2024 Financial Outlook

The Company issued its outlook for 2024; summarized below:

- Revenue for 2024 to be in a range of \$10.5 billion to \$10.9 billion

- Adjusted EBITDA for 2024 to be in a range of \$550 million to \$590 million
- Adjusted EPS for 2024 to be in a range of \$1.40 to \$1.70

The Company's outlook for 2024 contains assumptions, including current expectations regarding the impact of general economic conditions, including inflation, and the continuation of pressure on pricing and demand in our Products & Healthcare Services segment. Key assumptions supporting the Company's 2024 financial guidance include:

- Gross margin rate of 21.0% to 21.5%
- Interest expense of \$141 to \$146 million
- Adjusted effective tax rate of 27.5% to 28.5%
- Diluted weighted average shares of ~78.5 million
- Capital expenditures of \$220 to \$240 million
- Stable commodity prices
- FX rates as of 12/31/2023

Although the Company does provide guidance for adjusted EBITDA and adjusted EPS (which are non-GAAP financial measures), it is not able to forecast the most directly comparable measures calculated and presented in accordance with GAAP without unreasonable effort. Certain elements of the composition of the GAAP amounts are not predictable, making it impracticable for the Company to forecast. Such elements include, but are not limited to, restructuring and acquisition charges, which could have a significant and unpredictable impact on our GAAP results. As a result, no GAAP guidance or reconciliation of the Company's adjusted EBITDA guidance or adjusted EPS guidance is provided. The outlook is based on certain assumptions that are subject to the risk factors discussed in the Company's filings with the SEC.
