NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Brooke Life Insurance Company (the “Company”) are presented on the basis of accounting practices prescribed or permitted by the Michigan Department of Insurance and Financial Services.

The Department of Insurance and Financial Services recognizes statutory accounting practices prescribed or permitted by the state of Michigan for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under Michigan Insurance Law. The Department of Insurance and Financial Services has adopted the National Association of Insurance Commissioners' (“NAIC”) Accounting Practices and Procedures Manual (“NAIC SAP”) to the extent that the accounting practices, procedures, and reporting standards are not modified by the Michigan Insurance Code. The commissioner of insurance has the right to permit other specific practices that deviate from prescribed practices.

In accordance with SSAP No. 97, the Company’s investment in a U.S. insurance subsidiary should be recorded based on the underlying audited statutory equity of the subsidiary’s financial statements, adjusted for any unamortized goodwill as provided for in SSAP No. 68. In the absence of audited statutory financials, the Company’s investment in subsidiary is not an admitted asset. However, the Company received approval from the Department of Insurance and Financial Services regarding the use of a permitted practice, which allows the Company to report its investment in Brooke Life Reinsurance Company, a subsidiary, at the lower of net contributed capital or total equity on a modified GAAP basis, subject to a floor of zero. As shown in the table below, this permitted practice has no impact on net income, but increased capital and surplus by \$698,933,927 as of March 31, 2024.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed or permitted by the state of Michigan is shown below:

C. Accounting Policy

- (2) Bonds not backed by other loans are stated at amortized cost except those with an NAIC rating of “6,” which are stated at the lower of amortized cost or fair value. Acquisition premiums and discounts are amortized into investment income through call or maturity dates using the interest method.
- (6) Loan-backed and structured securities, hereafter collectively referred to as “loan-backed securities”, are stated at amortized cost except those with an NAIC carry rating of “6,” which are carried at the lower of amortized cost or fair value. The retrospective adjustment method is used to value loan-backed securities where the collection of all contractual cash flows is probable. For loan-backed securities where the collection of all contractual cash flows is not probable, the Company:
 - Recognizes the accretable yield over the life of the loan-backed security as determined at the acquisition or transaction date,
 - Continues to estimate cash flows expected to be collected at least quarterly, and
 - Recognizes an other-than-temporary impairment loss if the loan-backed security is impaired (i.e., the fair value is less than the amortized cost basis) and if the Company does not expect to recover the entire amortized cost basis when compared to the present value of cash flows expected to be collected.

Investments are reduced to estimated fair value (discounted cash flows for loan-backed securities) for declines in value that are determined to be other-than-temporary. In determining whether an other-than-temporary impairment has occurred, the Company considers a security’s forecasted cash flows as well as the severity and duration of depressed fair values.

If the Company intends to sell an impaired loan-backed security or does not have the intent and ability to retain the impaired loan-backed security for a period of time sufficient to recover the amortized cost basis, an other-than-

NOTES TO FINANCIAL STATEMENTS

temporary impairment has occurred. In these situations, the other-than-temporary impairment loss recognized is the difference between the amortized cost basis and fair value. For loan-backed securities, the credit portion of the recognized loss is recorded to the asset valuation reserve (“AVR”) and the non-credit portion is recorded to the interest maintenance reserve (“IMR”). If the Company does not expect to recover the entire amortized cost basis when compared to the present value of cash flows expected to be collected, it cannot assert that it has the ability to recover the loan-backed security’s amortized cost basis even though it has no intent to sell and has the intent and ability to retain the loan-backed security. Therefore, an other-than-temporary impairment has occurred and a realized loss is recognized for the non-interest related decline, which is calculated as the difference between the loan-backed security’s amortized cost basis and the present value of cash flows expected to be collected.

For situations where an other-than-temporary impairment is recognized, the previous amortized cost basis less the other-than temporary impairment recognized as a realized loss becomes the new amortized cost basis of the loan-backed security. The new amortized cost basis is not adjusted for subsequent recoveries in fair value. Therefore, the prospective adjustment method is used for periods subsequent to other-than-temporary impairment loss recognition.

