NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS – Unaudited
(In thousands, except share data, unless otherwise stated)

1. BASIS OF PRESENTATION

Mettler-Toledo International Inc. (Mettler-Toledo or the Company) is a leading global supplier of precision instruments and services. The Company manufactures weighing instruments for use in laboratory, industrial, packaging, logistics and food retailing applications. The Company also manufactures several related analytical instruments and provides automated chemistry solutions used in drug and chemical compound discovery and development. In addition, the Company manufactures metal detection and other end-of-line inspection systems used in production and packaging and provides solutions for use in certain process analytics applications. The Company's primary manufacturing facilities are located in China, Germany, Switzerland, the United Kingdom, the United States and Mexico. The Company's principal executive offices are located in Columbus, Ohio and Greifensee, Switzerland.

The accompanying interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) and include all entities in which the Company has control, which are its wholly-owned subsidiaries. The interim consolidated financial statements have been prepared without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. The interim consolidated financial statements should be read in conjunction with the consolidated financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2023.

The accompanying interim consolidated financial statements reflect all adjustments which, in the opinion of management, are necessary for a fair statement of the results of the interim periods presented. Operating results for the three months ended March 31, 2024 are not necessarily indicative of the results to be expected for the full year ending December 31, 2024.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, as well as disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. These financial statements were prepared using information reasonably available as of March 31, 2024 and through the date of this report. Actual results may differ from those estimates due to uncertainty around the ongoing developments related to Ukraine and the Israel-Hamas war, as well as other factors.

All intercompany transactions and balances have been eliminated.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Trade Accounts Receivable

Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for expected credit losses represents the Company's best estimate based on historical information, current information, and reasonable and supportable forecasts of future events and circumstances.

Inventories

Inventories are valued at the lower of cost or net realizable value. Cost, which includes direct materials, labor and overhead, is generally determined using the first in, first out (FIFO) method. The estimated net realizable value is based on assumptions for future demand and related pricing. Adjustments to the cost basis of the Company's inventory are made for excess and obsolete items based on usage, orders and technological obsolescence. If actual market conditions are less favorable than those projected by management, reductions in the value of inventory may be required in the future.

Inventories consisted of the following:

	March 31, 2024	December 31, 2023
Raw materials and parts	\$ 169,556	\$ 180,352
Work-in-progress	75,135	81,181
Finished goods	128,979	124,332
	<u>\$ 373,670</u>	<u>\$ 385,865</u>

Goodwill and Other Intangible Assets

Goodwill, representing the excess of purchase price over the net asset value of companies acquired, and indefinite-lived intangible assets are not amortized, but are reviewed for impairment annually in the fourth quarter, or more frequently if events or changes in circumstances indicate that an asset might be impaired. The annual evaluation for goodwill and indefinite-lived intangible assets are generally based on an assessment of qualitative factors to determine whether it is more likely than not that the fair values of the assets are less than their carrying amounts.

Other intangible assets include indefinite-lived assets and assets subject to amortization. Where applicable, amortization is charged on a straight-line basis over the expected period to be benefited. The straight-line method of amortization reflects an appropriate allocation of the cost of the intangible assets to earnings in proportion to the amount of economic benefits obtained by the Company in each reporting period. The Company assesses the initial acquisition of intangible assets in accordance with the provisions of ASC 805 “Business Combinations” and the continued accounting for previously recognized intangible assets and goodwill in accordance with the provisions of ASC 350 “Intangibles – Goodwill and Other” and ASC 360 “Property, Plant and Equipment.”

Other intangible assets consisted of the following:

	March 31, 2024			December 31, 2023		
	Gross Amount	Accumulated Amortization	Intangibles, Net	Gross Amount	Accumulated Amortization	Intangibles, Net
Customer relationships	\$ 286,364	\$ (106,405)	\$ 179,959	\$ 294,180	\$ (107,665)	\$ 186,515

The Company recognized amortization expense associated with the above intangible assets of \$6.8 million and \$6.9 million for the three months ended March 31, 2024 and 2023, respectively. The annual aggregate amortization expense based on the current balance of other intangible assets is estimated at \$27.2 million for 2024, \$26.2 million for 2025, \$22.2 million for 2026, \$20.7 million for 2027, \$19.4 million for 2028 and \$17.7 million for 2029. Purchased intangible amortization was \$6.6 million, \$5.1 million after tax for both three month periods ended March 31, 2024 and 2023.

In addition to the above amortization, the Company recorded amortization expense associated with capitalized software of \$11.3 million and \$10.8 million for the three months ended March 31, 2024 and 2023, respectively.

Revenue Recognition

Product revenue is recognized from contracts with customers when a customer has obtained control of a product. The Company considers control to have transferred based upon shipping terms. To the extent the Company’s arrangements have a separate performance obligation, revenue related to any post-shipment performance obligation is deferred until completed. Shipping and handling costs charged to

METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS – Unaudited
(In thousands, except share data, unless otherwise stated)

customers are included in total net sales and the associated expense is a component of cost of sales. Certain products are also sold through indirect distribution channels whereby the distributor assumes any further obligations to the end customer. Revenue is recognized on these distributor arrangements upon transfer of control to the distributor. Contracts do not contain variable pricing arrangements that are retrospective, except for rebate programs. Rebates are estimated based on expected sales volumes and offset against revenue at the time such revenue is recognized. The Company generally maintains the right to accept or reject a product return in its terms and conditions and also maintains appropriate accruals for outstanding credits. The related provisions for estimated returns and rebates are immaterial to the consolidated financial statements.

