Citi 2023 Basic Materials Conference

November 29, 2023

Forward-Looking Statements

Certain statements in this presentation that are not historical in nature may be considered "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "expects," "anticipates," "believes," "estimates" and similar expressions identify forward-looking statements. These statements are not guarantees of future performance and reflect management's current views and are subject to risks and uncertainties that could cause actual results to differ materially from those expressed or implied in these statements. Factors which could cause actual results to differ include but are not limited to: (i) risks with respect to climate change and global, regional, and local weather conditions, as well as risks related to our ability to meet targets and goals with respect to climate change and the emission of green house gases and other environmental, social and governance matters; (ii) the level of our indebtedness and changes in interest rates (including the impact of current elevated interest rate levels); (iii) the impact of global and domestic economic conditions and industry conditions, including with respect to current negative macroeconomic conditions, inflationary pressures and changes in the cost or availability of raw materials, energy sources and transportation sources, supply chain shortages and disruptions, competition we face, cyclicality and changes in consumer preferences, demand and pricing for our products, and conditions impacting the credit, capital and financial markets, including possible instability in such markets and/or disruptions to the banking system due to potential or actual bank failures; (iv) domestic and global geopolitical conditions, military conflict (including the Russia/Ukraine conflict, the conflict in Israel and surrounding areas, the possible expansion of such conflicts, and the potential geopolitical and economic consequences associated therewith), changes in currency exchange rates, trade protectionist policies, downgrades in our credit ratings, and/or the credit ratings of banks issuing certain letters of credit, issued by recognized credit rating organizations; (v) the amount of our future pension funding obligations, and pension and healthcare costs; (vi) unanticipated expenditures or other adverse developments related to compliance with existing and new environmental, tax, labor and employment, privacy, anti-bribery and anti-corruption, and other U.S. and non-U.S. governmental laws and regulations; (vii) any material disruption at any of our manufacturing facilities or other adverse impact on our operations due to severe weather, natural disasters, climate change or other causes; (viii) risks inherent in conducting business through joint ventures; (ix) our ability to achieve the benefits expected from, and other risks associated with, acquisitions, joint ventures, divestitures, spinoffs and other corporate transactions, (x) cybersecurity and information technology risks, including as a result of security breaches and cybersecurity incidents; (xi) loss contingencies and pending, threatened or future litigation, including with respect to environmental related matters; (xii) our exposure to claims under our agreements with Sylvamo Corporation; (xiii) our failure to realize the anticipated benefits of the spin-off of Sylvamo Corporation and the qualification of such spin-off as a tax-free transaction for U.S. federal income tax purposes; and (xiv) our ability to attract and retain qualified personnel, particularly in light of current labor market conditions. These and other factors that could cause or contribute to actual results differing materially from such forward-looking statements can be found in our press releases and reports filed with the U.S. Securities and Exchange Commission. In addition, other risks and uncertainties not presently known to the Company or that we currently believe to be immaterial could affect the accuracy of any forward-looking statements. The Company undertakes no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise.

Statements Relating to Non-U.S. GAAP Measures

While the Company reports its financial results in accordance with accounting principles generally accepted in the United States (GAAP), during the course of this presentation, certain non-GAAP financial measures are presented. Management believes non-GAAP financial measures, when used in conjunction with information presented in accordance with GAAP, can facilitate a better understanding of the impact of various factors and trends on the Company's financial condition and results of operations. Management also uses these non-GAAP financial measures in making financial, operating and planning decisions and in evaluating the Company's performance. The non-GAAP financial measures in this presentation have limitations as analytical tools and should not be considered in isolation or as a substitute for an analysis of our results calculated in accordance with GAAP. In addition, because not all companies use identical calculations, our presentation of non-GAAP financial measures in this presentation may not be comparable to similarly titled measures disclosed by other companies, including companies in our industry. A reconciliation of all presented non-GAAP measures (and their components) to GAAP financial measures is available on IP's website at https://www.internationalpaper.com/investors/financial-reports/quarterly-results.

Discontinued Operations

As a result of the spin-off of our global Printing Papers business on October 1, 2021, the Printing Papers business segment has been eliminated. Historical results have been adjusted to reflect this business as a discontinued operation. In addition, as previously announced, the Company sold its interest in the Ilim joint venture on September 18, 2023. Current and historical results have been adjusted to reflect Ilim as a discontinued operation.

Ilim JV and Sylvamo Corporation Investment Information

All financial information and statistical measures regarding our prior 50/50 ownership in the Ilim joint venture in Russia ("Ilim") and our prior ownership interest in Sylvamo Corporation, other than historical International Paper Equity Earnings and dividends received by International Paper, have been prepared by the management of Ilim and Sylvamo Corporation, respectively.

International Paper | Taking Actions While Navigating Macro Environment

- Stable to moderate improvement in demand
