V2X Names Mike Uster Chief Information Officer to Advance Enterprise Technology Strategy

2026-04-02

RESTON, Va., April 2, 2026 /PRNewswire/ -- V2X, Inc. (NYSE: VVX) today announced the appointment of Mike Uster as Chief Information Officer, effective immediately. In this role, Uster will lead the company's global information technology strategy, enterprise systems, and digital transformation initiatives, with a focus on strengthening cybersecurity, advancing AI-enabled capabilities, and enabling secure, resilient technology platforms that support V2X's mission-critical operations. He will report directly to Jeremy C. Wensinger, President and Chief Executive Officer at V2X.

Uster brings more than 35 years of experience leading enterprise IT, innovation, and mission-critical technology solutions for government and industry. Most recently, he served as Chief Information Officer, Chief Technology Officer, and Senior Vice President at ManTech, where he led enterprise-wide digital transformation initiatives, cybersecurity modernization, and advanced technology adoption across global operations.

"Mike brings an exceptional depth of experience leading enterprise IT transformation and deploying advanced technologies in support of national security missions," said Wensinger. "His leadership in areas such as zero-trust architecture, secure collaboration platforms, and AI-enabled enterprise solutions will help strengthen V2X's technology foundation and enable us to deliver even greater value to our customers and employees."

During his tenure at ManTech, Uster was instrumental in implementing comprehensive zero-trust architecture, driving secure collaboration capabilities, and embedding AI-enabled technologies to enhance productivity and operational excellence across the enterprise.

Earlier in his career, Uster held roles supporting government and national security missions at Northrop Grumman, Lockheed Martin Skunk Works, RAND Corporation, and TRW Inc.. He joined ManTech in 2005 and progressed through leadership roles spanning IT strategy, business systems, and enterprise service delivery.

Uster holds a Bachelor of Arts in Modern European History from Biola University and is recognized for his strategic vision, commitment to innovation, and ability to develop high-performing technology teams.

About V2X

V2X builds innovative solutions that integrate physical and digital environments by aligning people, actions, and technology. V2X is embedded in all elements of a critical mission's lifecycle to enhance readiness, optimize resource management, and boost security. The company provides innovation spanning national security, defense, civilian, and international markets. With a global team of approximately 16,000 professionals, V2X enables mission success by injecting AI and machine learning capabilities to meet today's toughest challenges across all operational domains.
