STRACON Group Completes the Donation of a Water System for the Community of the Chingol Hamlet

This social responsibility activity was carried out in coordination with the Social Management Area of the Shahuindo project

Toronto, Canada and Lima, Peru – September 30, 2019 – STRACON Group (or "the **Group**"), a leading mining services group focused on the Americas, today announced the donation of a water system for the Caserío Chingol hamlet, located at province of Cajabamba, department of Cajamarca.

The donated water system includes a tank with a capacity for 500 liters of water, an electric pump, as well as the wiring and hose system necessary for its operation. It is also important to highlight that the installation of the water system was carried out by the community residents themselves, articulating joint work and developing synergies for the benefit of the community.

This donation was made effective on September 7th, 2019, with members of the benefited families, as well as representatives of the project, participating in the delivery.

"We are very pleased to be able to contribute to the development of the Caserío Chingol, providing them with a water system that will benefit 12 families in the community," said Steve Dixon, CEO of STRACON Group.

The donation of the water system is part of the social responsibility activities that we work together with the Shahuindo project that are aimed at improving the quality of life of the communities in the area, as well as promoting the sustainable development of the region.
