Forward-Looking Statements

INTERNATIONAL PAPER

These slides and statements made during this presentation contain forward-looking statements. These statements reflect management's current views and are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in these statements. Factors which could cause actual results to differ relate to: (i) industry conditions, including but not limited to changes in the cost or availability of raw materials and energy, transportation costs, the company's product mix, demand and pricing for its products; (ii) global economic conditions and political changes, particularly in Latin America, Russia, Europe and Asia, including but not limited to changes in currency exchange rates, credit availability, and the company's credit ratings issued by recognized credit rating organizations; (iii) natural disasters, such as hurricanes and earthquakes; (iv) the company's ability to realize anticipated profit improvement from its transformation plan, and (v) unanticipated expenditures related to the cost of compliance with environmental and other governmental regulations and to actual or potential litigation. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. These and other factors that could cause or contribute to actual results differing materially from such forward looking statements are discussed in greater detail in the company's Securities and Exchange Commission filings.
