## Vectrus Recognized as a 2018 Military Friendly® Employer

6/28/2018

COLORADO SPRINGS, Colo., June 28, 2018 /PRNewswire/ -- Vectrus, Inc. (NYSE: VEC) announced today that it has been recognized as a **2018 Military Friendly® Employer** by Victory Media. The list of Military Friendly® Employers distinguishes elite companies that promote strong job opportunities, hiring practices and retention programs for transitioning service members seeking civilian employment.

"Our employee veterans bring a wealth of knowledge and leadership skills to their work at Vectrus, and we are privileged to have them as members of our team," said Chuck Prow, Vectrus president and chief executive officer. "Vectrus was first chosen as a Military Friendly® employer in 2014 and we are very pleased to receive this honor again this year. Our commitment to be a top employer for our veterans and all employees is evident by the programs we institute to ensure their experience with our company is rewarding both personally and professionally."

Founded in 2001, Victory Media is a service-disabled, veteran-owned small business that connects the military community to civilian employment, as well as educational and entrepreneurial opportunities through its G.I. Jobs® and Military Friendly® brands. Military Friendly® is the standard that measures an organization's commitment, effort and success in creating sustainable and meaningful benefit for the military community. Companies that have earned this designation have proven their investment in substantive programs to recruit, retain and advance veterans within their organizations.

The Military Friendly® Employers list is created each year based on extensive research using public data sources for thousands of federal contractors nationwide, input of military employees, and responses to the proprietary, data-

driven Military Friendly® Employers survey from participating companies. The survey questions, methodology, criteria and weightings were developed with the assistance of an independent research firm and an advisory council of educators and employers. Data calculations and tabulations were independently evaluated for completeness and accuracy by Ernst & Young.
