(1) Reconciliations of the differences between the non-GAAP financial measures presented in this release and their most directly comparable GAAP financial measures are included in the tables below.

2025 Financial Outlook

The Company reaffirmed its financial guidance for 2025; summarized below:

- Revenue for 2025 to be in a range of \$10.85 billion to \$11.15 billion
- Adjusted EBITDA for 2025 to be in a range of \$560 million to \$590 million
- Adjusted EPS for 2025 to be in a range of \$1.60 to \$1.85

The Company's outlook for 2025 excludes any impact of the previously announced Rotech acquisition, any potential transaction involving the Products & Healthcare Services segment, future share repurchase activity, and the potential positive or negative impact from any policy shifts, including additional tariffs and retaliatory actions taken in response to such tariffs. The outlook also contains assumptions, including current expectations regarding the impact of general economic conditions.

Although the Company does provide guidance for adjusted EBITDA and adjusted EPS (which are non-GAAP financial measures), it is not able to forecast the most directly comparable measures calculated and presented in accordance with GAAP without unreasonable effort. Certain elements of the composition of the GAAP amounts are not predictable, making it impracticable for the Company to forecast. Such elements include, but are not limited to, exit and realignment charges and acquisition-related charges, which could have a significant and unpredictable impact on our GAAP results. As a result, no GAAP guidance or reconciliation of the Company's adjusted EBITDA guidance or adjusted EPS guidance is provided. The outlook is based on certain assumptions that are subject to the risk factors discussed in the Company's filings with the SEC.
