|---|--------------------|
| 1. The election of nine directors for one-year terms | “FOR” each nominee |
| 2. The ratification of the appointment of PricewaterhouseCoopers LLP as the company’s independent registered public accounting firm | “FOR” |

How to Vote

BY PROXY — You may vote your shares by proxy. If you vote your shares by proxy, you are legally designating another person to vote the stock you own in accordance with your desired vote. To vote by proxy, complete, sign and return the enclosed proxy card by mail to the address stated on your proxy card. You may also vote over the Internet at <http://proxyonline.mt.com>.

IN PERSON — You may vote your shares by attending the meeting and voting your shares in person. The meeting is being held at the offices of Fried, Frank, Harris, Shriver & Jacobson LLP, the address of which is indicated in the foregoing Notice to Shareholders.

Even if you plan to attend the meeting, we encourage you to vote your shares by proxy. This will enable us to receive votes in advance of the meeting to ensure that a quorum (defined below) is present for the meeting.

Changing Your Vote

If you vote by proxy and subsequently decide to change your vote, you may revoke your proxy at any time before the polls close at the meeting. However, you may only do this by signing another proxy with a later date, completing a written notice of revocation and returning it to the address on the proxy card before the meeting, or voting in person at the meeting.

Votes Needed to Hold the Meeting

A quorum needs to be present at the meeting in order to hold the meeting. A quorum is a majority of the company’s outstanding shares of common stock as of the record date. Your shares are counted as present at the meeting if you attend the meeting and vote in person; vote by Internet; or properly return a proxy card by mail. Abstentions shall also be counted in determining whether a quorum is present.

Effect of not Providing Voting Instructions

If you do not provide a proxy or vote the shares yourself, your shares will not be voted. Proxies that are signed and returned but do not contain instructions will be voted “FOR” the items of business described in the proxy.

ABOUT THE MEETING AND VOTING

How to Vote on Proposal 1

A majority of shares present at the meeting and entitled to vote must vote “FOR” the election of each director, provided that if the number of nominees exceeds the number of directors to be elected, directors shall be elected by the affirmative vote of a plurality of the votes cast. Votes cast shall include votes for or against a director. An abstention shall not count as a vote cast with respect to a director.

How to Vote on Proposal 2

A majority of shares present at the meeting and entitled to vote must vote “FOR” the appointment of PricewaterhouseCoopers LLP as the company’s independent registered public accounting firm for the proposal to be ratified. A properly executed proxy card marked “abstain” with respect to this proposal will not be voted. Accordingly, abstentions will have the effect of a vote “against” this proposal.

For purposes of determining whether the affirmative vote of a majority of the votes cast at the meeting and entitled to vote has been obtained, abstentions will be included in the number of shares present and entitled to vote.

No Dissenters’ Rights

In the event of certain corporate actions, such as a merger subject to shareholder approval, shareholders have the right to dissent from such action and obtain payment of the fair value of his/her shares. This is referred to as “dissenters’ rights”. The proposals in this proxy statement do not give rise to dissenters’ rights.

Receiving More than One Proxy Card

If you have received more than one proxy card, you have multiple accounts with brokers and/or our transfer agent. Please vote all of these shares. We recommend that you contact your broker and/or our transfer agent to consolidate as many accounts as possible under the same name and address. BOARD OF DIRECTORS — GENERAL INFORMATION

Composition of the Board; Board Leadership Structure

In accordance with the company's by-laws, the Board of Directors consists of between five and ten directors, with the exact number currently fixed at nine. Each director holds a one-year term until the next annual meeting of shareholders. The board has three committees: (i) the Audit Committee; (ii) the Compensation Committee; and (iii) the Nominating and Corporate Governance Committee.

The board consists of nine directors, including a Chairman, the CEO and seven independent, outside directors. The primary tasks of the board include the oversight of the company's strategy and governance matters, review of the company's financial matters, and evaluation of how the company executes against objectives. Management's tasks include setting strategy and running the company's operations. The company believes having a separate CEO and Chairman allows the Chairman to function as an important liaison between management and the board, helping ensure that the board fulfills its oversight responsibilities.

To ensure the board has sufficient independence from management, the board has also established a lead independent director (the Presiding Director), who oversees executive sessions of the non-management directors and all meetings of directors at which the Chairman is not present. The Presiding Director also coordinates with the Nominating and Corporate Governance Committee relating to director nominations as described in the Nominating and Corporate Governance Committee report below. Mr. Salice is currently serving as the Presiding Director.

