co.

Kurt Gallo joined Crane in early 2008, as the General Manager of Crane’s payment solution businesses. Between 2008 and 2011, he drove the consolidation and harmonization of the three separate businesses into a unified business known as Crane Payment Solutions (CPS). In 2011, he oversaw the acquisition and integration of the Money Controls coin business into CPS and was named President in 2012. From 2008 to 2013, the business grew at an average annual growth rate of 7%, achieving \$180M of revenue. In 2014, Crane acquired MEI and Kurt was asked to lead the newly created Crane Payment Innovation (CPI) business. Throughout the integration process, the CPI business continued to outperform expectations, over-delivering on synergies savings and driving strong year-over-year operating performance growth. In 2019, Kurt was promoted to Senior Vice President overseeing both CPI and Crane Currency businesses. In 2023, Kurt will continue to oversee the operating businesses of CPI and Crane Currency for Crane NXT.

Prior to joining Crane, Kurt spent nine years with the Danaher Corporation where he held progressively larger President roles, running three different businesses across the Power Quality Group and Dental Platform. Prior to Danaher, he spent nine years with American Power Conversion (a division of Group Schneider) as the business leader for their retail unit and as the Midwest Regional Sales Manager.

Kurt has a Bachelor of Engineering degree from the University of Michigan and an MBA in Finance and Marketing from the University of Chicago.

SAM KEAYES

**President, Crane Currency
Crane NXT, Co.**

Sam Keayes joined Crane Currency in January 2019 as Vice President/General Manager of the International business, before being promoted to President of Crane Currency in 2020. He joined Crane Currency from Thales, a multi-national engineering business serving aerospace, ground transportation, defense, and security markets, in which Sam held senior roles in the UK and Australia, including VP Strategy and Government Relations; VP Security and Consulting; and VP Secure Communications and Transportation Systems. Earlier in his career, Sam worked for the British Government where he held a variety of roles in security, defense, and international relations, including working in post-conflict Bosnia & Kosovo and as the Defense Secretary's Chief Press Officer.

Sam Keayes has served on the leadership teams of the following organizations; Board Member Thales UK (\$2Bn sales/8,000 people) between 2008-15; Trustee Royal United Services Institute (world's oldest defense/security thinktank) between 2011-15; Board Member Thales Australia (\$1Bn sales/3,800 people) between 2015-19 and Board Member/Treasurer, International Currency Association since 2020.

Sam has a Masters in Social and Political Sciences and an MBA from St John's College, Cambridge University and an MBA from Cranfield University.

JASON FELDMAN

**Vice President, Investor Relations
Crane Holdings, Co.**

Jason Feldman joined Crane Holdings, Co. as Director, Investor Relations in March 2014, and was promoted to Vice President, Investor Relations in 2019. Prior to joining Crane, Mr. Feldman worked for 10 years as an associate and analyst in the equity research department at UBS, including six years as the lead Electrical Equipment and Multi-Industry analyst. He started his career as a consultant in the telecommunications practice at American Management Systems.

Mr. Feldman holds an MBA from NYU's Stern School of Business, an MA from Ohio State University, and a BA from Dartmouth College.
