## International Paper Reports Second Quarter 2023 Results

MEMPHIS, Tenn. - July 27, 2023 - International Paper (NYSE: IP) today reported second quarter 2023 financial results.

## SECOND QUARTER 2023 HIGHLIGHTS

- Net earnings of \$235 million (\$0.68 per diluted share); Adjusted operating earnings* (non-GAAP) of \$204 million ( $\mathbf{\$ 0 . 5 9}$ per diluted share)
- $\$ 55$ million of earnings achieved from Building a Better IP initiatives, bringing year-to-date to $\mathbf{\$ 1 2 0}$ million
- Cash provided by operations of $\$ 528$ million, bringing year-to-date to $\$ 873$ million; Free cash flow** (nonGAAP) of \$265 million year-to-date 2023
- Returned \$200 million to shareholders through \$40 million share repurchases and \$160 million in dividends, bringing year-to-date to $\mathbf{\$ 5 1 9}$ million
"In the second quarter, the operations of International Paper continued to run well and we managed our businesses effectively in a challenging demand environment," said Mark Sutton, Chairman and Chief Executive Officer. "We continued to advance our Building a Better IP initiatives, including our commercial improvement and cost management opportunities. The benefits of that work and our strong financial foundation position International Paper well as we navigate the current economic environment."

## Diluted Net EPS and Adjusted Operating EPS

|  | Second <br> Quarter <br> 2023 |  | First Quarter 2023 |  | Second <br> Quarter 2022 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Net Earnings (Loss) | \$ | 0.68 | \$ | 0.49 | \$ | 1.38 |

Adjusted operating earnings (non-GAAP) is defined as net earnings (GAAP) excluding discontinued operations, net special items and non-operating pension expense (income). Management uses this measure to focus on on-going operations, and believes that it is useful to investors because it enables them to perform meaningful comparisons of past and present consolidated operating results. For discussion of discontinued operations, net special items and nonoperating pension expense (income), see the disclosure under Effects of Net Special Items, Discontinued Operations, Net of Taxes and Consolidated Statement of Operations and related notes included later in this release.

## Select Financial Measures

| (In millions) | Second <br> Quarter 2023 |  | First Quarter 2023 |  | Second <br> Quarter 2022 |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

Free cash flow is a non-GAAP financial measure. A reconciliation of free cash flow to the most comparable GAAP measure, cash provided by (used for) operations, and disclosure regarding why we believe that free cash flow provides useful information to investors, is included later in this release.

## SEGMENT INFORMATION

Business segment operating profits are used by International Paper's management to measure the earnings performance of its businesses and is calculated as set forth in footnote (d) below under "Sales and Earnings by Business Segment". Second quarter 2023 net sales by business segment and operating profit (loss) by business segment compared with the first quarter of 2023 and the second quarter of 2022 are as follows:

| Business Segment Results |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| (In millions) | Second <br> Quarter 2023 |  | $\begin{gathered} \text { First } \\ \text { Quarter } \\ 2023 \end{gathered}$ |  | Second <br> Quarter 2022 |  |
| Net Sales by Business Segment |  |  |  |  |  |  |
| Industrial Packaging | \$ | 3,884 | \$ | 4,083 | \$ | 4,491 |
| Global Cellulose Fibers |  | 698 |  | 811 |  | 788 |
| Corporate and Inter-segment Sales |  | 100 |  | 126 |  | 110 |
| Net Sales | \$ | 4,682 | \$ | 5,020 | \$ | 5,389 |
| Operating Profit (Loss) by Business Segment |  |  |  |  |  |  |
| Industrial Packaging | \$ | 304 | \$ | 322 | \$ | 560 |
| Global Cellulose Fibers |  | 30 |  | (16) |  | 25 |
| Total Business Segment Operating Profit (Loss) | \$ | 334 | \$ | 306 | \$ | 585 |

Industrial Packaging operating profits (losses) in the second quarter of 2023 were $\$ 304$ million compared with $\$ 322$ million in the first quarter of 2023. In North America, earnings decreased on lower sales prices in a continued soft demand environment for corrugated boxes and containerboard as customer inventory destocking continued. The demand environment resulted in additional economic downtime driving higher operating costs that more than offset lower planned maintenance outage costs and input costs, primarily for energy, freight and wood. In EMEA, earnings were flat as lower energy costs were offset by seasonally lower volumes and lower sales prices for containerboard.