Corporate Governance Guidelines

The board has established corporate governance guidelines that contribute to the overall operating framework of the board and the company. These guidelines cover topics including director qualifications and the director nomination process, the responsibilities of directors, including with respect to leadership development and management succession, meetings of non-management directors, and director compensation. The guidelines are available on the company's website at www.mt.com under "About Us / Investor Relations / Corporate Governance" and are available in print to any shareholder who requests them at the address and phone number set forth above.

Responsibility of the Board of Directors in Governance & Role in Risk Oversight

It is the responsibility of the Board of Directors to establish and monitor the company's internal governance practices and work toward the long-term success of the company. The company has adopted a code of business conduct and ethics, known as the code of conduct. All actions of the company's Board of Directors, executive officers (including the Chief Executive Officer, Chief Financial Officer and Controller) and employees are governed by the company's code of conduct. No waiver of the code of conduct by an executive officer or director was approved by the board in 2009. A copy of the code of conduct is available at www.mt.com under "About Us / Investor Relations / Corporate Governance" (<http://phx.corporate-ir.net/phoenix.zhtml?c=116541&p=irol-govboard>) and is available in print to any shareholder who requests it. Shareholders may request copies free of charge from Investor Relations, Mettler-Toledo International Inc., 1900 Polaris Parkway, Columbus, OH 43240, USA, telephone +1 614 438 4748.

The board is involved in the oversight of the company's risk management process as follows. Each year, the company conducts an enterprise risk assessment under the supervision of the Chief Financial Officer. The full board receives the results of the assessment, including an evaluation of risks and a description of actions taken by the company to mitigate risk. The Audit Committee reviews the results in detail and reports on its review to the board.

Minimum Qualifications for Directors

Members of the Board of Directors must demonstrate integrity, reliability, knowledge of corporate affairs, and an ability to work well together. Diversity in business background, area of expertise, gender and ethnicity are also considered when selecting board nominees. Additional details are contained in the company's corporate governance guidelines available at www.mt.com under "About Us / Investor Relations / Corporate Governance".

BOARD OF DIRECTORS — GENERAL INFORMATION

Independence of the Board

The board uses the following criteria in evaluating independence: (i) independence under the rules of the New York Stock Exchange; and (ii) no relationships with the company (other than as a director or shareholder) or only immaterial relationships. The independence criteria are contained in the corporate governance guidelines available on the company's website at www.mt.com under "About Us / Investor Relations / Corporate Governance". The board solicits information from directors as to any relationship the director or his immediate family member has with the company that might affect the director's independence. The board also evaluates directors' independence pursuant to current New York Stock Exchange rules.

In light of these criteria, the board has determined that Messrs. Chu, Contino, Kelly, Madaus, Maerki, Milne and Salice are independent under the rules of the New York Stock Exchange and either have no relationships with the company (other than as director and shareholder) or have only immaterial relationships with the company. Mr. Spoerry, Chairman of the Board, and Mr. Filliol, President and Chief Executive Officer, are not independent under the rules of the New York Stock Exchange, as they are employees of the company.

The Board of Directors has determined that the following types of relationships are categorically immaterial:

- Commercial business relationships where METTLER TOLEDO buys from or sells to companies where directors serve as employees, or where their immediate family members serve as executive officers, and where the annual purchases or sales are less than the greater of \$1 million or 2% of either company's consolidated gross revenues.

Meeting of Non-Management Directors

The board schedules regular executive sessions for its non-management members, typically as part of each board meeting. The Presiding Director acts as chairman of these meetings.

Director Attendance at Board Meetings and the Annual Meeting

The board expects that its members will attend all meetings of the board and the annual meeting of shareholders. The Board of Directors met four times in 2009. Each director attended at least 75% of all board and committee meetings of which the director is a member and all directors attended the 2009 annual meeting of shareholders.

Policy Limiting Director Service on Other Public Company Boards; Director Resignation

The board has adopted a policy that directors may not serve on more than six public company boards. The board also has a policy that directors will offer their resignation upon a change in professional position or in circumstances that might affect a director's ability to serve on the board. In such circumstances, the Nominating and Corporate Governance Committee takes the lead on determining the appropriate course of action.

Director Retirement Policy

The Board of Directors has adopted a retirement policy, pursuant to which directors will retire immediately after the board meeting that follows their 72nd birthday. In adopting the policy, the Board of Directors considered the importance of ensuring a mix of ages among board members and the balance of continuity versus fresh perspectives.

Contacting the Board of Directors

Interested parties, including shareholders, may contact the Board of Directors, the Presiding Director individually or the non-management directors as a group via: EMAIL to PresidingDirector@mt.com; or REGULAR MAIL to Mettler-Toledo International Inc., Im Langacher, 8606 Greifensee, Switzerland, Attention: Presiding Director. All communications will be reviewed by the Presiding Director.