Certain of the Company's product arrangements include separate performance obligations, primarily related to installation. Such performance obligations are accounted for separately when the deliverables have stand-alone value and the satisfaction of the undelivered performance obligations is probable and within the Company's control. The allocation of revenue between the performance obligations is based on the observable stand-alone selling prices at the time of the sale in accordance with a number of factors including service technician billing rates, time to install, and geographic location.

Software is generally not considered a distinct performance obligation with the exception of a limited number of software applications. The Company primarily sells software products with the related hardware instrument as the software is embedded in the product. The Company's products typically require no significant production, modification, or customization of the hardware or software that is essential to the functionality of the products.

Service revenue not under contract is recognized upon the completion of the service performed. Revenue from spare parts sold on a stand-alone basis is recognized when control is transferred to the customer, which is generally at the time of shipment or delivery. Revenue from service contracts is recognized ratably over the contract period using a time-based method. These contracts represent an obligation to perform repair and other services including regulatory compliance qualification, calibration, certification, and preventative maintenance on a customer's pre-defined equipment over the contract period.

Share-Based Compensation

The Company recognizes share-based compensation expense within selling, general and administrative in the consolidated statements of operations and comprehensive income with a corresponding offset to additional paid-in capital in the consolidated balance sheet. The Company recognized \$4.7 million and \$4.0 million of share-based compensation expense for the three months ended March 31, 2024 and 2023, respectively.

Research and Development

Research and development costs primarily consist of salaries, consulting and other costs. The Company expenses these costs as incurred.

Business Combinations and Asset Acquisitions

The Company accounts for business acquisitions under the accounting standards for business combinations utilizing the acquisition method of accounting. The results of each acquisition are included in the Company's consolidated results as of the acquisition date. The purchase price of an acquisition is generally allocated to tangible and intangible assets and assumed liabilities based on their estimated fair values and any consideration in excess of the net assets acquired is recognized as goodwill. The determination of the values of the acquired assets and assumed liabilities, including goodwill and intangible assets, require significant judgement. Acquisition transaction costs are expensed when incurred.

In circumstances where an acquisition involves a contingent consideration arrangement, the Company recognizes a liability equal to the fair value of the expected contingent payments as of the acquisition date. Subsequent changes in the fair value of the contingent consideration are recorded to other charges (income), net.

Recent Accounting Pronouncements

In March 2020, January 2021 and December 2022, the FASB issued ASU 2020-04, ASU 2021-01 and ASU 2022-06: Reference Rate Reform, which provides optional expedients and exceptions for applying GAAP to contracts, hedging relationships, and other transactions affected by the discontinuance of LIBOR or another referenced rate. The guidance may be applied to any applicable contract entered into before December 31, 2024. The Company amended its credit agreement and cross currency swap agreements in June 2023 to change the interest rate benchmark from LIBOR to SOFR and other non-U.S. dollar references, which did not change the amount or timing of cash flows. As a result, the discontinuation of LIBOR did not have a material impact on the Company's financial statements.

In November 2023, the FASB issued ASU 2023-07: Improvements to Reportable Segment Disclosures which requires incremental disclosures about a public entity's reportable segments but does not change the definition of a segment or the guidance for determining reportable segments. The Company will adopt the annual disclosure requirements in 2024 and is currently evaluating the impact of these requirements on the consolidated financial statements.

In December 2023, the FASB issued ASU 2023-09: Improvements to Income Tax Disclosures, which enhances income tax disclosures, especially related to the rate reconciliation and income taxes paid information. The Company will adopt the annual disclosure requirements in 2025 and is currently evaluating the impact of these requirements on the consolidated financial statements.

A breakdown of net sales to external customers by geographic customer destination for the three months ended March 31 follows:

	2024	2023
Americas	\$ 384,342	\$ 372,073
Europe	273,861	253,974
Asia / Rest of World	267,746	302,691
Total	<u>\$ 925,949</u>	<u>\$ 928,738</u>

The Company's global revenue mix by product category is laboratory (57% of sales), industrial (38% of sales) and retail (5% of sales). The Company's product revenue by reportable segment is proportionately similar to the Company's global revenue mix except the Company's Swiss Operations is largely comprised of laboratory products, while the Company's Chinese Operations has a slightly higher percentage of industrial products. A breakdown of the Company's sales by product category for the three months ended March 31 follows:

	2024	2023
Laboratory	\$ 525,056	\$ 520,031
Industrial	351,845	355,181
Retail	49,048	53,526
Total	<u>\$ 925,949</u>	<u>\$ 928,738</u>

The payment terms in the Company's contracts with customers do not exceed one year and therefore contracts do not contain a significant financing component. In most cases, after appropriate credit evaluations, payments are due in arrears and are recognized as receivables. Unbilled revenue is recorded when performance obligations have been satisfied, but not yet billed to the customer. Unbilled revenue as of March 31, 2024 and December 31, 2023 was \$40.1 million and \$35.7 million, respectively, and is included within accounts receivable. Deferred revenue and customer prepayments are recorded when cash payments are received or due in advance of the performance obligation being satisfied. Deferred revenue primarily includes prepaid service contracts, as well as deferred installation.

