# Vectrus achieves CMMI® and ISO Re-Certifications in IT

7/11/2016

COLORADO SPRINGS, Colo., July 11, 2016 /PRNewswire/ -- Vectrus Systems Corporation, a wholly-owned subsidiary of Vectrus, Inc. (NYSE: VEC), has successfully completed the **Standard Capability Maturity Model Integration (CMMI®) Appraisal Method for Process Improvement, Class A Appraisal for Development at Maturity Level 3 (CMMI®-DEV V1.3 ML3)**. In addition, Vectrus, Inc., also successfully underwent an **ISO 20000-1:2011** surveillance assessment where IT service management systems processes were reviewed for compliance and effectiveness.

"This CMMI® appraisal is a testament to the company's continued commitment to the expansion of our IT & network communication market share," said **Chico Moline**, corporate vice president for **IT & network communication services**. "The ISO recertification also demonstrates that we take compliance and customer satisfaction seriously and are delivering results at a 'defined' level where processes are well characterized and understood."

Moline is leading the company's pursuit of additional business in the IT & Network market space, something Vectrus announced in February 2016, as it opened an office in Reston, Va., to serve as the company's IT & Network Communication operations center.

"Re-certifying in CMMI® and ISO demonstrate the Vectrus IT commitment to industry leading standards that strengthen our ability to deliver imaginative, compliant and affordable solutions to our customers," said **Ken Hunzeker**, CEO and president of Vectrus.

These successful evaluations reaffirm that Vectrus is able to establish, maintain, and improve processes while

promoting operational excellence in all areas of process management, program management, IT engineering, and service management. Achievement of these internationally recognized credentials ensures that Vectrus maintains competitive qualifications in support of current programs and new business pursuits.

## About Vectrus

**Vectrus** is a leading, global government services company with a history in the services market that dates back **more than 70 years**. The company provides **infrastructure asset management, information technology and network communication services, and logistics and supply chain management services** to U.S. government customers around the world. Vectrus is differentiated by operational excellence, superior program performance, a history of long-term customer relationships, and a strong commitment to their mission success.