AUDIT COMMITTEE REPORT

The Audit Committee assists the board in overseeing the accounting and financial reporting processes of the company. The Audit Committee operates pursuant to a written charter, a copy of which can be found on the company's website at www.mt.com under "About Us / Investor Relations / Corporate Governance". The committee is responsible for overseeing the accounting and financial reporting processes of the company and audits of the financial statements of the company. In discharging its oversight role, the Audit Committee discussed the audited financial statements contained in the 2009 annual report separately with the company's independent registered public accounting firm and the company's management and reviewed the company's internal controls and financial reporting.

The company's independent registered public accounting firm, PricewaterhouseCoopers LLP ("PwC"), is responsible for auditing the company's consolidated financial statements as well as the company's internal control over financial reporting. PwC issues opinions as to (1) whether the financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of the company and its subsidiaries in accordance with accounting principles generally accepted in the United States of America and (2) whether the company maintained, in all material respects, effective control over financial reporting.

Audited Financial Statements

In reviewing the company's audited financial statements with the independent registered public accounting firm, the Audit Committee discussed with PwC the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended and adopted by the Public Company Accounting Oversight Board, and other matters including, without limitation:

- PwC's responsibilities under generally accepted auditing standards, including the nature and scope of their audits;
- the written disclosures and confirming letter from PwC regarding their independence required under the Independence Standards Board Standard No. 1;
- significant accounting policies, such as revenue recognition, goodwill and other intangible assets, and income taxes;
- management judgments and accounting estimates;
- any material weaknesses or significant deficiencies in internal controls over financial reporting; and
- the extent of any significant accounting adjustments.

In reviewing the company's audited financial statements with the company's management, the Audit Committee discussed the same topics listed above with management, including, without limitation, the process used by management in formulating accounting estimates and the reasonableness of those estimates.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the board approved, that the audited financial statements be included in the company's Annual Report on Form 10-K for the year ended December 31, 2009.

NOMINATING AND CORPORATE GOVERNANCE COMMITTEE REPORT

The Nominating and Corporate Governance Committee assists the board in identifying and recommending individuals to be nominated for election to the Board of Directors by shareholders. The Nominating and Corporate Governance Committee operates pursuant to a written charter, a copy of which can be found on the company's website at www.mt.com under "About Us / Investor Relations / Corporate Governance". The committee is responsible for advising the board on the structure and membership of committees of the board as well as developing corporate governance guidelines applicable to the operation of the company. We describe below the process established by the committee to nominate directors to the Board of Directors as well as some of the recent corporate governance activities undertaken by the committee.

Director Nomination Process

When there is an actual or anticipated board vacancy, candidates for the Board of Directors may be recommended by (i) any member of the Nominating and Corporate Governance Committee, (ii) other board members, (iii) third parties engaged for that purpose by the committee, and/or (iv) the company's shareholders. The Nominating and Corporate Governance Committee will consider candidates recommended by shareholders and evaluate them in the same manner as other candidates. Shareholders interested in recommending a person to be a director of the company must make such recommendation in writing. The recommendation must be forwarded to the Secretary of the company at: Mettler-Toledo International Inc., Im Langacher, 8606 Greifensee, Switzerland. Shareholder recommendations must include the information and be sent within the time-frames specified in the company's by-laws, a copy of which can be obtained from the Secretary. Additional details regarding minimum qualifications for director nominees can be found in the corporate governance guidelines on the company's website at www.mt.com under "About Us / Investor Relations / Corporate Governance".

The Nominating and Corporate Governance Committee follows the following process in nominating candidates for a position on the company's Board of Directors.

- (1) The committee begins by working with the Presiding Director and Chairman of the Board to determine the specific qualifications, qualities and skills that are desired for potential candidates to fill the vacancy on the board. The committee makes this determination based upon the current composition of the board, the specific needs of the company and the Minimum Qualifications for Directors included in the corporate governance guidelines. These state that the Board of Directors should be composed of successful individuals who demonstrate integrity, reliability, knowledge of corporate affairs, a general understanding of the company's business, and an ability to work well together. The committee considers diversity in business background, area of expertise, gender and ethnicity. The committee also evaluates longer-term board succession, taking into account the demographics of respective board members.
- (2) The Nominating and Corporate Governance Committee, Presiding Director and Chairman of the Board will then compile a list of all candidates recommended to fill the vacancy on the board. Candidates who meet the desired qualifications, qualities and skills will be required to complete a questionnaire that solicits information regarding the candidates' background, experience, independence and other information.
- (3) Members of the Nominating and Corporate Governance Committee, the Presiding Director, the Chairman of the Board and, in appropriate cases, other board members will interview those candidates who have completed the questionnaire.
- (4) Following these interviews, the full Nominating and Corporate Governance Committee considers the qualifications of each candidate to ensure that each candidate meets the specific qualities and skills that are desired. The committee will forward to the Board of Directors for consideration a list of candidates qualified for the position.

