# Cautionary Statement

This document contains forward-looking statements about Whirlpool Corporation and its consolidated subsidiaries ("Whirlpool") that speak only as of this date. Whirlpool disclaims any obligation to update these statements. Forward-looking statements in this document may include, but are not limited to, statements regarding expected financial results for 2021 and the key drivers for such results, industry expectations, supply-chain improvements, COVID-related supply chain impacts, and progress on ESG commitments. Many risks, contingencies and uncertainties could cause actual results to differ materially from Whirlpool's forward-looking statements. Among these factors are: (1) COVID-19 pandemic-related business disruption and economic uncertainty; (2) intense competition in the home appliance industry reflecting the impact of both new and established global competitors, including Asian and European manufacturers, and the impact of the changing retail environment, including direct-to-consumer sales; (3) Whirlpool's ability to maintain or increase sales to significant trade customers and the ability of these trade customers to maintain or increase market share; (4) Whirlpool's ability to maintain its reputation and brand image; (5) the ability of Whirlpool to achieve its business plans, productivity improvements, and cost-control objectives, and to leverage its global operating platform, and accelerate the rate of innovation; (6) Whirlpool's ability to obtain and protect intellectual property rights; (7) acquisition and investment-related risks, including risks associated with our past acquisitions, and risks associated with our increased presence in emerging markets; (8) risks related to our international operations, including changes in foreign regulations, regulatory compliance, and disruptions arising from political, legal and economic instability; (9) information technology system failures, data security breaches, data privacy compliance, network disruptions, and cybersecurity attacks; (10) product liability and product recall costs; (11) the ability of suppliers of critical parts, components and manufacturing equipment to deliver sufficient quantities to Whirlpool in a timely and cost-effective manner; (12) our ability to attract, develop and retain executives, and other qualified employees; (13) the impact of labor relations; (14) fluctuations in the cost of key materials (including steel, resins, copper and aluminum) and components and the ability of Whirlpool to offset cost increases; (15) Whirlpool's ability to manage foreign currency fluctuations; (16) impacts from goodwill impairment and related charges; (17) triggering events or circumstances impacting the carrying value of our long-lived assets; (18) inventory and other asset risk; (19) the uncertain global economy and changes in economic conditions which affect demand for our products; (20) health care cost trends, regulatory changes and variations between results and estimates that could increase future funding obligations for pension and postretirement benefit plans; (21) changes in LIBOR, or replacement of LIBOR with an alternative reference rate; (22) litigation, tax, and legal compliance risk and costs, especially if materially different from the amount we expect to incur or have accrued for, and any disruptions caused by the same; (23) the effects and costs of governmental investigations or related actions by third parties; and (24) changes in the legal and regulatory environment including environmental, health and safety regulations, and taxes and tariffs. Additional information concerning these and other factors can be found in Whirlpool's filings with the Securities and Exchange Commission, including the most recent annual report on Form 10-K, quarterly reports on Form 10-Q, and current reports on Form 8-K.

# Use of Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures, some of which we refer to as “ongoing”<sup>(1)</sup> measures:

Ongoing earnings per diluted share, earnings before interest and taxes (EBIT), EBIT margin, ongoing EBIT, and ongoing EBIT margin

Other non-GAAP financial measures included in this presentation are free cash flow<sup>(2)</sup>, free cash flow as percentage of sales, net sales (excluding currency), adjusted effective tax rate, net sales (excluding divestitures and currency), which we refer to as organic net sales, gross debt leverage (Gross Debt/Ongoing EBITDA) and ROIC.

Please refer to the supplemental information pack located in the events section of our Investor Relations website at [investors.whirlpoolcorp.com](http://investors.whirlpoolcorp.com) for a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures.

(1) Ongoing measures are non-GAAP measures. See our website for reconciliation information.

(2) Free cash flow is a non-GAAP measure. See our website for reconciliation information.

(3) Segment EBIT represents our consolidated EBIT broken down by the Company's reportable segments and are metrics used by the chief operating decision maker in accordance with ASC 280. Consolidated EBIT also includes corporate "Other/Eliminations" of \$(43) million and \$(95) million for the fourth quarters of 2020 and 2019, respectively.

(4) Organic net sales is a non-GAAP measure. See our website for reconciliation information for this and prior quarters.

(5) Gross debt leverage represents Gross Debt/Ongoing EBITDA. See our website for reconciliation information.

(6) Return on Invested Capital (ROIC) is a non-GAAP measure. See our website for reconciliation information.
