# STRACON Group Donates Geotanks to Boost Avocado Production with the Community Producers from Chuquibamba

*This social responsibility activity was carried out in coordination with the Social Management Area of the Shahuindo project*

**Toronto, Canada and Lima, Peru – September 30, 2021** – STRACON Group (or "the **Group**"), a leading mining services group focused on the Americas, today announced the donation of ten geotanks to the Chuquibamba Population Center located in the province of Condesuyos, department of Arequipa.

This donation is part of the social responsibility plan of the Shahuindo project for the PAD 2 C Phase II works and is intended to improve the water harvesting and irrigation system for the benefit of avocado producers in the area.

Each geotank stores up to 42 thousand liters of water, and through a technical irrigation system, which efficiently manages this resource, it is possible to optimize irrigation and improve productivity and profitability for each producer. The donation became effective on September 27, 2021, and was conducted in coordination with the Social Management Area of the Shahuindo project and members of the Chuquibamba Avocado Producers Association.

"We are very pleased to be able to support the local community with the donation of the geotanks that will help to improve the water harvesting and irrigation system for the benefit of avocado producers in the area", said STRACON Group´s CEO, Steve Dixon. "We are also grateful to our client Pan American Silver for giving us the opportunity to participate in this social responsibility initiative that seeks to contribute to the sustainable development of the local community."
