This document contains forward-looking statements about Whirlpool Corporation and its consolidated subsidiaries ("Whirlpool") that speak only as of this date. Whirlpool disclaims any obligation to update these statements. Forward-looking statements in this document may include, but are not limited to, statements regarding future financial results, long-term value creation goals, portfolio transformation, restructuring, repurchase expectations, productivity, direct-to-consumer sales growth, raw material prices, cost takeout, cost reset, raw material prices, transaction closing expectations, and external environment expectations, including demand, net cost, inflation and the impact of COVID-19 and the Russia/Ukraine conflict on our operations. Such statements can be identified by the use of terminology such as "may," "could," "will," "should," "possible," "plan," "predict," "forecast," "potential," "anticipate," "estimate," "expect," "project," "intend," "believe," "may impact," "on track," and similar words or expressions. Many risks, contingencies and uncertainties could cause actual results to differ materially from Whirlpool's forward-looking statements. Among these factors are: (1) the ongoing Russian invasion of Ukraine and related conflict and sanctions; (2) COVID-19 pandemic-related business disruptions and economic uncertainty; (3) intense competition in the home appliance industry reflecting the impact of both new and established global competitors, including Asian and European manufacturers, and the impact of the changing retail environment, including direct-to-consumer sales; (4) Whirlpool's ability to maintain or increase sales to significant trade customers and the ability of these trade customers to maintain or increase market share; (5) Whirlpool's ability to maintain its reputation and brand image; (6) the ability of Whirlpool to achieve its business objectives and leverage its global operating platform, and accelerate the rate of innovation; (7) Whirlpool's ability to understand consumer preferences and successfully develop new products; (8) Whirlpool's ability to obtain and protect intellectual property rights; (9) acquisition and investment-related risks, including risks associated with our past acquisitions; (10) Whirlpool's ability to navigate risks associated with our presence in emerging markets; (11) risks related to our international operations, including changes in foreign regulations; (12) Whirlpool's ability to respond to unanticipated social, political and/or economic events; (13) information technology system failures, data security breaches, data privacy compliance, network disruptions, and cybersecurity attacks; (14) product liability and product recall costs; (15) the ability of suppliers of critical parts, components and manufacturing equipment to deliver sufficient quantities to Whirlpool in a timely and cost-effective manner; (16) our ability to attract, develop and retain executives and other qualified employees; (17) the impact of labor relations; (18) fluctuations in the cost of key materials (including steel, resins, copper and aluminum) and components and the ability of Whirlpool to offset cost increases; (19) Whirlpool's ability to manage foreign currency fluctuations; (20) impacts from goodwill impairment and related charges; (21) triggering events or circumstances impacting the carrying value of our long-lived assets; (22) inventory and other asset risk; (23) health care cost trends, regulatory changes and variations between results and estimates that could increase future funding obligations for pension and postretirement benefit plans; (24) litigation, tax, and legal compliance risk and costs, especially if materially different from the amount we expect to incur or have accrued for, and any disruptions caused by the same; (25) the effects and costs of governmental investigations or related actions by third parties; (26) changes in the legal and regulatory environment including environmental, health and safety regulations, and taxes and tariffs; (27) Whirlpool's ability to respond to the impact of climate change and climate change regulation; and (28) the uncertain global economy and changes in economic conditions which affect demand for our products. Price increases and/or actions referred to throughout the document reflect previously announced cost-based price increases.

*Closing expected second half 2023

**THREE STRONG PILLARS**

**SMALL APPLIANCES (GROW, ALSO INORGANICALLY)**
- More global in nature
- Serve ‘full’ cooking journey
- Structurally attractive margin
- EBIT > 15%

**MAJOR APPLIANCES (STRENGTHEN + REFOCUS)**
- Invest in ‘Win Americas’ (#1 position)
- Accelerate India growth
- Invest in Consumer direct business
- EBIT > 12%

**COMMERCIAL APPLIANCES (GROW, ALSO INORGANICALLY)**
- Structurally attractive business
- Technology ‘cascades’ to residential
- EBIT > 15%

Free cash flow expected to increase by $350M in 2024
Why a Portfolio Transformation?