With regard to the current board nominees, the Nominating and Corporate Governance Committee has evaluated the qualifications and contributions of each of the board nominees and has recommended to the board that the nine current directors be nominated for re-election.

NOMINATING AND CORPORATE GOVERNANCE COMMITTEE REPORT

Corporate Governance

The Nominating and Corporate Governance Committee focused in 2009 on the composition of the board and its committees, with an emphasis on board skills and succession generally. The Committee oversaw the director search process leading to the appointment of Mr. Madaus in July 2009. The Committee continues to review director candidates and committee membership.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Discussion and Analysis

The Compensation Committee oversees compensation of the company's executive officers. In carrying out its duties, the Compensation Committee receives information and recommendations from the Head of Human Resources and the Chief Executive Officer, and may consult with outside compensation consultants as it deems appropriate. The Compensation Committee has historically used the firm Pearl Meyer & Partners to provide market surveys of executive compensation in technology firms in comparable industries (including scientific instrument firms), which are considered in setting compensation levels. In 2009, the Compensation Committee engaged the firm Pearl Meyer & Partners to assist it in reviewing the Chairman's compensation, and in establishing the size of the 2009 equity grants.

The objectives of the company's executive compensation programs are as follows:

- We operate globally and compete to attract and keep the best talent. Total compensation must be competitive in the global personnel market in which we operate.
- Compensation should be transparent and performance should be objectively measured.
- We believe in a strong link between pay and performance. We set challenging targets for ourselves, and compensation is designed to reward overachievement of targets. At the same time, when performance is only at or below target, compensation tends to be below market.
- One of our primary goals is to create shareholder value, and we seek to tie a significant portion of executive compensation to this objective. We do this in part by linking long-term compensation to the company's long-term performance.
- We also encourage executives to be company shareholders.

The company's compensation program consists of three main elements: base salary, an annual cash incentive and long-term incentive compensation (stock options). We do not believe in providing special benefits to executives, and do not provide any significant perquisites. In sum, our goal is to ensure that the three main elements of compensation are carefully considered and fair, and that executives are motivated to further the interests of shareholders.

Each year the Compensation Committee separately reviews each of the three elements, as well as total compensation, taking into account the company's growth and performance, individual executive performance, and developments in the markets in which we compete for talent. In evaluating the competitiveness of the company's executive compensation, the Compensation Committee periodically conducts both broad based surveys of executive compensation and surveys of the compensation of executives in the instruments and electronics industries, including companies in SIC Code 3826 (Laboratory Analytical Instruments). In 2008, Pearl Meyer & Partners provided US-based survey data using confidential surveys relating to CEO and senior executive compensation at technology companies in comparable industries, including scientific instruments firms, and of similar size firms to the company. They also provided peer company executive compensation at Ametek, Coherent, Dionex, Millipore, Pall, PerkinElmer, Roper, Varian and Waters. Hostettler & Partner AG provided European-based survey data from a database of 9,000 companies from a wider industry group, with an emphasis on companies in the precision instruments sector of a similar size to the company. In 2009, Pearl Meyer & Partners provided information about the size of and trends in US equity grants, using data from the above peer companies and from broader US-based survey data. They also provided information about Chairman compensation levels, using data from US and Swiss public companies as well as broader survey data on Swiss public companies.

Base Salary

The company's goal is to pay average base salaries that are approximately at or somewhat below the median. Based on broad based and peer company surveys, we believe base salaries for executive officers are generally lower than those at peer companies. Although a certain base salary is necessary and appropriate, we believe the majority of

COMPENSATION DISCUSSION AND ANALYSIS

executive compensation should be paid in ways that link pay with performance. We accomplish this through the annual cash incentive and long-term incentives.

Annual Cash Incentive

We link pay with performance through our cash incentive plan, called POBS Plus (Performance Oriented Bonus System). The purpose of the incentive plan is to provide an incentive to key employees of the company to dedicate themselves to the financial success of the company as measured based on objective financial criteria. The incentive plan is administered by the Compensation Committee. At the end of each year, the Compensation Committee establishes the performance targets on which each participant's incentive is based for the coming year. The financial targets used relate closely to our annual plan and budget, which are approved by the full Board of Directors each year. The targets are set taking into account the economic environment, the health of the company's end-user markets, and the challenges and opportunities of the company's various businesses. See "*2009 Performance Targets and Actual Target Achievement*" below.