Changes in the components of deferred revenue and customer prepayments during the periods ended March 31, 2024 and 2023 are as follows:

	2024	2023
Beginning balances as of January 1	\$ 202,022	\$ 192,759
Customer pre-payments/deferred revenue	188,295	190,262
Revenue recognized	(169,663)	(172,890)
Foreign currency translation	(3,995)	1,171
Ending balance as of March 31	<u>\$ 216,659</u>	<u>\$ 211,302</u>

The Company generally expenses sales commissions when incurred because the contract period is one year or less. These costs are recorded within selling, general, and administrative expenses. The value of unsatisfied performance obligations other than customer prepayments and deferred revenue associated with contracts greater than one year is immaterial.

4. FINANCIAL INSTRUMENTS

The Company has limited involvement with derivative financial instruments and does not use them for trading purposes. The Company enters into certain interest rate swap agreements in order to manage its exposure to changes in interest rates. The amount of the Company's fixed obligation interest payments

METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS – Unaudited
(In thousands, except share data, unless otherwise stated)

may change based upon the expiration dates of its interest rate swap agreements and the level and composition of its debt. The Company also enters into certain foreign currency forward contracts to limit the Company's exposure to currency fluctuations on the respective hedged items. For additional disclosures on derivative instruments regarding balance sheet location, fair value, and the amounts reclassified into other comprehensive income and the effective portions of the cash flow hedges, also see Notes 5 and 9 to the interim consolidated financial statements. As also mentioned in Note 7, the Company has designated its euro-denominated debt as a hedge of a portion of its net investment in euro-denominated foreign subsidiaries.

Cash Flow Hedges

The Company has entered into a number of cross currency swaps designated as cash flow hedges. The agreements convert borrowings under the Company's credit facility into synthetic Swiss franc debt, which allows the Company to effectively change the floating rate SOFR-based interest payments, excluding the credit spread, to a fixed Swiss franc income or expense as follows:

Agreement Date	Amount Converted	Effective Swiss Franc Interest Rate	Maturity Date
June 2019	\$50 million	(0.82)%	June 2023
November 2021	\$50 million	(0.67)%	November 2023
June 2021	\$50 million	(0.73)%	June 2024
June 2021	\$50 million	(0.59)%	June 2025
December 2023	\$50 million	1.04%	November 2026
November 2023	\$50 million	1.16%	November 2026
June 2023	\$50 million	1.55%	June 2027

The Company amended all active cross currency swap agreements to replace all references of LIBOR to SOFR as the interest rate benchmark to align with the amendment to the Company's Credit Facility Agreement, as discussed in Note 10 to the consolidated financial statements for the year ended December 31, 2023. As part of these amendments, the corresponding fixed Swiss franc interest rates were amended as well to reflect the change in the benchmark.

The Company's cash flow hedges are recorded gross at fair value in the consolidated balance sheet at March 31, 2024 and December 31, 2023, respectively. A derivative gain of \$7.2 million based upon interest rates at March 31, 2024, is expected to be reclassified from other comprehensive income (loss) to earnings in the next twelve months. The cash flow hedges remain effective as of March 31, 2024.

Other Derivatives

The Company enters into foreign currency forward contracts in order to economically hedge short-term trade and non-trade intercompany balances largely denominated in Swiss franc, other major European currencies, and the Chinese renminbi with its foreign businesses. In accordance with U.S. GAAP, these contracts are considered "derivatives not designated as hedging instruments." Gains or losses on these instruments are reported in current earnings. The foreign currency forward contracts are recorded at fair value in the consolidated balance sheet at March 31, 2024 and December 31, 2023, as disclosed in Note 5. The Company recognized in other charges (income) a net gain of \$8.8 million and net gain of \$3.5 million during the three months ended March 31, 2024 and 2023, respectively, which offset the related transaction gains (losses) associated with these contracts. At March 31, 2024 and December 31, 2023, these contracts had a notional value of \$774.3 million and \$793.9 million, respectively.

5. FAIR VALUE MEASUREMENTS

At March 31, 2024 and December 31, 2023, the Company had derivative assets totaling \$13.2 million and \$8.3 million, respectively, and derivative liabilities totaling \$8.1 million and \$25.2 million,

METTLER-TOLEDO INTERNATIONAL INC.

(In thousands, except share data, unless otherwise stated)

respectively. The Company has limited involvement with derivative financial instruments and therefore does not present all the required disclosures in tabular format. The fair values of the interest rate swap agreements, the cross currency swap agreements, and the foreign currency forward contracts that economically hedge short-term intercompany balances are estimated based upon inputs from current valuation information obtained from dealer quotes and priced with observable market assumptions and appropriate valuation adjustments for credit risk. The Company has evaluated the valuation methodologies used to develop the fair values by dealers in order to determine whether such valuations are representative of an exit price in the Company's principal market. In addition, the Company uses an internally developed model to perform testing on the valuations received from brokers. The Company has also considered both its own credit risk and counterparty credit risk in determining fair value and determined these adjustments were insignificant at March 31, 2024 and December 31, 2023.

Under U.S. GAAP, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement consists of observable and unobservable inputs that reflect the assumptions that a market participant would use in pricing an asset or liability.

A fair value hierarchy has been established that categorizes these inputs into three levels:

Level 1: Quoted prices in active markets for identical assets and liabilities

Level 2: Observable inputs other than quoted prices in active markets for identical assets and liabilities

Level 3: Unobservable inputs

The following table presents the Company's assets and liabilities, which are all categorized as Level 2 and are measured at fair value on a recurring basis at March 31, 2024 and December 31, 2023. The Company does not have any assets or liabilities which are categorized as Level 1.