Global Cellulose Fibers operating profits (losses) in the second quarter of 2023 were $\$ 30$ million compared with $\$(16)$ million in the first quarter of 2023. Earnings improved in spite of lower sales of fluff pulp and decreased pulp pricing in a challenging global market environment impacted by customer inventory destocking as supply chain conditions improved. The earnings improvement was driven by lower operating costs, planned maintenance costs and input costs, primarily for chemicals and energy.

## EQUITY METHOD INVESTMENT - ILIM JOINT VENTURE

On January 24, 2023, the Company announced an agreement to sell its investment in the Ilim joint venture, subject to regulatory approvals. The Company initially recognized an impairment charge of $\$ 533$ million including approximately $\$ 375$ million foreign currency cumulative translation adjustment loss in the fourth quarter of 2022. Through the second quarter of 2023, the Company recognized an additional $\$ 76$ million impairment charge.

Equity earnings (losses), excluding impairment, were $\$ 46$ million in the second quarter of 2023 compared with $\$ 43$ million in the first quarter of 2023. The current period and historical results have been adjusted to reflect Ilim as a discontinued operation and our investment balance, following the adjustment to fair value and resulting impairment charges, is included in Assets Held for Sale.

## CORPORATE EXPENSES

Corporate expenses, net was an expense of $\$ 8$ million for both the second quarter of 2023 and the first quarter of 2023.

## EFFECTIVE TAX RATE

The reported effective tax rate for the second quarter of 2023 was $13 \%$, compared to a first quarter of 2023 reported effective tax rate of $22 \%$. The lower tax rate in the second quarter reflects a tax benefit related to the closure of the 2015-2016 IRS audit (see special items table below).

Excluding special items and non-operating pension expense, the operational effective tax rate was $22 \%$ for both the second quarter of 2023 and the first quarter of 2023.

The operational effective tax rate is a non-GAAP financial measure and is calculated by adjusting the income tax provision from continuing operations and rate to exclude the tax effect of net special items and non-operating pension expense (income). Management believes that this presentation provides useful information to investors by providing a more meaningful comparison of the income tax rate between past and present periods.

## EFFECTS OF SPECIAL ITEMS

Net special items in the second quarter of 2023 amount to a net after-tax gain of $\$ 27$ million ( $\$ 0.08$ per diluted share) compared with a charge of $\$ 2$ million ( $\$ 0.01$ per diluted share) in the first quarter of 2023 and a benefit of $\$ 17$ million ( $\$ 0.05$ per diluted share) in the second quarter of 2022. Net special items in all periods include the following charges (gains):

Certain statements in this press release that are not historical in nature may be considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "expects," "anticipates," "believes," "estimates" and similar expressions identify forward-looking statements. These statements are not guarantees of future performance and reflect management's current views and are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in these statements. Factors which could cause actual results to differ include but are not limited to: (i) risks with respect to climate change and global, regional, and local weather conditions, as well as risks related to our ability to meet targets and goals with respect to climate change and the emission of GHGs and other environmental, social and governance matters; (ii) the level of our indebtedness and changes in interest rates (including the impact of current elevated interest rate levels); (iii) the impact of global and domestic economic conditions and industry conditions, including with respect to current negative macroeconomic conditions, inflationary pressures and changes in the cost or availability of raw materials, energy sources and transportation sources, supply chain shortages and disruptions, competition we face, cyclicality and changes in consumer preferences, demand and pricing for our products, and conditions impacting the credit, capital and financial markets, including possible instability in such markets and/or disruptions to the banking system due to potential or actual bank failures; (iv) domestic and global geopolitical conditions, changes in currency exchange rates, trade protectionist policies, downgrades in our credit ratings, and/or the credit ratings of banks issuing certain letters of credit, issued by recognized credit rating organizations; (v) the amount of our future pension funding obligations, and pension and healthcare costs; (vi) unanticipated expenditures or other adverse developments related to compliance with existing and new environmental, tax, labor and employment, privacy, anti-bribery and anti-corruption, and other U.S. and non-U.S. governmental laws and regulations; (vii) any material disruption at any of our manufacturing facilities or other adverse impact on our operations due to severe weather, natural disasters, climate change or other causes; (viii) the impact of the conflict involving Russia and Ukraine, including in connection with related escalated sanctions imposed by the United States, the European Union, G7 and other countries and possible actions by the Russian government, and the impact of such developments on domestic and global economic and geopolitical conditions in general and on us and our Ilim joint venture, which could be materially and adversely affected by such developments, and our inability to predict the full impact of the Russian invasion of Ukraine, current or future sanctions, current or future actions by the Russian government, geopolitical instability and the possibility of broadened military conflict on our Ilim joint venture, on our receipt of dividends from our Ilim joint venture and on our ability to complete the sale of our interest in the Ilim joint venture under the terms of the agreement with our joint venture partners to purchase our interest (and, if we are unable to complete such a sale, on the value of and our ability to sell our interest to another purchaser); (ix) risks inherent in conducting business through joint ventures; (x) our ability to achieve the benefits expected from, and other risks associated with, acquisitions, joint ventures, divestitures, spinoffs and other corporate transactions, (xi) cybersecurity and information technology risks; (xii) loss contingencies and pending, threatened or future litigation, including with respect to environmental related matters; (xiii) our exposure to claims under our agreements with Sylvamo Corporation; (xiv) our failure to realize the anticipated benefits of the spin-off of Sylvamo Corporation and the qualification of such spin-off as a tax-free transaction for U.S. federal income tax purposes; and (xv) our ability to attract and retain qualified personnel, particularly in light of current labor market conditions. These and other factors that could cause or contribute to actual results differing materially from such forward-looking statements can be found in our press releases and SEC filings. In addition, other risks and uncertainties not presently known to the Company or that we currently believe to be immaterial could affect the accuracy of any forward-looking statements. The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