A cash incentive is payable following achievement of at least 90% of the target level. Below 90% target achievement no payment is made. At 100% target achievement, the incentive is 50% of base salary for Messrs. Spoerry and Filliol, and 45% of base salary for Messrs. Donnelly, Caratsch and Widmer. The maximum incentive possible is earned at 130% target achievement, and is 169.38% of base salary for Messrs. Spoerry and Filliol, 160.50% of base salary for Messrs. Caratsch and Widmer, and 157.50% of base salary for Mr. Donnelly.

In addition, between 12 and 20 percent of the incentive for each participant is based on individual objective performance targets relating to the company's annual business objectives. The Compensation Committee directly evaluates the Chief Executive Officer's and Chairman's performance on their individual targets, and reviews the CEO's recommendation on the individual target performance of the other executive officers. After the conclusion of each year, the Compensation Committee reviews the audited results of the company's performance against each participant's performance targets and determines the incentive payment, if any, earned by each participant.

The plan provides that targets for 100% achievement should be challenging and ambitious, but also realistic and attainable such that it is possible to achieve and exceed them. The impact of over- or under-achieving targets on the annual incentive can be significant. The company and Board of Directors therefore approach the target setting process with care and consideration. We believe targets are set consistently with the philosophy of the POBS Plus plan that they be challenging and ambitious. In recent years the average target achievement for executive officers has ranged from 95% to approximately 125%.

2009 Performance Targets and Actual Target Achievement

The 2009 performance targets for 100% target achievement were as follows: adjusted non-GAAP earnings per share — \$6.13, net cash flow before taxes, voluntary pension payments and restructuring — \$229.4 million, last 12 months inventory turnover — 5.30, and group sales measured at budgeted currency rates — \$1,956.9 million. Messrs. Caratsch and Widmer have additional targets related to the sales and operating profit of their respective divisions.

The 2009 actual performance was as follows: adjusted non-GAAP earnings per share — \$5.50, net cash flow before taxes, voluntary pension payments and restructuring — \$261.8 million, last 12 months inventory turnover — 5.12, and group sales measured at budgeted currency rates — \$1,724.5 million. Adjusted non-GAAP earnings per share during 2009 excluded restructuring charges (net of tax) of \$0.67, discrete tax benefits of \$0.24 and debt extinguishment and financing costs (net of tax) of \$0.04. Net cash flow before taxes, voluntary pension payments and restructuring represents cash flow from operations less capital expenditures, tax payments, voluntary pension payments of \$11.5 million and restructuring payments of \$22.2 million.

The 2009 target performance resulted in incentive payments for Messrs. Spoerry, Filliol, Donnelly, Caratsch and Widmer of 34%, 35%, 33%, 23% and 24% of base salary, respectively, under the POBS Plus plan for 2009.

COMPENSATION DISCUSSION AND ANALYSIS

Long-Term Incentives

Another method we have historically used to link pay with performance is awarding stock options, which we believe aligns management's interests with those of the company's shareholders. When the company performs well, the value of executive officers' incentive compensation increases. When the company does not perform well, the value of incentive awards is reduced. Our stock options (including those granted in 2009) typically vest over five years, 20% per year, starting on the first anniversary of the date of grant. In 2003, we granted certain options that vested over two years. In 2008, we granted certain performance options that will vest in five years if the company meets EPS growth targets. Options generally have a term of ten years, except for certain grants to Swiss residents having terms of six years and ten and a half years.

In determining the size of each named executive officer's stock option grants, the Compensation Committee evaluates the relative importance of the individual's job, the contribution and performance of the individual, their years of service and their total compensation, as well as competitive information about equity as described above relative to each individual. In 2009, this analysis led to the grant of stock options with the grant date fair values each as described in the table "Grant of Plan-Based Awards".

The Compensation Committee believes that past performance is just one factor to take into account in determining the size of future awards. In line with our philosophy of rewarding for performance, if the interests of shareholders have been and continue to be served, it is appropriate for management to continue to be awarded long-term incentives.

Option Grant Practices and Policy

The Compensation Committee approves all option grants. Option grants are typically made once each year on the date of the Compensation Committee meeting at which the overall annual compensation review takes place (typically in late October or early November each year). The Compensation Committee meeting dates are set up to two years in advance, and the option grants are made on the meeting date. This is typically shortly before the announcement of the company's earnings. In the past, the Committee has also made initial grants to individual executive officers at the time they started serving as executive officers. All options have an exercise price equal to the closing price of the company's shares on the New York Stock Exchange on the date of grant.