WE ARE EXPERIENCING A DIFFERENT, LESS GLOBAL WORLD

- Decoupling of global economies creating a ‘New Reality’
  - Geopolitical tensions
  - Freight cost inflation
  - Trade barriers have increased
- Regional and local scale has gained importance over global scale

FOCUS ON HIGH GROWTH, HIGH MARGIN BUSINESSES

We Are Positioning Whirlpool For The New World

- Transforming Global Business Portfolio

- Our value creation bar has been raised with the introduction of our new goals:
  - 5-6% Revenue growth
  - 11-12% EBIT Margin
  - 7-8% FCF
- Rigorous assessment of all our businesses against the value creation criteria
Successfully Completed Strategic Review of Our EMEA Business

Transaction Details

- Retaining 25% stake\(^{(1)}\) in a newly formed European appliance company
- $750M+ net present value of predictable cash flows of Whirlpool brand and potential monetization of minority interest
- Expect to close in the second half of 2023

Divested Businesses

- ~$3.5 BILLION in sales in 2022
- ~(3)% EBIT Margins in 2022
- 9 manufacturing and R&D centers
- 14,000 employees

\(^{(1)}\)EMEA Divested Business statistics exclude Russia business, divested August 2022
### FIRST HALF

- Remains subdued; demand (5) - (10)%
- Expect promotional environment similar to second half 2022, below pre-pandemic levels
- Sequentially improving; year-over-year benefit visible during Q2
- Steel spot rate improving; other commodities improving at slower pace

### SECOND HALF

- Underlying strong fundamentals to become visible with exit flat to 2022
- Expect promotional environment below pre-pandemic levels
- Sustained year-over-year raw material cost benefit in second half, largely steel and resin
- Transport and most commodities improving
U.S. Replacement Demand is Solid and Expected to Further Increase

Replacement cycle will further boost appliance sales

- Replacement cycle is shrinking (-2yrs vs 2010)
- Replacement demand will further grow due to increased appliance usage
- Continuing to see cooking appliances engagement 2x 2019 levels

Cash provided by (used in) financing activities

Note: Free Cash Flow is cash provided by (used in) operating activities after capital expenditures.
Use of Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures, some of which we refer to as “ongoing” measures:

- Ongoing earnings per diluted share, earnings before interest and taxes (EBIT), EBIT margin, ongoing EBIT, and ongoing EBIT margin

Other non-GAAP financial measures that may be included in this presentation are free cash flow, free cash flow as percentage of sales, net sales (excluding currency), adjusted effective tax rate, net sales (excluding divestitures and currency), which we refer to as organic net sales, gross debt leverage (Gross Debt/Ongoing EBITDA) and ROIC.

Please refer to the supplemental information pack located in the events section of our Investor Relations website at investors.whirlpoolcorp.com for a reconciliation of these non-GAAP financial measures to the most directly comparable GAAP financial measures. Whirlpool does not provide a Non-GAAP reconciliation for its forward-looking long-term value creation goals, such as organic net sales, ongoing EBIT, free cash flow conversion, ROIC and gross debt leverage, as these long-term management goals are not annual guidance, and the reconciliation of these long-term measures would rely on market factors and certain other conditions and assumptions that are outside of the company's control.

(1) Final post-closing ownership ratio will be determined after taking into account the respective 2022 EBITDA, net asset values, net indebtedness, and net working capital of the parties. Arcelik's wholly owned subsidiary Ardutch B.V. has entered into the contribution agreement with 75% ownership. Agreement in principle to sell Middle East and Africa relates to sale of wholly-owned subsidiaries in UAE and Morocco and operations in various North Africa countries.

(2) Ongoing measures are non-GAAP measures. See our website for reconciliation information.

(3) Free cash flow is a non-GAAP measure. The Company defines free cash flow as cash provided by operating activities less capital expenditures. See our website for reconciliation information.
