Non-GAAP Financial Measures

EPAM supplements results reported in accordance with United States generally accepted accounting principles, referred to as GAAP, with non-GAAP financial measures. Management believes these measures help illustrate underlying trends in EPAM's business and uses the measures to establish budgets and operational goals, communicate internally and externally, for managing EPAM's business and evaluating its performance. Management also believes these measures help investors compare EPAM's operating performance with its results in prior periods. EPAM anticipates that it will continue to report both GAAP and certain non-GAAP financial measures in its financial results, including non-GAAP results that exclude stock-based compensation expenses, acquisition-related costs including amortization of acquired intangible assets, impairment of assets, expenses associated with EPAM's humanitarian commitment to its professionals in Ukraine, unbilled business continuity resources resulting from Russia's invasion of Ukraine, costs associated with the geographic repositioning of EPAM employees based outside of Ukraine impacted by the war and geopolitical instability in the region, employee separation costs in Russia, certain other one-time charges and benefits, changes in fair value of contingent consideration, foreign exchange gains and losses, excess tax benefits related to stock-based compensation, and the related effect on income taxes of the pre-tax adjustments. Management also compares revenues on an "organic constant currency basis excluding the impact of the exit from Russia," which is also a non-GAAP financial measure. This measure excludes the effect of acquisitions by removing revenues from an acquired company in the twelve months after completing an acquisition, foreign currency exchange rate fluctuations by translating the current period revenues into U.S. dollars at the weighted average exchange rates of the prior period of comparison and the decision to exit from Russia by removing revenues from customers located in Russia in both the current period and prior period of comparison. Because EPAM's reported non-GAAP financial measures are not calculated in accordance with GAAP, these measures are not comparable to GAAP and may not be comparable to similarly described non-GAAP measures reported by other companies within EPAM's industry. Consequently, EPAM's non-GAAP financial measures should not be evaluated in isolation or supplant comparable GAAP measures, but rather, should be considered together with the information in EPAM's consolidated financial statements, which are prepared in accordance with GAAP.

(a) Given the uncertainty in the region introduced by Russia’s invasion of Ukraine, EPAM has assigned delivery employees in locations outside of the region to ensure the continuity of delivery for customers who have substantial delivery exposure to Ukraine or other delivery concerns resulting from the invasion. These employees are not billed to clients and operate largely in a standby or backup capacity. These expenses are incremental to those expenses incurred prior to the crisis, clearly separable from normal operations, and not expected to recur once the crisis has subsided and operations return to normal.

(b) Humanitarian support in Ukraine includes expenses related to EPAM's $100 million humanitarian commitment in response to Russia's invasion of Ukraine to support EPAM professionals and their families in and displaced from Ukraine. These expenses are incremental to those expenses incurred prior to the crisis, clearly separable from normal operations, and not expected to recur once the crisis has subsided and operations return to normal.

(c) Discretionary compensation includes the reduction of previously accrued amounts associated with the Company's variable compensation program for the year ended December 31, 2021. This adjustment was made in response to Russia's invasion of Ukraine and is not expected to recur in the future.

(d) One-time charges for the three and nine months ended September 30, 2023 include $7.1 million related to the Company's Cost Optimization Program initiated in the third quarter of 2023. Consistent with the Company's historical non-GAAP policy, costs incurred in connection with formal restructuring initiatives have been excluded from non-GAAP results as these are one-time and unusual in nature.

(e) Geographic repositioning includes expenses associated with the relocation to other countries of employees based outside of Ukraine impacted by the war and geopolitical instability in the region, and includes the cost of accommodations, travel and food. These expenses are incremental to those expenses incurred prior to the crisis, clearly separable from normal operations, and not expected to recur once the crisis has subsided and operations return to normal.

(f) As a result of the Company's decision to no longer serve customers in Russia, the Company incurred impairment charges for long-lived assets in Russia including charges of $15.1 million associated with property and equipment, $3.8 million associated with right-of-use assets and $0.7 million associated with goodwill for the nine months ended September 30, 2022. Consistent with the Company's historical non-GAAP policy, impairment charges have been excluded from non-GAAP results as these are one-time and unusual in nature.

(g) As a result of the Company's decision to no longer serve customers in Russia and begin the process of a phased exit of its operations in Russia, the Company incurred charges associated with employee separation. Consistent with the Company's historical non-GAAP policy, employee separation costs incurred in connection with formal restructuring initiatives have been excluded from non-GAAP results as these are one-time and unusual in nature.

(h) On July 26, 2023, the Company completed the sale of its remaining operations in Russia and recorded a loss on sale of approximately $25.9 million during the third quarter of 2023, including the recognition of the accumulated currency translation loss related to this foreign entity that was previously included in Accumulated other comprehensive loss in the condensed consolidated financial statements. The Company excluded this loss from non-GAAP results as it is one-time and unusual in nature.

(i) One-time benefit related to the implementation of tax planning to disregard certain foreign subsidiaries as separate entities for U.S. income tax purposes. Consistent with the Company's historical non-GAAP policy, the benefit related to the implementation of tax planning has been excluded from non-GAAP results as it is one-time and unusual in nature.