Equity Ownership Guidelines

The Compensation Committee feels it is important for senior executives to have a significant portion of their ongoing compensation tied to the interests of shareholders. In 2009, the Compensation Committee implemented equity ownership guidelines for directors and executive officers that call for the individuals to accumulate equity ownership as follows:

<u>Category</u>	<u>Value of Equity Ownership Required</u>
Directors	5x cash retainer
Chairman & CEO	5x base salary
CFO	3x base salary
Other executive officers	2x base salary

The following types of equity will count towards the ownership requirement: shares held directly, vested and unvested restricted stock units (if any), and the in-the-money value of vested stock options. Individuals have a five-year period to meet the ownership requirement, running from July 2009 for all current directors and officers. Prospectively the five-year period will run from the date of promotion or date of election to the board. If an individual does not meet the requirement within the relevant time periods, the Compensation Committee has the discretion not to make further equity grants to that person. If an individual has met their requirement but subsequently falls below due to a drop in share price, they will have 24 months to rebuild their ownership,

COMPENSATION DISCUSSION AND ANALYSIS

subject to Compensation Committee discretion. As of December 31, 2009, all directors and officers who had been serving with the company for more than three years had already met their equity ownership target.

Share Purchase Plan

To help encourage executives to be direct shareholders, the board approved the Mettler-Toledo 2007 Share Purchase Plan on November 1, 2007. Under the plan, executive officers may purchase company shares using all or a portion of their cash incentive payable under the POBS Plus plan, subject to approval of the Compensation Committee. The issue price for shares under the plan will be equal to the New York Stock Exchange closing price on the date of issuance, which is expected to be on or shortly before March 15 of each year. All shares issued pursuant to the plan will be restricted for a period of five years from the date of issuance, during which time they may not be sold, assigned, transferred or otherwise disposed of, nor may they be pledged or otherwise hypothecated, except in the case of death or disability.

Mr. Spoerry purchased shares with a value of CHF 500,000 from his 2007 cash incentive. Mr. Filliol purchased shares with a value of CHF 650,000 from his 2007 cash incentive, CHF 360,938 from his 2008 cash incentive, and CHF 286,275 from his 2009 cash incentive. Mr. Widmer purchased shares with a value of CHF 150,000 from his 2007 cash incentive.

Swiss Pension Plan

The Swiss-based executive officers (each of the named executive officers except Mr. Donnelly) participate in a Swiss pension plan called Mettler-Toledo Fonds, which is a cash balance benefit (or pension) plan. Each year we contribute to the plan 22% of each participating named executive officer's "covered salary". The covered salary for pension purposes is equal to 77.27% of the individual's target salary (consisting of the base salary plus the cash incentive earned at 100% target achievement) and was capped by Swiss law at a maximum of CHF 820,800 in 2009 and CHF 795,600 in 2008 and 2007. Individual employees may also make their own direct contributions to the plan from their own funds. Amounts in the plan bear interest depending on the annual performance of the pension plan, including certain minimum amounts as set by Swiss law. Retirement benefits are paid in the form of a lump-sum payment when the employee reaches the normal retirement age under the plan of 65.

Tax Treatment

Section 162(m) of the Internal Revenue Code prohibits the company from deducting compensation in excess of \$1 million paid to certain employees, generally its CEO and its three other most highly compensated executive officers (excluding the CFO), unless that compensation qualifies as performance-based compensation. We maintain flexibility to balance the need to fairly compensate the company's executive officers with the company's ability to deduct compensation pursuant to Section 162(m).

Tax Equalization Agreements (Swiss Executives)

The company is a party to tax equalization agreements with Messrs. Spoerry, Filliol, Caratsch and Widmer, who are non-U.S. citizens and non-U.S. residents and who pay income tax on their earnings in Switzerland. The individuals do not receive any cash benefit from the agreements, the principle of which is to leave the employee in exactly the same position (i.e., no better and no worse off) than if they had not become subject to incremental U.S. taxation on a portion of their income. Under the tax equalization agreements, the company has agreed to pay taxes borne by these executives in respect of incremental taxation being due in the United States by virtue of their work for the company there. Because the individuals are left no better and no worse off than had they not become subject to U.S. taxation, the Compensation Committee does not believe it is appropriate to take into account the U.S. taxes paid by the company under the tax equalization agreements when determining the employees' compensation each year. In cases where the individual's Swiss taxes are lower as a result of the company having paid these U.S. tax amounts, the individual may need to make a payment to the company under the tax equalization agreement.

