Local Currency* Commentary:

Color Group reported lower revenue in the quarter due to lower volumes related to end market declines in certain product categories and modest customer destocking. Volume growth as a result of new sales wins and modest pricing partially offset these declines. Operating income declined due to lower volumes and higher input costs.

Flavors & Extracts Group first quarter revenue growth was driven by volume growth in natural ingredients and certain flavor product lines. Operating income improved in the quarter due to higher volumes; however, this was partially offset due to higher costs on certain agricultural inputs and raw materials.

Asia Pacific Group first quarter revenue increased primarily due to higher volumes. Operating income declined as a result of higher input costs and sales mix.

** Local-currency (LC) revenue and operating income are Non-GAAP metrics. Please see our GAAP to Non-GAAP Reconciliation at the end of this document.*

2024 Q1 Consolidated Results

	Q1
Local Currency Revenue*	+3.8%
Local Currency Adjusted Operating Income*	+2.6%
Local Currency Adjusted Diluted EPS*	(1.3%)
Local Currency Adjusted EBITDA*	+2.2%

Q1 consolidated local currency revenue increased due to volume growth in the Flavors & Extracts and Asia Pacific groups and modest pricing favorability.

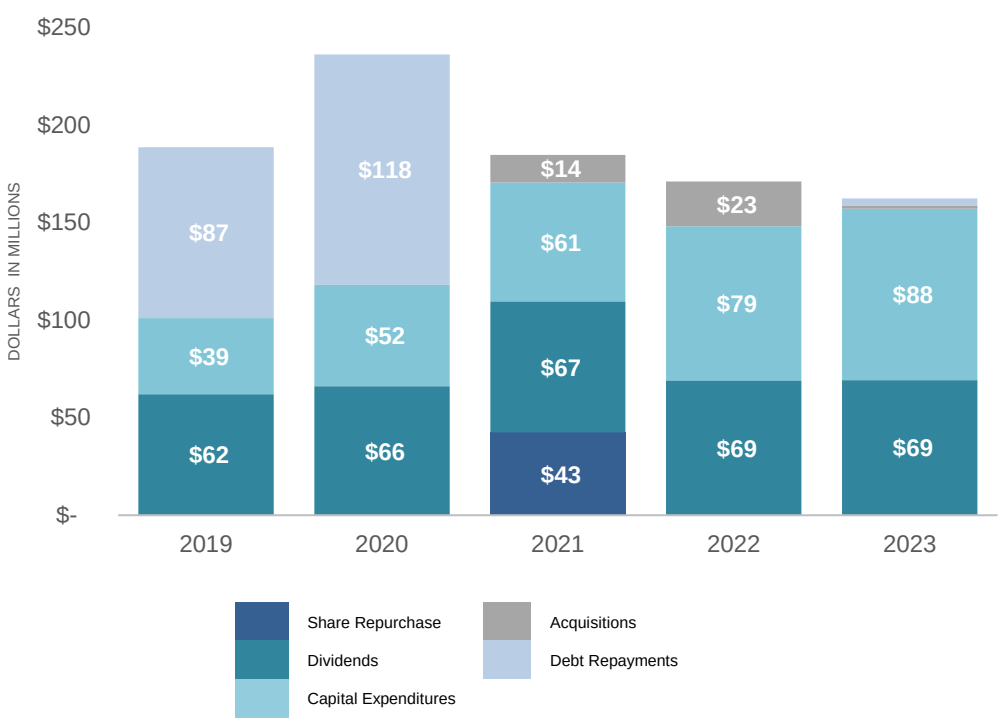

Q1 consolidated local currency adjusted operating income grew as a result of higher volumes; however, this was partially offset by continued higher input costs in certain areas and sales mix.

Q1 local currency adjusted diluted EPS declined as a result of higher interest and tax expense.

** Local-currency (LC) revenue, adjusted operating income, adjusted diluted EPS, and adjusted EBITDA are Non-GAAP metrics. Please see our GAAP to Non-GAAP Reconciliation at the end of this document.*
