V2X Awarded Position on \$46 Million U.S. Air Force Contract Supporting B-52 Long Range Standoff Cruise Missile Program

2026-09-15

RESTON, Va., Sept. 15, 2026 /PRNewswire/ -- V2X Inc. (NYSE: VVX) has been awarded a position on a \$46 million delivery order on the Enterprise-Wide Agile Acquisition Contract Indefinite Delivery/Indefinite Quantity contract supporting the U.S. Air Force's Carriage Equipment Production Effort for the Long Range Standoff (LRSO) cruise missile program.

The LRSO program is a critical modernization effort for the U.S. Air Force and an essential component of the nation's strategic deterrent. Designed for deployment from the B-52 Stratofortress, the Long Range cruise missile will replace the currently fielded Air-Launched Cruise Missile, ensuring the Air Force's long-range strike capability remains effective against evolving threats for decades to come.

Under the contract, V2X will provide carriage equipment production supporting the integration of the LRSO weapon system on the B-52, reinforcing the company's role in advancing next-generation defense capabilities that strengthen mission readiness and national security.

"Supporting the modernization of the B-52 and our nation's strategic deterrent is a responsibility we take seriously," said Jeremy C. Wensinger, President and Chief Executive Officer of V2X. "This award reflects the trust our customer places in V2X to deliver high-quality solutions that enable mission success and support one of the Air Force's highest modernization priorities."

V2X delivers integrated mission solutions that enhance readiness and operational effectiveness across the air, land,

sea, space, and cyber domains. The company's expertise in engineering, manufacturing, sustainment, and mission support enables customers to address today's most complex defense challenges while preparing for tomorrow's evolving mission requirements.

About V2X

V2X builds innovative solutions that integrate physical and digital environments by aligning people, actions, and technology. V2X is embedded in all elements of a critical mission's lifecycle to enhance readiness, optimize resource management, and boost security. The company provides innovation spanning national security, defense, civilian, and international markets. With a global team of approximately 16,000 professionals, V2X enables mission success by injecting AI and machine learning capabilities to meet today's toughest challenges across all operational domains.
