

EPAM Recognized by Cloudcor® in Best Cloud System Integrator 2012 and Best Mobile Solution 2012 categories

January 31, 2013 1:55 PM EST

Newtown, PA-January 31, 2013-EPAM (NYSE:EPAM), a leading provider of complex software engineering solutions and a leader in Central and Eastern European IT service delivery, has announced that it has been recognized by a global community of cloud experts at the UP Cloud Conference in San Francisco in December 2012 conducted by Cloudcor®. EPAM was the recipient of two awards: Best Cloud System Integrator 2012 and Best Mobile Solution 2012.

EPAM Systems was represented in San Francisco by Eli Feldman, Cloud Competency Center head, and Yevgeniy Galper, the leader of Mobile Competency Center, who have introduced EPAM's cloud offerings focusing on mobile solutions and system integrator capabilities.

"We appreciate that Cloudcor and its community of experts recognizes EPAM as the Best Cloud System Integrator 2012," says Eli Feldman, VP of Cloud Solutions and Services at EPAM Systems. "EPAM engineers began creating SaaS solutions over a decade ago, before Cloud and SaaS became popular terms. Over the years we have accumulated expertise in private, public and hybrid deployment models as well as in most popular cloud platforms and related technologies. We have created repeatable processes and accelerators to "cloudify" applications that have not been designed for the cloud and designed blueprints and tools to continuously deliver greenfield cloud applications. During the recent years we have delivered dozens of mission critical cloud solutions for our enterprise clients in industries like Banking & Financial Services, Business Information & Media, Travel and Retail & CPG. Additionally, we continue helping our ISV & Technology clients to innovate and bring new cloud products to market and supporting and enhancing their SaaS offerings."

"We are delighted that our solutions are recognized in the evolving segment of cloud computing", says Yevgeniy Galper, Director of Technology Solutions. "EPAM was awarded Best Mobile Solution 2012 for our Cloud-based Continuous Delivery solution for mobile applications, a platform we designed and developed both for our own and our clients' use. This solution combines Continuous Integration for mobile projects with the distribution of application builds through the In-house App Store. It also enables us to quickly set up state-of-the-art build and deploy procedures for new mobile projects and reduces overall time to develop and test for applications. EPAM develops hundreds of mobile apps and having a solution that leverages distributed teams and improves development lifecycle creates competitive advantage for EPAM and adds value for our clients."

The UP-START Cloud Awards were founded in 2010 by the world's largest cloud association to recognize extraordinary achievements in cloud industry, covering 22 nominations.