COMPENSATION DISCUSSION AND ANALYSIS

Employment Agreements

The company is a party to employment agreements with each of the named executive officers. These agreements provide for a base salary subject to adjustment and participation in our cash incentive plan and other employee benefit plans. Each agreement prohibits the executive from competing with the company for a period of 12 months after termination of employment. The agreements may be terminated without cause by either party on 12 months' notice (six months' notice for Mr. Widmer), during which periods the executive is entitled to full compensation under the agreement, including payment of base salary, target cash incentive, and continuation of benefits.

The equity compensation arrangements are separately described in the sections below entitled "Grants of Plan-Based Awards" and "Outstanding Equity Awards at Fiscal Year-End". The operation of the employment agreements in the context of a termination or a change in control is separately described below under "Payments Upon Termination or Change in Control".

Changes in 2009 Compensation

Based on its review of salary survey data referred to above, and taking into account each individual's performance, the Compensation Committee adjusted the 2009 base salaries of Mr. Filliol and Mr. Spoerry to CHF 825,000 and CHF 400,000, respectively, and increased the 2009 base salary of Mr. Caratsch by 2.0%. Based on the quality of leadership of Mr. Filliol, Mr. Spoerry, and the management team, and the overall performance of the company, the committee believes management's compensation is appropriate.

- (1) All amounts shown were paid in Swiss francs, except amounts paid to Mr. Donnelly and U.S. tax equalization payments, which were paid in U.S. dollars. For purposes of this table, all amounts paid in Swiss francs were converted to U.S. dollars at a rate of CHF 1.0866 to \$1.00, the average exchange rate in 2009.
- (2) Represents the aggregate grant date fair value of stock option awards for each individual computed in accordance with ASC 718. The valuation assumptions associated with such awards are discussed in Note 12 to the company's financial statements included in the Form 10-K for the fiscal year ending December 31, 2009. The 2008 figures reflect two grants made in that year for all officers except Mr. Spoerry. In connection with Mr. Filliol becoming the CEO, the Compensation Committee approved a one-time grant of performance options made on January 3, 2008. The regular annual grant of options was made on November 6, 2008.
- (3) Amounts shown are the annual cash incentive earned under the company's POBS Plus (Performance Oriented Bonus System) incentive plan. A portion of the incentive was paid in the form of company shares pursuant to the Share Purchase Plan described above as follows:

COMPENSATION DISCUSSION AND ANALYSIS

Mr. Spoerry (CHF 500,000 for 2007), Mr. Filliol (CHF 650,000 for 2007, CHF 360,938 for 2008, and CHF 286,275 for 2009) and Mr. Widmer (CHF 150,000 for 2007).

- (4) Represents the change in actuarial present value of each individual's accumulated benefit under the Mettler-Toledo Fonds pension plan, a Swiss cash balance benefit plan, consisting of the company's contributions to the plan on behalf of each individual.
- (5) Includes tax equalization payments and other miscellaneous benefits as set out below. As described in the Compensation Discussion and Analysis above, the individuals do not receive any cash benefit from the tax equalization payments. The principle of the tax equalization is to leave the employee in exactly the same position (i.e., no better and no worse) than if they had not become subject to U.S. taxation on a portion of their income. As such, the Compensation Committee does not believe it is appropriate to include these tax equalization amounts when determining the employees' compensation each year. Negative amounts represent payments by the individual to the company, for example as a result of lower Swiss taxes being due by virtue of the U.S. tax payments.

Miscellaneous benefits, none of which individually exceeds \$25,000 in value, include car allowances, expense allowances, tax return preparation, and the value of meals in the company cafeteria. In Mr. Donnelly's case, they also include the company's matching payments under its 401(k) plan, access to a company-rented apartment in Columbus in lieu of hotel accommodations and the dollar value of life insurance premiums paid by the company.

- (3) The grant date fair value of the options of \$27.823 per share has been computed in accordance with ASC 718 using the Black-Scholes option pricing model, based upon the following assumptions: estimated time until exercise of five years; a risk-free interest rate of 2.33%; a volatility rate of 30%; and a zero dividend yield. The Black-Scholes option pricing model is only one method of valuing options. The actual value of the options may significantly differ, and depends on the excess of the market value of the common stock over the exercise price at the time of exercise.

