CRANE NXT

SECOND QUARTER 2023 FINANCIAL RESULTS

August 7, 2023

FORWARD-LOOKING STATEMENTS – DISCLAIMER

This presentation contains forward-looking statements within the meaning of the federal securities laws. Forward-looking statements include all statements that are not historical statements of fact and those regarding Crane NXT, Co.'s (the "Company") intent, belief, or expectations. Words such as "anticipate(s)," "expect(s)," "intend(s)," "believe(s)," "plan(s)," "may," "will," "would," "could," "should," "seek(s)," and similar expressions, or the negative of these terms, are intended to identify such forward-looking statements. These statements are based on management's current expectations and beliefs and are subject to a number of risks and uncertainties that could lead to actual results differing materially from those projected, forecasted or expected. The Company assumes no (and disclaims any) obligation to revise or update these statements to reflect future events or circumstances. Although the Company believes that the assumptions underlying the forward-looking statements are reasonable, it can give no assurance that its expectations will be attained. The Company cautions investors not to place undue reliance on any such forward-looking statements.

Risks and uncertainties that could cause actual results to differ materially from the Company's expectations include, but are not limited to: changes in global economic conditions (including inflationary pressures) and geopolitical risks, including macroeconomic fluctuations that may harm its business, results of operation and stock price; business and economic disruptions associated with extraordinary public health issues such as large-scale health epidemics or pandemics; information systems and technology networks failures and breaches in data security, personally identifiable and other information, non-compliance with its contractual or other legal obligations regarding such information; its ability to source components and raw materials from suppliers, including disruptions and delays in its supply chain; demand for its products, which is variable and subject to factors beyond its control; governmental regulations and failure to comply with those regulations; fluctuations in the prices of its components and raw materials; loss of personnel or being able to hire and retain additional personnel needed to sustain and grow its business as planned; risks from environmental liabilities, costs, litigation and violations that could adversely affect its financial condition, results of operations, cash flows and reputation; risks associated with conducting a substantial portion of its business outside the U.S.; being unable to identify or complete acquisitions, or to successfully integrate the businesses the Company acquires, or complete dispositions; adverse impacts from intangible asset impairment charges; potential product liability or warranty claims; being unable to successfully develop and introduce new products, which would limit its ability to grow and maintain its competitive position and adversely affect its financial condition, results of operations and cash flow; significant competition in the Company's markets; additional tax expenses or exposures that could affect its financial condition, results of operations and cash flows; inadequate or ineffective internal controls; specific risks relating to the Company's reportable segments; the ability and willingness of Crane NXT, Co. and Crane Company to meet and/or perform their obligations under any contractual arrangements that are entered into among the parties in connection with the separation transaction and any of their obligations to indemnify, defend and hold the other party harmless from and against various claims, litigation and liabilities; and the ability to achieve some or all the benefits that the Company expects to achieve from the separation transaction.

Readers should carefully review Crane NXT, Co.'s financial statements and the notes thereto, as well as the section entitled "Risk Factors" in Item 1A of Crane NXT, Co.'s Annual Report on Form 10-K for the year ended December 31, 2022 and the other documents Crane NXT, Co.'s and its subsidiaries file from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements.

This presentation contains non-GAAP financial measures. We have provided additional information regarding these non-GAAP financial measures and reconciliations of those measures to the most directly comparable GAAP measures at the end of this presentation.

STRONG SECOND QUARTER RESULTS*, RAISING 2023 GUIDANCE

$352M Sales	**+6%** Core Sales Growth
$104M Adj. EBITDA	**$1.12** Adj. EPS
29.6% Adj. EBITDA Margin	**26.5%** Adj. OP Margin
$70M Adj. Free Cash Flow	**~1.5x** Net Debt-to-EBITDA

- Second quarter results ahead of expectations in sales and operating margins
- Crane Payment Innovations (CPI) delivered strong core sales growth of ~8% with significant margin expansion to ~31%
- Crane Currency showed significant improvement vs. prior quarter and exceeded expectations with ~4% core sales growth, ~30% margins, and ~90% backlog growth
- Cash flow performance in line with normal seasonality and on-track for ~100% free cash flow conversion

Raising full-year Adjusted EPS guidance by $0.10 to ~$3.85-$4.15

* Please see Non-GAAP explanation.

CRANE NXT

Q2 2023 EARNINGS SUMMARY AND HIGHLIGHTS

$ Millions, except per-share amounts	Q2 2023	
	As-Reported*	Adjusted*
Sales	$352	$352
Operating Profit	$69	$93
Operating Profit Margin	19.5%	26.5%
Net Income (GAAP) / Adj. EBITDA	$43	$104
Net Income Margin (GAAP) / Adj. EBITDA Margin	12.3%	29.6%
Free Cash Flow	$55	$70

	Q2 2023
Core Growth	+6.4%
FX Translation	(0.9%)
Total Sales Change	**+5.5%**

	Q2 2023
Diluted EPS: GAAP	$0.75
Adjustments	$0.37
Diluted EPS: Adjusted	**$1.12**