- (8) The Company’s carrying value for ownership interests in partnerships and limited liability companies is determined using the proportion of Brooke’s investment in each fund (“NAV equivalent”) as a practical expedient for fair value.

D. Going Concern

There is not substantial doubt about the Company’s ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 2.

3. Business Combinations and Goodwill

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 3.

4. Discontinued Operations

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 4.

5. Investments

D. Loan Backed and Structured Securities

- (1) Principal prepayment assumptions for loan-backed and structured securities are obtained from broker-dealers, independent providers of broker-dealer estimates, or internal models.
- (2) There were no loan-backed and structured securities with a recognized other-than-temporary impairment where the Company has either the intent to sell the securities or lacks the ability or intent to retain the securities as of the statement date.
- (3) There were no loan-backed and structured securities with a recognized other-than-temporary impairment.
- (4) The following table summarizes loan-backed and structured securities in an unrealized loss position as of March 31, 2024:

	Total	<12 Months	12+ Months
Fair Value	\$ 10,660,574	\$ —	\$ 10,660,574
Unrealized Loss	\$ 1,173,652	\$ —	\$ 1,173,652

The carrying value and fair value of all loan-backed and structured securities, regardless of whether the security is in an unrealized loss position, was \$12,235,916 and \$11,346,809, respectively.

- (5) The Company periodically reviews its debt securities and equities on a case-by-case basis to determine if any decline in fair value to below amortized cost is other-than-temporary. Factors considered in determining whether a decline is other-than-temporary include the length of time a security has been in an unrealized loss position, reasons for the decline in value, expectations for the amount and timing of recovery in value, and the Company’s intent and ability not to sell a security prior to a recovery in fair value.

Securities the Company determines are underperforming or potential problem securities are subject to regular review. To facilitate this review, securities with significant declines in value, or where other objective criteria evidencing credit deterioration have been met, are included on a watch list. Among the criteria for securities to be included on a watch list are: credit deterioration that has led to a significant decline in fair value of the security; a significant covenant related to the security has been breached; or an issuer has filed or indicated a possibility of filing for bankruptcy, has missed or announced it intends to miss a scheduled interest or principal payment, or has experienced a specific material adverse change that may impair its creditworthiness.

In performing these reviews, the Company considers the relevant facts and circumstances relating to each investment and exercises considerable judgment in determining whether a security is other-than-temporarily

impaired. Assessment factors include judgments about an obligor’s current and projected financial position, an issuer’s current and projected ability to service and repay its debt obligations, the existence of, and realizable value of, any collateral supporting the obligations, and the macro-economic and micro-economic outlooks for specific industries or issuers. This assessment may also involve assumptions regarding underlying collateral such as prepayment rates, default and recovery rates, and third-party service capabilities.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

The Company does not have investments in dollar repurchase agreements and/or securities lending transactions.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

The Company does not have repurchase agreements.

7. Investment Income

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 7.

8. Derivative Instruments

A. Derivatives under SSAP No. 86-Derivatives

(8) The Company does not have investments in derivative instruments.

B. Derivatives under SSAP No. 108-Derivatives Hedging Variable Annuity Guarantees

The Company does not have any derivatives hedging variable annuity guarantees.

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 8.

9. Income Taxes

At March 31, 2024 and December 31, 2023, the statutory financial statements were not impacted by CAMT because no CAMT was allocated to the Company under the tax allocation agreement.

10. Information Concerning Parent, Subsidiaries and Affiliates

The statement value of Jackson total assets and liabilities as of March 31, 2024, was \$280,336,269,031 and \$276,191,455,021, respectively.