COMPENSATION DISCUSSION AND ANALYSIS

- (1) Each of the options vests ratably over five years starting from the first anniversary of the date of grant, except certain options granted in 2003, which vested on the first and second anniversary of the date of grant, and the January 3, 2008 grants, which will vest in full on March 1, 2013, provided the company has achieved at least 15% compound annual growth in its fully diluted earnings per share (EPS) (subject to certain defined adjustments) over the five-year period January 1, 2008 through December 31, 2012.
- (2) Mr. Caratsch received a grant of 600 restricted stock units in November 2007 prior to becoming an executive officer. The restrictions on these RSUs lapse ratably over five years from the first anniversary of the date of grant. The market value figure shown in the Stock Awards column is calculated using the closing share price of \$104.99 on December 31, 2009.
- (3) The Compensation Committee recommended granting options to Mr. Spoerry in each of the five years between 2000 and 2004. Mr. Spoerry declined each of the proposed grants, requesting instead that the options be made available to other employees.
- (4) Of the January 3, 2008 option grants made to Mr. Caratsch, 12,000 are the above-referenced performance options. The remaining 7,500 options were granted in connection with Mr. Caratsch becoming an executive officer, and vest ratably over five years starting from the first anniversary of the date of grant.

- (1) The Swiss-based executive officers (each of the named executive officers except Mr. Donnelly) participate in a Swiss pension plan called Mettler-Toledo Fonds, which is a form of cash balance benefit (or pension) plan. Each year we contribute to the plan 22% of each participating named executive officer's "covered salary". The covered salary for pension purposes is equal to 77.27% of the individual's target salary (consisting of the base salary plus the cash incentive earned at 100% target achievement) and was capped by Swiss law at a maximum of CHF 820,800 in 2009 and CHF 795,600 in 2008 and 2007.
- (2) Swiss franc amounts have been converted to U.S. dollars at a rate of CHF 1.038 to \$1.00, the exchange rate on December 31, 2009. Individual employees may also make their own direct contributions to the plan from their own funds. Of the amounts shown, the named officers individually contributed the following amounts: Mr. Spoerry \$1.9 million, Mr. Filliol \$2.0 million, Mr. Caratsch \$1.25 million and Mr. Widmer \$2.4 million.

Payments Upon Termination or Change in Control

Pursuant to their employment agreements described above, each of the named executive officers may be terminated after giving the requisite notice. In the event of certain terminations, the executives are entitled to receive full compensation during the notice period.

COMPENSATION DISCUSSION AND ANALYSIS

The following table reflects payments that would have been made to the named executive officers if they had been terminated on various grounds, assuming that notice of termination was given on December 31, 2009. This table does not include information about any contracts, agreements, plans or arrangements to the extent they do not discriminate in scope, terms or operation in favor of executive officers and that are available generally to all salaried employees.

(1) In all termination scenarios, the named executive officer retains vested amounts in the company's pension plans — these amounts are described in the "Present Value of Accumulated Benefit" column of the Pension Benefits table above. In a change in control situation, unless otherwise provided in an option agreement, all unvested outstanding options will accelerate and become fully exercisable. For purposes of this table, we assume that all outstanding options accelerate and become fully exercisable as of December 31, 2009 (and that unvested

restricted stock units vest in the case of Mr. Caratsch). The expense associated with this acceleration is the same as absent a change in control, but would be incurred by the company earlier than over the normal course of the vesting period. The value of the named executive officers' unvested stock options (and Mr. Caratsch's unvested restricted stock units) as of December 31, 2009 is as follows (calculated as the difference between the share price on that date of \$104.99 and the respective exercise price, but excluding out-of-the money options):

<u>Name</u>	<u>Value of Accelerated Unvested Stock Options</u>
Robert F. Spoerry	\$3,941,585
Olivier A. Filliol	5,180,473
William P. Donnelly	2,835,197

Urs Widmer	1,533,206

- (2) The named executive officers are not entitled to any additional compensation from the company or any additional option vesting upon a termination for cause or termination relating to disability or upon death or retirement. In a termination for cause, each employee forfeits vested as well as unvested stock options. U.S.-based employees have company-provided life insurance paying one time their annual compensation (up to \$500,000) upon the employee's death during employment. In Mr. Donnelly's case, the insured amount is \$500,000.
- (3) In all other terminations (including not for cause or for good reason), the individual is entitled to base salary, the cash incentive and certain benefits for the contractual notice period in their respective employment agreement. Pursuant to the operation of our equity plans applicable to all employees, the individual is also entitled to additional option vesting during the notice period; provided, that if the individual gives notice of a voluntary termination, the individual is not entitled to additional option vesting from the date of giving notice.

If a director's resignation is accepted by the Board of Directors, or if a nominee for director is not elected and the nominee is not an incumbent director, then the Board of Directors, in its sole discretion, may fill any resulting vacancy, or may decrease the size of the Board of Directors, in each case pursuant to the provisions of Sections 1 and 2 of Article II of the company's by-laws.