	March 31, 2024	December 31, 2023	Balance Sheet Location
Foreign currency forward contracts not designated as hedging instruments	\$ 10,306	\$ 8,330	Other current assets and prepaid expenses
Cash Flow Hedges:			
Cross currency swap agreements	577	—	Other current assets and prepaid expenses
Cross currency swap agreements	2,275	—	Other non-current assets
Total derivative assets	\$ 13,158	\$ 8,330	
Foreign currency forward contracts not designated as hedging instruments	\$ 5,652	\$ 8,245	Accrued and other liabilities
Cash Flow Hedges:			
Cross currency swap agreements	—	2,678	Accrued and other liabilities
Cross currency swap agreements	2,429	14,270	Other non-current liabilities
Total derivative liabilities	\$ 8,081	\$ 25,193	

The Company had \$5.2 million and \$4.0 million of cash equivalents at March 31, 2024 and December 31, 2023, respectively, the fair value of which is determined using Level 2 inputs, through quoted and corroborated prices in active markets. The fair value of cash equivalents approximates cost.

The fair value of the Company's debt is less than the carrying value by approximately \$211.5 million as of March 31, 2024. The fair value of the Company's fixed interest rate debt was estimated using Level 2 inputs, primarily utilizing discounted cash flow models based on estimated current rates offered for similar debt under current market conditions for the Company.

6. INCOME TAXES

The Company's reported tax rate was 19.5% and 16.9% during the three months ended March 31, 2024 and 2023, respectively. The provision for taxes is based upon using the Company's projected annual effective tax rate of 19.0% and 18.5% before non-recurring discrete tax items during 2024 and 2023, respectively. The difference between the Company's projected annual effective tax rate and the reported tax rate is related to the timing of excess tax benefits associated with stock option exercises.

7. DEBT

Debt consisted of the following at March 31, 2024:

	U.S. Dollar	Other Principal Trading Currencies	Total

Total long-term debt	\$ 1,273,187	\$ 630,387	\$ 1,903,574

As of March 31, 2024, the Company had \$583.6 million of additional borrowings available under its Credit Agreement, and the Company maintained \$70.2 million of cash and cash equivalents.

In December 2022, the Company entered into an agreement to issue and sell \$150 million 10-year Senior Notes in a private placement. The Company issued \$150 million with a fixed interest rate of 5.45% (5.45% Senior Notes) in March 2023. The 5.45% Senior Notes are senior unsecured obligations of the Company. The 5.45% Senior Notes mature on March 1, 2033. The terms of the 5.45% Senior Notes are consistent with the previous Senior Notes as described in the Company's Annual Report Form 10-K for the year ended December 31, 2023. The Company used the proceeds from the sale of the 5.45% Senior Notes to refinance existing indebtedness and for other general corporate purposes.

The Company has designated the EUR 125 million 1.47% Euro Senior Notes, the EUR 135 million 1.30% Euro Senior Notes, and the EUR 125 million 1.06% Euro Senior Notes as a hedge of a portion of its net investment in a euro denominated foreign subsidiary to reduce foreign currency risk associated with this net investment. Changes in the carrying value of this debt resulting from fluctuations in the euro to U.S. dollar exchange rate are recorded as foreign currency translation adjustments within other comprehensive income (loss). The Company recorded in other comprehensive income (loss) related to this net investment hedge an unrealized gain of \$8.2 million and \$5.3 million for the three months ended

March 31, 2024 and 2023, respectively. The Company has a gain of \$25.5 million recorded in accumulated other comprehensive income (loss) as of March 31, 2024.

Other Local Arrangements

In 2018, two of the Company's non-U.S. pension plans issued loans totaling \$39.6 million (Swiss franc 38 million) to a wholly owned subsidiary of the Company. The loans have the same terms and conditions which include an interest rate of SARON plus 87.5 basis points. The loans were renewed for one year in April 2024.

8. SHARE REPURCHASE PROGRAM AND TREASURY STOCK

The Company has \$2.3 billion of remaining availability for its share repurchase program as of March 31, 2024. The share repurchases are expected to be funded from cash generated from operating activities, borrowings, and cash balances. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, the stock price, trading restrictions, the level of acquisition activity, and other factors.

The Company has purchased 31.9 million common shares at an average price per share of \$287.08 since the inception of the program in 2004 through March 31, 2024. During the three months ended March 31, 2024 and 2023, the Company spent \$212.5 million and \$250.0 million on the repurchase of 173,700 shares and 166,628 shares at an average price per share of \$1,223.35 and \$1,511.78, respectively. The Company reissued 4,898 shares and 47,849 shares held in treasury for the exercise of stock options and restricted stock units during the three months ended March 31, 2024 and 2023, respectively. In addition, the Company incurred \$2.1 million and \$1.9 million of excise tax during the three months ended March 31, 2024 and 2023, respectively, related to the Inflation Reduction Act which is reflected as a reduction in shareholders' equity in the Company's consolidated financial statements.

- (a) The cross currency swap reflects an unrealized gain of \$18.2 million recorded in other charges (income) that was offset by the underlying unrealized loss in the hedged debt for the three months ended March 31, 2024. The cross currency swap also reflects a realized gain of \$3.0 million recorded in interest expense for the three months ended March 31, 2024.
- (b) These accumulated other comprehensive income (loss) components are included in the computation of net periodic pension and post-retirement cost. See Note 12 for additional details for the three months ended March 31, 2024 and 2023.

