

EPAM is named an ATG Solution Provider in EMEA

August 20, 2010 9:53 AM ET

Newtown, PA — August 20, 2010 — EPAM Systems, Inc., a leading software engineering and IT Outsourcing provider in Central and Eastern Europe (CEE), has joined the ATG Global Alliance Network as an ATG Solutions Provider in EMEA.

ATG established the Alliance Network to showcase "talented and highly regarded organizations that offer a range of services supporting ATG solutions (e-Commerce and customer-care consulting, development, integration, deployment)".

EPAM has been a trusted partner and vendor to ATG since 2004 when EPAM first established a dedicated ATG Center of Excellence (CoE) to support integration and customization projects built around ATG technologies and solutions for ATG's customers. During those years, the EPAM ATG CoE has successfully adapted ATG's e-Commerce solutions for many specific client requirements including deployments on iOS and Android mobile devices and integration with many popular social networks, including Twitter and Facebook. The CoE is currently staffed with over 200 professionals delivering a full range of development, testing, and maintenance services for all supported ATG products via a NearShore delivery model which allows the company to be close to their end customers, while still offering significant cost benefits.

"ATG's high-end e-Commerce platform is a perfect fit for the innovative and technically superior solutions we look to build for our clients," said Valeri Makovik, the head of EPAM's ATG CoE. "We are proud that ATG has chosen us as a partner to continue working closely with them implementing the next generation of highly interactive, highly personalized end user e-Commerce experiences."

About ATG

A trusted, global specialist in e-Commerce, ATG has spent the last decade focused on helping the world's premier brands maximize the success of their online businesses. ATG Commerce is the commerce platform and business user application solution top-rated by industry analysts for powering highly personalized, efficient and effective e-Commerce sites. ATG's platform-neutral optimization services can be easily added to any Web site to increase conversions and reduce abandonment. These services include ATG Recommendations and ATG's live help services, including ATG Click to Call, and Instant Service live chat. ATG is headquartered in Cambridge, Massachusetts, with additional locations throughout North America and Europe. For more information, please visit <http://www.atg.com>.
