

## CIO Review Lists EPAM among 20 Most Promising Solution Providers in Travel & Hospitality 2014

June 30, 2014 1:59 PM EDT

**Newtown, PA - June 30, 2014** - EPAM Systems, Inc. (NYSE:EPAM), a leading provider of product development and software engineering solutions known for its award-winning Central and Eastern European global delivery platform, has entered the list of 20 most promising solution providers in Travel & Hospitality 2014, published by CIO Review magazine in its special edition. The selection was based on EPAM's deep industry-specific expertise in technologies that innovatively enhance "Guest Experience" and streamline operations. EPAM is the only product development services provider on the list, where it is featured along with such market-leaders as Lufthansa Systems, Travelport, and DerbySoft.

EPAM is acknowledged for full-range capabilities, high quality of CRM, loyalty, and customer engagement solutions, as well as for its focus on systems that personalize the omni-channel space that includes both digital and physical. "From a digital standpoint, it is the idea of creating highly personalized channel independence; building opportunities across mobile, web, property, and development of distribution products that work for travel companies," said Elaina Shekhter, EPAM's Global Head of Travel and Consumer Industry Business Unit, in the featured article.