10. EARNINGS PER COMMON SHARE

In accordance with the treasury stock method, the Company has included 105,640 and 169,979 common equivalent shares in the calculation of diluted weighted average number of common shares outstanding for the three months ended March 31, 2024 and 2023, respectively, relating to outstanding stock options and restricted stock units.

Outstanding options and restricted stock units to purchase or receive 72,089 and 35,063 shares of common stock for the three months ended March 31, 2024 and 2023, respectively, have been excluded from the calculation of diluted weighted average number of common and common equivalent shares as such options and restricted stock units would be anti-dilutive.

As previously disclosed in the Company's Annual Report on Form 10-K for the year ended December 31, 2023, the Company expects to make employer contributions of approximately \$27.3 million to its non-U.S. pension plan during the year ended December 31, 2024. These estimates may change based upon several factors, including fluctuations in currency exchange rates, actual returns on plan assets and changes in legal requirements.

12. OTHER CHARGES (INCOME), NET

Other charges (income), net includes non-service pension costs (benefits), (gains) losses from foreign currency transactions and related hedging activities, interest income and other items. Non-service pension benefits for the three months ended March 31, 2024 and 2023 were \$2.0 million and \$1.8 million, respectively.

13. SEGMENT REPORTING

As disclosed in Note 18 to the Company's consolidated financial statements for the year ended December 31, 2023, the Company has determined there are five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations and Other.

The Company evaluates segment performance based on Segment Profit (gross profit less research and development and selling, general and administrative expenses, before amortization, interest expense, restructuring charges, other charges (income), net and taxes).

The following tables show the operations of the Company's reportable segments:

For the three months ended March 31, 2024	Net Sales to External Customers	Net Sales to Other Segments	Total Net Sales	Segment Profit	Goodwill

METTLER-TOLEDO INTERNATIONAL INC.
NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS – Unaudited
(In thousands, except share data, unless otherwise stated)

14. CONTINGENCIES

The Company is party to various legal proceedings, including certain environmental matters, incidental to the normal course of business. Management does not expect that any of such proceedings, either individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or cash flows.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Unaudited Interim Consolidated Financial Statements included herein.

General

Our interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. Operating results for the three months ended March 31, 2024 are not necessarily indicative of the results to be expected for the full year ending December 31, 2024.

Changes in local currencies exclude the effect of currency exchange rate fluctuations. Local currency amounts are determined by translating current and previous year consolidated financial information at an index utilizing historical currency exchange rates. We believe local currency information provides a helpful assessment of business performance and a useful measure of results between periods. We do not, nor do we suggest that investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. We present non-GAAP financial measures in reporting our financial results to provide investors with an additional analytical tool to evaluate our operating results.

We also include in the discussion below disclosures of immaterial qualitative factors that are not quantified. Although the impact of such factors is not considered material, we believe these disclosures can be useful in evaluating our operating results.

Results of Operations – Consolidated

The following tables set forth items from our interim consolidated statements of operations and comprehensive income for the three month periods ended March 31, 2024 and 2023 (amounts in thousands).

	Three months ended March 31,

Net sales

Net sales were \$925.9 million for the three months ended March 31, 2024, compared to \$928.7 million for the corresponding period in 2023. Sales in U.S. dollars were flat for the three months ended March 31, 2024. Excluding the effect of currency exchange rate fluctuations, or in local currencies, net sales were also flat for the three months ended March 31, 2024. We estimate that net sales benefited by approximately 6% from the recovery of our previously disclosed shipping delays in 2023 related to a new external European logistics service provider. We also continued to experience reduced market demand, particularly in China. We continue to benefit from the execution

of our global sales and marketing programs and our innovative product portfolio. However, there is uncertainty in the economic environment and our end markets, including the risk of recession in many countries, and market conditions may change quickly. The ongoing developments related to Ukraine, the Israel-Hamas war, and inflation also present several risks to our business as further described in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2023. These topics could adversely impact our financial results and could have a greater impact on our operating results in future periods.

Net sales by geographic destination for the three months ended March 31, 2024 in U.S. dollars increased 3% in the Americas and 8% in Europe, and decreased 12% in Asia/Rest of World. In local currencies, our net sales by geographic destination increased 3% in the Americas, and 6% in Europe, and decreased 8% in Asia/Rest of World, including a 19% decrease in China, for the three months ended March 31, 2024 compared to the corresponding period in 2023. Excluding the benefit of delayed fourth quarter 2023 shipments, local currency sales decreased 5% in Europe, 1% in the Americas, and 12% in Asia/Rest of World, with 21% in China, during the three months ended March 31, 2024. A discussion of sales by operating segment is included below.

As described in Note 18 to our consolidated financial statements for the year ended December 31, 2023, our net sales comprise product sales of precision instruments and related services. Service revenues are primarily derived from repair and other services, including regulatory compliance qualification, calibration, certification, preventative maintenance and spare parts.

Net sales of products decreased 2% in U.S. dollars and 1% in local currency for the three months ended March 31, 2024 compared to the prior year period. Service revenue (including spare parts) increased 6% in both U.S. dollars and local currency during the three months ended March 31, 2024 compared to the corresponding period in 2023.