During the first quarter of 2024, Jackson entered into a 100% coinsurance funds withheld reinsurance transaction with Brooke Life Reinsurance Company (“Brooke Re”), a Michigan captive insurer regulated by the Michigan Department of Insurance and

NOTES TO FINANCIAL STATEMENTS

Financial Services created in the first quarter of 2024 for the express purpose of serving as the counterparty for this new reinsurance transaction. Jackson and Brooke Re are both direct subsidiaries of the Company. The transaction provides for the cession from Jackson to Brooke Re of liabilities associated with certain guaranteed benefits under variable annuity contracts and similar products of Jackson, both in-force on the effective date of the reinsurance agreement and written in the future (i.e., on a “flow” basis). Brooke Re utilizes a modified GAAP approach primarily related to market risk benefits, with the intent to increase alignment between assets and liabilities in response to changes in economic factors. The transaction allows Jackson to mitigate the impact of the cash surrender value floor on total adjusted capital, statutory required capital, and risk-based capital ratio, as well as to allow for more efficient economic hedging of the underlying risks of Jackson’s business.

Brooke Re was capitalized with assets contributed from the Company of \$1,869,833,927, originating from Jackson as a return of capital of \$1,919,833,927 to the Company in January 2024.

On March 1, 2023, the Company received an ordinary dividend of \$450,000,000 and a return of capital of \$150,000,000 from its subsidiary, Jackson. On the same date, the Company paid an ordinary dividend of \$360,000,000 and a return of capital of \$150,000,000 to its parent, Jackson Holdings, LLC (“JH LLC”).

No other significant changes have occurred since 12/31/2023 that warrant disclosure in Note 10.

11. Debt

The Company does not have any Federal Home Loan Bank debt.

No other significant changes have occurred since 12/31/2023 that warrant disclosure in Note 11.

12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans

A. The Company does not offer a defined benefit plan.

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 12.

13. Capital and Surplus, Shareholders' Dividend Restrictions and Quasi-Reorganizations

The Company paid \$44,980,000 of surplus note interest to Jackson Finance, LLC on March 15, 2024.

On March 1, 2023, the Company paid an ordinary dividend of \$360,000,000 and a return of capital of \$150,000,000 to JH LLC.

No other significant changes have occurred since 12/31/2023 that warrant disclosure in Note 13.

14. Liabilities, Contingencies and Assessments

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 14.

15. Leases

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 15.

16. Information about Financial Instruments with Off-Balance Sheet Risk and Financial Instruments with Concentrations of Credit Risk

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 16.

17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

B(2)b. The Company does not have servicing assets or liabilities.

B(4)a. Not applicable.

B(4)b. Not applicable.

C. Wash Sales - No reportable wash sales have occurred during the year.

Significant changes have not occurred since 12/31/2023 that warrant disclosure in Note 17.

Assets at fair value:					
Other invested assets	\$ —	\$ —	\$ —	\$ 22,555,550	\$ 22,555,550
Total assets at fair value/NAV	\$ —	\$ —	\$ —	\$ 22,555,550	\$ 22,555,550

(2) Fair Value Measurements in (Level 3) of the Fair Value Hierarchy

There were no Level 3 assets at March 31, 2024 or December 31, 2023.

(3) The Company’s policy for determining and disclosing transfers between levels is to recognize transfers using beginning-of-year balances.

(4) Bonds and Equity Securities

The fair values for bonds and equity securities are determined by management using information available from independent pricing services, broker-dealer quotes, or internally derived estimates. Priority is given to publicly available prices from independent sources, when available. Securities for which the independent pricing service does not provide a quotation are either submitted to independent broker-dealers for prices or priced internally. Typical inputs used by these three pricing methods include, but are not limited to, reported trades, benchmark yields, credit spreads, liquidity premiums, and/or estimated cash flows based on default and prepayment assumptions.

As a result of typical trading volumes and the lack of specific quoted market prices for most bonds, independent pricing services will normally derive the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available market observable information as outlined above. If there are no recently reported trades, the independent pricing services and brokers may use matrix or pricing model processes to develop a security price where future cash flow expectations are developed based upon collateral performance and discounted at relevant market rates. Certain securities are priced using broker-dealer quotes, which may utilize proprietary inputs and models. Additionally, the majority of these quotes are non-binding.

