

## EPAM Acquires GGA Software Services, Expands Healthcare & Life Sciences Service Offering

June 6, 2014 9:44 PM EDT

Newtown, PA - June 6, 2014 - EPAM Systems, Inc. (NYSE:EPAM), a leading provider of product development and software engineering solutions known for its award-winning Central and Eastern European global delivery platform, announced that it has acquired GGA Software Services LLC, a US-based provider of scientific informatics services to global pharmaceutical, scientific instrumentation, medical device, scientific publishing and software, and early-stage life science companies.

Richard Golob, President and Chief Executive Officer of GGA Software Services, said: *"Since 1994, GGA has been developing best-in-class scientific informatics applications and content databases; creating state-of-the-art algorithms and models; and delivering IT support, maintenance, and QA services to the world's leading healthcare and life sciences companies, including 8 of the top 10 largest pharmaceutical companies."* According to Golob, *"GGA's market differentiation is rooted in deep scientific knowledge and strong mathematical expertise combined with software development capabilities focusing on solving clients' problems in the area of scientific informatics. We believe that clients will benefit significantly from the combination of GGA's industry-specific knowledge processing and advanced scientific informatics capabilities with EPAM's software engineering, technological and product development excellence and its scalable global delivery platform spanning several continents."*

*"We are very glad to have GGA joining EPAM,"* said Arkadiy Dobkin, CEO and President, EPAM Systems. *"Not only are we very excited about the significant growth opportunity in the Life Sciences and Healthcare industry verticals, we also see tremendous potential in combining EPAM's traditionally recognized strengths with GGA's algorithm development, mathematical modeling, and sophisticated content database development capabilities. The capability to develop and operationalize platforms, combining tools, models, and data, has broad applications across other strategic industries on which EPAM focuses, including Financial Services, Business Information and Media, and Retail and Consumer Services."*

### About EPAM Systems