Net sales of our laboratory product and services, which represented approximately 57% of our total net sales for the three months ended March 31, 2024, increased 1% in U.S. dollars and 2% in local currencies during the three months ended March 31, 2024. Laboratory net sales benefited approximately 8% from the previously disclosed shipping delays during the three months ended March 31, 2024. Excluding this impact, the local currency net sales decrease in our laboratory-related products includes a decline in most products, particularly in China.

Net sales of our industrial products and services, which represented approximately 38% of our total net sales for the three months ended March 31, 2024, decreased 1% in U.S. dollars and were flat in local currencies during the three months ended March 31, 2024. Industrial net sales benefited approximately 3% from the previously disclosed shipping delays during the three months ended March 31, 2024. Excluding this impact, the local currency net sales decrease in our industrial-related products includes a decline in core-industrial products, particularly in China, which was partially offset by strong project activity in the Americas.

Net sales in our food retailing products and services, which represented approximately 5% of our total net sales for the three months ended March 31, 2024, decreased 8% in U.S. dollars and 9% in local currencies during the three months ended March 31, 2024. Retail net sales benefited approximately 6% from the previously disclosed shipping delays during the three months ended March 31, 2024. Excluding this impact, the local currency net sales decrease in food retailing products primarily reflects the timing of project activity related to especially strong growth in the prior year.

Gross profit

Gross profit as a percentage of net sales was 59.2% for the three months ended March 31, 2024 compared to 58.9% for the corresponding period in 2023.

Gross profit as a percentage of net sales for products was 61.2% and 60.1% for the three month periods ended March 31, 2024 and 2023, respectively.

Gross profit as a percentage of net sales for services (including spare parts) was 52.9% for the three months ended March 31, 2024 compared to 54.7% for the corresponding period in 2023.

The increase in gross profit as a percentage of net sales for the three months ended March 31, 2024 primarily reflects favorable price realization and business mix, partially offset by unfavorable foreign currency.

Research and development and selling, general and administrative expenses

Research and development expenses as a percentage of net sales was 5.0% for the three months ended March 31, 2024 compared to 4.9% in the corresponding period of 2023. Research and development expenses increased 2% in U.S. dollars and were flat in local currencies, during the three months ended March 31, 2024 compared to the corresponding period in 2023.

Selling, general and administrative expenses as a percentage of net sales were 25.3% for both the three months ended March 31, 2024 and the corresponding period during 2023. Selling, general and administrative expense was flat in U.S. dollars and decreased 1% in local currencies during the three months ended March 31, 2024 compared to the corresponding period in 2023. The local currency decrease includes benefits from our cost savings programs.

Amortization, interest expense, restructuring charges, other charges (income), net and taxes

Amortization expense was \$18.2 million for the three months ended March 31, 2024 and \$17.8 million for the corresponding period in 2023.

Interest expense was \$19.2 million for the three months ended March 31, 2024 and \$18.2 million for the corresponding period in 2023. The increase in interest expense is primarily related to higher variable interest rates.

Restructuring charges were \$9.7 million and \$4.3 million for the three months ended March 31, 2024 and 2023, respectively. Restructuring expenses are primarily comprised of employee-related costs.

Other charges (income), net includes non-service pension costs (benefits), net (gains) losses from foreign currency transactions and hedging activities, interest income and other items. Non-service pension benefits for the three months ended March 31, 2024 and 2023 were \$2.0 million and \$1.8 million, respectively.

Our reported tax rate was 19.5% and 16.9% during the three months ended March 31, 2024 and 2023, respectively. The provision for taxes is based upon using our projected annual effective tax rate of 19.0% and 18.5% before non-recurring discrete tax items for the three months ended March 31, 2024 and 2023, respectively. The difference between our projected annual effective tax rate and the reported tax rate is related to the timing of excess tax benefits associated with stock option exercises.

Results of Operations – by Operating Segment

The following is a discussion of the financial results of our operating segments. We currently have five reportable segments: U.S. Operations, Swiss Operations, Western European Operations, Chinese Operations, and Other. A more detailed description of these segments is outlined in Note 18 to our consolidated financial statements for the year ended December 31, 2023.

U.S. Operations (amounts in thousands)

	Three months ended March 31,		
	2024	2023	%
Total net sales	\$ 383,541	\$ 370,650	3 %
Net sales to external customers	\$ 346,123	\$ 337,402	3 %
Segment profit	\$ 93,636	\$ 81,796	14 %

Total net sales and net sales to external customers each increased 3% for the three months ended March 31, 2024 compared with the corresponding period in 2023. Net sales to external customers benefited by approximately 3% from the previously disclosed shipping delays during the

three months ended March 31, 2024. Excluding this impact, net sales to external customers includes strong growth in core-industrial products offset by a significant decline in food retailing related to strong project activity in the prior year, as well as a decline in laboratory products.

Segment profit increased \$11.8 million for the three months ended March 31, 2024 compared to the corresponding period in 2023. Segment profit during the three months ended March 31, 2024 includes benefits from our margin expansion and cost savings initiatives.

Swiss Operations (amounts in thousands)

Total net sales	\$ 277,622	\$ 248,503	12 %
Net sales to external customers	\$ 54,251	\$ 46,369	17 %
Segment profit	\$ 59,086	\$ 76,422	(23)%

1) Represents U.S. dollar growth.