Included in the pricing of asset-backed securities are estimates of the rate of future prepayments of principal over the remaining life of the securities. Such estimates are derived based on the characteristics of the underlying structure and prepayment assumptions believed to be relevant for the underlying collateral. Actual prepayment experience may vary from these estimates.

Internally derived estimates may be used to develop a fair value for securities for which the Company is unable to obtain either a reliable price from an independent pricing service or a suitable broker-dealer quote. These estimates may incorporate Level 2 and Level 3 inputs and are generally derived using expected future cash flows, discounted at market interest rates available from market sources based on the credit quality and duration of the instrument to determine fair value. For securities that may not be reliably priced using these internally developed pricing models, a fair value may be estimated using indicative market prices. These prices are indicative of an exit price, but the assumptions used to establish the fair value may not be observable or corroborated by market observable information and, therefore, are considered to be Level 3 inputs.

The Company performs a monthly analysis on the prices and credit spreads received from third parties to ensure that the prices represent a reasonable estimate of the fair value. This process involves quantitative and qualitative analysis and is overseen by investment and accounting professionals. Examples of procedures performed include, but are not limited to, initial and on-going review of third party pricing service methodologies, review of pricing statistics and trends, back testing recent trades and monitoring of trading volumes. In addition, the Company considers whether prices received from independent brokers represent a reasonable estimate of fair value through the use of internal and external cash flow models, which are developed based on spreads and, when available, market indices. As a result of this analysis, if the Company determines there is a more appropriate fair value based upon the available market data, the price received from the third party may be adjusted accordingly.

For those securities that were internally valued at March 31, 2024 and December 31, 2023, an internally developed model was used to determine the fair value. The pricing model used by the Company utilizes current spread levels of similarly rated securities to determine the market discount rate for the security. Furthermore, appropriate risk premiums for illiquidity and non-performance are incorporated in the discount rate. Cash flows, as estimated by the Company using issuer-specific default statistics and prepayment assumptions, are discounted to determine an estimated fair value.

On an ongoing basis, the Company reviews the independent pricing services’ valuation methodologies and related inputs, and evaluates the various types of securities in its investment portfolio to determine an appropriate fair value hierarchy distribution based upon trading activity and the observability of market inputs. Based on the results of this evaluation, each price is classified into Level 1, 2, or 3. Most prices provided by independent pricing services, including broker quotes, are classified into Level 2 due to their use of market observable inputs.

NOTES TO FINANCIAL STATEMENTS

Other Invested Assets

Fair values for limited partnership interests, which are included in other invested assets, is generally determined using the proportion of the Company’s investment in the value of the net assets of each fund (“NAV equivalent”) as a practical expedient for fair value, and generally, are recorded on a three-month lag. No adjustments to these amounts were deemed necessary at March 31, 2024 and December 31, 2023. As a result of using the net asset value per share practical expedient, limited partnership interest are not classified in the fair value hierarchy.

The Company’s limited partnership interests are not redeemable, and distributions received are generally the result of liquidation of the underlying assets of the partnerships. The Company generally has the ability under the partnership agreements to sell its interest to another limited partner with the prior written consent of the general partner. In cases when the Company expects to sell the limited partnership interest, the estimated sales price is used to determine the fair value rather than the practical expedient. These limited partnership interests are classified as Level 2 in the fair value hierarchy.

In cases when a limited partnership’s financial statements are unavailable and a NAV equivalent is not available or practical, the fair value may be based on an internally developed model or provided by the general partner as determined using private transactions, information obtained from the primary co-investor or underlying company, or financial metrics provided by the lead sponsor. These investments are classified as Level 3 in the fair value hierarchy.

(5) The Company has no derivative assets or liabilities.