APPENDIX

CRANE NXT

NON-GAAP EXPLANATION

Crane NXT, Co. reports its financial results in accordance with U.S. generally accepted accounting principles (“GAAP”). This press release includes certain non-GAAP financial measures, including Adjusted operating profit, Adjusted operating margin, Adjusted EPS, free cash flow and Adjusted free cash Flow, that are not prepared in accordance with GAAP. These non-GAAP measures are an addition, and not a substitute for or superior to, measures of financial performance prepared in accordance with GAAP and should not be considered as an alternative to operating income, net income or any other performance measures derived in accordance with GAAP. The Company's management believes that these non-GAAP measures of financial results (including on a forward-looking or projected basis) provide useful supplemental information to investors about Crane NXT. However, there are a number of limitations related to the use of these non-GAAP measures and their nearest GAAP equivalents. For example, other companies may calculate non-GAAP measures differently or may use other measures to calculate their financial performance, and therefore the Company's non-GAAP measures may not be directly comparable to similarly titled measures of other companies.

Reconciliations of certain forward-looking and projected non-GAAP measures, including Adjusted segment margin, Adjusted EPS, Adjusted EBITDA, Adjusted operating margin, and Free cash flow conversion to the closest corresponding GAAP measure are not available without unreasonable efforts due to the high variability, complexity and low visibility with respect to the charges excluded from these non-GAAP measures, which could have a potentially significant impact on Crane NXT's future GAAP results. Crane NXT calculates Adjusted segment margin, Adjusted EPS, Adjusted EBITDA, Adjusted operating margin, and free cash flow conversion as described below.

- "Adjusted segment margin" is calculated as Adjusted segment profit divided by sales. Adjusted segment profit is calculated as segment profit excluding intangible asset amortization, stock-based compensation adjustment resulting from the separation and transaction related expenses such as tax charges, professional fees, and incremental costs related to the separation.
- "Adjusted EPS" is calculated as Adjusted net income divided by diluted shares. Adjusted net income is calculated as net income excluding intangible asset amortization, stock-based compensation adjustment resulting from the separation and transaction related expenses such as tax charges, professional fees, and incremental costs related to the separation.
- “Adjusted EBITDA” is calculated as net income excluding net interest expense, tax expense, depreciation and amortization, stock-based compensation adjustment resulting from the separation and transaction related expenses such as tax charges, professional fees, and incremental costs related to the separation.
- “Adjusted operating margin” is calculated as Adjusted Operating Profit divided by sales. Adjusted Operating Profit is calculated as Operating Profit excluding intangible asset amortization, stock-based compensation adjustment resulting from the separation and transaction related expenses such as tax charges, professional fees and incremental corporate costs related to the separation and other potential corporate transactions.
- “Free cash flow conversion” is calculated as Free Cash Flow divided by Adjusted net income. Free Cash Flow is calculated as cash provided by or used for operating activities less capital spending.

NON-GAAP EXPLANATION

The Company's management believes that each of the following non-GAAP measures provides useful information to investors regarding the Company's financial conditions and operations:

- "Adjusted operating profit" and "Adjusted operating margin" add back to operating profit items which are outside of the Company's core performance, some of which may or may not be non-recurring, and which management believes may complicate the interpretation of the Company's underlying earnings and operational performance. These items include income and expense such as: intangible asset amortization, stock-based compensation adjustment resulting from the separation and transaction related expenses. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. Management believes that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.
- "Adjusted segment profit" and "Adjusted segment margin" add back to segment profit items which are outside of the Company's core performance, some of which may or may not be non-recurring, and which management believes may complicate the interpretation of the Company's underlying earnings and operational performance. These items include income and expense such as: intangible asset amortization and stock-based compensation adjustment resulting from the separation. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. Management believes that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.
- "Adjusted net income," "Adjusted EPS," and "Adjusted tax rate" exclude items which are outside of the Company's core performance, some of which may or may not be non-recurring, and which management believes may complicate the presentation of the Company's underlying earnings and operational performance. These measures include income and expense items that impacted operating profit such as: intangible asset amortization, stock-based compensation adjustment resulting from the separation and transaction related expenses. Additionally, these non-GAAP financial measures exclude income and expense items that impacted net income and earnings per diluted share such as: pre-separation related party interest expense. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. Management believes that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.
- "Free cash flow" and "Adjusted free cash flow" provide supplemental information to assist management and investors in analyzing the Company's ability to generate liquidity from its operating activities. The measure of free cash flow does not take into consideration certain other non-discretionary cash requirements such as, for example, mandatory principal payments on the Company's long-term debt. Free cash flow is calculated as cash provided by operating activities less capital spending. Adjusted free cash flow is calculated as free cash flow adjusted for certain cash items which management believes may complicate the interpretation of the Company's underlying free cash flow performance such as certain transaction related cash flow items related to 2022 portfolio actions. These items are not incurred in all periods, the size of these items is difficult to predict, and none of these items are indicative of the operations of the underlying businesses. Management believes that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future cash flows that are complementary to GAAP metrics.
- "Adjusted EBITDA" and "Adjusted EBITDA margin" excludes net interest expense, tax expense and depreciation and amortization expense from net income, as well as Special items such as ,stock-based compensation adjustment resulting from the separation and transaction related expenses. Management believes that non-GAAP financial measures that exclude these items provide investors with an alternative metric that can assist in predicting future earnings and profitability that are complementary to GAAP metrics.