Total net sales increased 12% in U.S. dollars and 6% in local currency for the three months ended March 31, 2024 compared to the corresponding period in 2023. Net sales to external customers increased 17% in U.S. dollars and 13% in local currency during the three months ended March 31, 2024 compared to the corresponding period in 2023. Net sales to external customers benefited by approximately 14% from our previously disclosed shipping delays during the three months ended March 31, 2024. Excluding this impact, the local currency net sales to external customers decrease for the three months ended March 31, 2024 includes a decline in food retailing related to strong project activity in the prior year, partially offset by modest growth in laboratory products.

Segment profit decreased \$17.3 million for the three month period ended March 31, 2024 compared to the corresponding period in 2023. Segment profit during the three months ended March 31, 2024 includes unfavorable inter-segment pricing, increased costs, unfavorable foreign currency translation and mix.

Western European Operations (amounts in thousands)

	Three months ended March 31,		
	2024	2023	% ¹⁾
Total net sales	\$ 262,503	\$ 244,300	7 %
Net sales to external customers	\$ 214,765	\$ 199,424	8 %
Segment profit	\$ 50,311	\$ 44,523	13 %

1) Represents U.S. dollar growth.

Total net sales increased 7% in U.S. dollars and 6% in local currencies during the three months ended March 31, 2024 compared to the corresponding period in 2023. Net sales to external customers increased 8% in U.S. dollars and 6% in local currencies during the three months ended March 31, 2024 compared to the corresponding period in 2023. Net sales benefited by approximately 10% from our previously disclosed shipping delays during the three months ended March 31, 2024. Excluding this impact, the local currency net sales to external customers decrease for the three months ended March 31, 2024 includes declines in most categories.

Segment profit increased \$5.8 million for the three month period ended March 31, 2024 compared to the corresponding period in 2023. Segment profit increased during the three months ended March 31, 2024 primarily due to higher volume from our previously disclosed shipping delays, benefits from our margin expansion and cost savings initiatives.

Chinese Operations (amounts in thousands)

	Three months ended March 31,		
	2024	2023	% ¹⁾
Total net sales	\$ 223,839	\$ 246,219	(9)%
Net sales to external customers	\$ 143,198	\$ 185,767	(23)%
Segment profit	\$ 75,823	\$ 81,241	(7)%

1) Represents U.S. dollar growth.

Total net sales decreased 9% in U.S. dollars and 5% in local currency for the three months ended March 31, 2024 compared to the corresponding period in 2023. Net sales to external customers by origin decreased 23% in U.S. dollars and 20% in local currency for the three months ended March 31, 2024 compared to the corresponding period in 2023. Net sales to external customers benefited by approximately 2% from our previously disclosed shipping delays during the three months ended March 31, 2024. Excluding this impact, the decrease in local currency net sales to external customers during the three months ended March 31, 2024 reflects a significant decline in market demand in most product categories. Uncertainties continue to exist and market conditions may change quickly.

Segment profit decreased \$5.4 million for the three month period ended March 31, 2024 compared to the corresponding period in 2023. The decrease in segment profit for the three month period ended March 31, 2024 primarily relates to lower sales volume and unfavorable currency, offset in part by benefits from our margin expansion and cost savings initiatives.

Other (amounts in thousands)

	Three months ended March 31,		
	2024	2023	% ¹⁾
Total net sales	\$ 170,943	\$ 160,733	6 %
Net sales to external customers	\$ 167,612	\$ 159,776	5 %
Segment profit	\$ 25,182	\$ 24,243	4 %

1) Represents U.S. dollar growth.

Total net sales increased 6% in U.S. dollars and 9% in local currencies during the three months ended March 31, 2024 compared to the corresponding period in 2023. Net sales to external customers by origin increased 5% in U.S. dollars and 7% in local currency for the three months ended March 31, 2024 compared to the corresponding period in 2023. Net sales to external customers benefited by approximately 9% from our previously disclosed shipping delays during the three months ended March 31, 2024. Excluding this impact, the decrease in net sales to external customers includes a decline in most product categories.

Segment profit increased \$0.9 million for the three months ended March 31, 2024 compared to the corresponding period in 2023. The increase in segment profit is primarily related to our increased sales volume and margin expansion initiatives, offset in part by unfavorable foreign currency translation.

Liquidity and Capital Resources

Liquidity is our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments. In addition, liquidity includes available borrowings under our Credit Agreement, the ability to obtain appropriate financing and our cash and cash equivalent balances. Currently, our liquidity needs are primarily driven by working capital requirements, capital expenditures, share repurchases and acquisitions. Global market conditions can be uncertain, and our ability to generate cash flows could be reduced by a deterioration in global markets.

We currently believe that cash flows from operating activities, together with liquidity available under our Credit Agreement, local working capital facilities, and cash balances, will be sufficient to fund currently anticipated working capital needs and spending requirements for at least the foreseeable future.

Cash provided by operating activities totaled \$190.0 million during the three months ended March 31, 2024, compared to \$153.3 million in the corresponding period in 2023. The increase for the three months ended March 31, 2024 compared to the prior year is primarily related to working capital, including lower cash incentive payments of approximately \$35 million.

Capital expenditures are made primarily for investments in information systems and technology, machinery, equipment and the purchase and expansion of facilities. Our capital expenditures totaled \$17.4 million for the three months ended March 31, 2024 compared to \$23.2 million in the corresponding period in 2023.