## Notes:

The Company calculates Adjusted Operating Earnings (non-GAAP) by excluding the after-tax effect of discontinued operations, non-operating pension expense (income) and items considered by management to be unusual or otherwise not reflective of on-going operations (net special items) as reflected in the Consolidated Statement of Operations and related notes included in this release from the earnings reported under U.S. generally accepted accounting principles ("GAAP"). Management uses this measure to focus on on-going operations, and believes that it is useful to investors because it enables them to perform meaningful comparisons of past and present consolidated operating results. The Company believes that using this information, along with net earnings, provides for a more complete analysis of the results of operations by quarter. Net earnings (loss) is the most directly comparable GAAP measure.

Since diluted earnings per share are computed independently for each period, six-month per share amounts may not equal the sum of respective quarters.

(a) Includes income of $\$ 6$ million for the three months and six months ended June 30, 2023 for interest income associated with the settlement of tax audits and a charge of $\$ 3$ million for the three months ended March 31, 2023 and six months ended June 30, 2023 related to the previously announced settlement of the timber monetization restructuring tax matter.
(b) Includes net gains of $\$ 3$ million and $\$ 49$ million for the three months and six months ended June 30, 2022, respectively, related to our investment in Sylvamo Corporation, a charge of $\$ 15$ million for the three months and six months ended June 30, 2022 for an environmental remediation reserve adjustment and a charge of $\$ 6$ million for the three months and six months ended June 30, 2022 for other costs.
(c) Operating profits for business segments include each segment's percentage share of the profits of subsidiaries included in that segment that are less than wholly owned. The pre-tax earnings for these subsidiaries is adjusted here to present consolidated earnings before income taxes and equity earnings.
(d) As set forth in the chart above, business segment operating profit is defined as earnings (loss) from continuing operations before income taxes and equity earnings, but including the impact of less than wholly owned subsidiaries, and excluding interest expense, net, corporate expenses, net, corporate net special items, business net special items and non-operating pension expense. Business segment operating profit is a measure reported to our management for purposes of making decisions about allocating resources to our business segments and assessing the performance of our business segments and is presented in our financial statement footnotes in accordance with ASC 280.

| Free Cash Flow | \$ | 261 | \$ | 204 | \$ | 265 | \$ | 607 |

Free cash flow is a non-GAAP measure and the most directly comparable GAAP measure is cash provided by operations. Management believes that free cash flow is useful to investors as a liquidity measure because it measures the amount of cash generated that is available, after reinvesting in the business, to maintain a strong balance sheet, pay dividends, repurchase stock, service debt and make investments for future growth. It should not be inferred that the entire free cash flow amount is available for discretionary expenditures. By adjusting for certain items that are not indicative of the Company's ongoing performance, free cash flow also enables investors to perform meaningful comparisons between past and present periods.

The non-GAAP financial measures presented in this release have limitations as analytical tools and should not be considered in isolation or as a substitute for an analysis of our results calculated in accordance with GAAP. In addition, because not all companies use identical calculations, the Company's presentation of non-GAAP measures in this release may not be comparable to similarly titled measures disclosed by other companies, including companies in the same industry as International Paper.

Management believes non-GAAP financial measures, when used in conjunction with information presented in accordance with GAAP, can facilitate a better understanding of the impact of various factors and trends on the Company's financial condition and results of operations. Management also uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating the Company's performance.
