# AORN VIRTUAL GLOBAL SURGICAL CONFERENCE & EXPO

5/8/2020

OWENS & MINOR PARTICIPATES IN  
AORN VIRTUAL GLOBAL SURGICAL  
CONFERENCE & EXPO

As the industry navigates the unprecedented COVID-19 pandemic, healthcare professionals are finding new ways to connect. Owens & Minor is pleased to participate virtually in this year's AORN Global Surgical Conference & Expo. The Virtual event is currently in progress and will be available online through July 31.

AORN members can click the links below to log in and search for "Owens & Minor" in the Exhibitor Education and Product Showcase to experience our contributions to this year's event.

## Exhibitor Education: **The Healthy OR Webinar**

Attend this CE Seminar to learn more about the characteristics of a healthy OR in three domains (operations, finance, and patient safety and satisfaction), followed by a discussion of actions health care organizations can take to achieve and maintain a healthy OR.

## Product Showcase: **QSight**

QSight is an industry-leading, cloud-based inventory solution for cardiac cath labs, electrophysiology labs, interventional radiology, operating rooms and ambulatory surgery centers. Using hand scanners, clinicians simply scan a product's bar code to take it in and out of inventory. QSight's unique barcode parsing logic along with its

600,000 SKU database will automatically populate all the relevant information needed such as product description, item and lot number, expiration data and so much more.