In September 2021, we entered into an agreement with the U.S. Department of Defense to increase domestic production capacity of pipette tips and enhance manufacturing automation and logistics. We have received the maximum allowable funding of \$35.8 million related to the agreement during prior years, which offset associated capital expenditures.

We continue to explore potential acquisitions. In connection with any acquisition, we may incur additional indebtedness.

Cash flows used in financing activities are primarily comprised of share repurchases. In accordance with our share repurchase program, we spent \$212.5 million and \$250.0 million on the repurchase of 173,700 shares and 166,628 shares, during the three months ended March 31, 2024 and 2023, respectively.

The Inflation Reduction Act (IRA) was enacted on August 16, 2022. The IRA includes provisions imposing a 1% excise tax on net share repurchases that occur after December 31, 2022, and introduces a 15% corporate alternative minimum tax (CAMT) on adjusted financial statement income. The financial impact of the IRA is immaterial to our financial statements.

Senior Notes and Credit Facility Agreement

Our debt consisted of the following at March 31, 2024:

	U.S. Dollar	Other Principal Trading Currencies	Total

Total long-term debt	\$ 1,273,187	\$ 630,387	\$ 1,903,574

As of March 31, 2024, approximately \$583.6 million of additional borrowings was available under our Credit Agreement, and we maintained \$70.2 million of cash and cash equivalents.

In May 2023 we amended our Credit Agreement to replace all references of LIBOR to SOFR and other non-U.S. dollar references as the interest rate benchmark.

Changes in exchange rates between the currencies in which we generate cash flows and the currencies in which our borrowings are denominated affect our liquidity. In addition, because we borrow in a variety of currencies, our debt balances fluctuate due to changes in exchange rates. Further, we do not have any downgrade triggers relating to ratings from rating agencies that would accelerate the maturity dates of our debt. We were in compliance with our debt covenants as of March 31, 2024.

In December 2022, we entered into an agreement to issue and sell \$150 million 10-year Senior Notes in a private placement. We issued \$150 million with a fixed interest rate of 5.45% (5.45% Senior Notes) in March 2023. The 5.45% Senior Notes are senior unsecured obligations of the Company. The 5.45% Senior Notes mature on March 1, 2033. The terms of the 5.45% Senior Notes are consistent with the previous Senior Notes as described in the Company's Annual Report Form 10-K for the year ended December 31, 2023. We used the proceeds from the sale of the 5.45% Senior Notes to refinance existing indebtedness and for other general corporate purposes.

Other Local Arrangements

In 2018, two of the Company's non-U.S. pension plans issued loans totaling \$39.6 million (Swiss franc 38 million) to a wholly owned subsidiary of the Company. The loans have the same

terms and conditions which include an interest rate of SARON plus 87.5 basis points. The loans were renewed for one year in April 2024.

Share Repurchase Program

We have \$2.3 billion of remaining availability for our share repurchase program as of March 31, 2024. The share repurchases are expected to be funded from cash generated from operating activities, borrowings, and cash balances. Repurchases will be made through open market transactions, and the amount and timing of purchases will depend on business and market conditions, the stock price, trading restrictions, the level of acquisition activity, and other factors.

We have purchased 31.9 million common shares at an average price per share of \$287.08 since the inception of the program in 2004 through March 31, 2024. During the three months ended March 31, 2024 and 2023, we spent \$212.5 million and \$250.0 million on the repurchase of 173,700 shares and 166,628 shares at an average price per share of \$1,223.35 and \$1,511.78, respectively. We reissued 4,898 shares and 47,849 shares held in treasury for the exercise of stock options and restricted stock units during the three months ended March 31, 2024 and 2023, respectively. In addition, the Company incurred \$2.1 million and \$1.9 million of excise tax during the three months ended March 31, 2024 and 2023, respectively, related to the Inflation Reduction Act which is reflected as a reduction in shareholders' equity in the Company's consolidated financial statements.

Effect of Currency on Results of Operations

Our earnings are affected by changing exchange rates. We are most sensitive to changes in the exchange rates between the Swiss franc, euro, Chinese renminbi, and U.S. dollar. We have more Swiss franc expenses than we do Swiss franc sales because we develop and manufacture products in Switzerland that we sell globally, and have a number of corporate functions located in Switzerland. When the Swiss franc strengthens against our other trading currencies, particularly the U.S. dollar and euro, our earnings decrease. We also have significantly more sales in the euro than we do expenses. When the euro weakens against the U.S. dollar and Swiss franc, our earnings also decrease. We estimate a 1% strengthening of the Swiss franc against the euro would reduce our earnings before tax by approximately \$2.0 million to \$2.3 million annually.

We also conduct business in many geographies throughout the world, including Asia Pacific, the United Kingdom, Eastern Europe, Latin America, and Canada. Fluctuations in these currency exchange rates against the U.S. dollar can also affect our operating results. The most significant of these currency exposures is the Chinese renminbi. The impact on our earnings before tax of the Chinese renminbi weakening 1% against the U.S. dollar is a reduction of approximately \$3.0 million to \$3.3 million annually.

In addition to the effects of exchange rate movements on operating profits, our debt levels can fluctuate due to changes in exchange rates, particularly between the U.S. dollar, the Swiss franc, and euro. Based on our outstanding debt at March 31, 2024, we estimate that a 5% weakening of the U.S. dollar against the currencies in which our debt is denominated would result in an increase of approximately \$36.1 million in the reported U.S. dollar value of our debt.
