

## **EPAM and WorkFusion Partner to Accelerate Customer Adoption of Smart Automation Solutions**

February 23, 2017 6:01 PM EST

### **Provides opportunity for organizations to stay competitive by lowering operational costs and risks**

NEWTOWN, Pa., Feb. 23, 2017 (GLOBE NEWSWIRE) -- EPAM Systems, Inc. (NYSE:EPAM), a leading global provider of product development and software engineering solutions, and WorkFusion, the leading enterprise smart process automation company, today announced a partnership to deliver new smart automation solutions for Financial Services, Media, and Travel industry clients. By combining EPAM's deep integration expertise with WorkFusion's cutting-edge and progressive technology, clients can increase operational efficiencies, improve productivity and accuracy, and reduce costs.

The partnership with WorkFusion is part of EPAM's strategy to further expand its expertise in the areas of Robotic Process Automation, AI, and Machine Learning, to continue to help its clients focus on digital workforce transformation. Smart automation is being leveraged to solve many common issues faced by large businesses, and is helping organizations stay competitive by cutting costs and improving services. As EPAM and WorkFusion solutions automate more repetitive work, employees can focus on more strategic and high-value tasks, which equals saved time, money, and frustration.

"Most larger enterprises, even Financial Services companies, continue to struggle with the rising demands being placed on them by digital transformation and they have to think smarter, not bigger. Today's smart automation solutions provide the opportunity for organizations to be more efficient and highly productive, while still lowering risks and costs," said Boris Shnayder, Head of North American Business, EPAM. "The combination of WorkFusion's robotic and cognitive automation and EPAM's expert integration and delivery offers customers improved productivity, reduced costs, and accelerated time to market."

"We are excited to be working with EPAM to bring our combined capabilities to market," Alex Lyashok, WorkFusion COO said. "EPAM has proven to the market its superior service, and together we will enhance those services by adding superior automation software."

Many organizations have benefited from EPAM's global delivery framework, multi-disciplinary teams, system integration capabilities, and industry-specific expertise. EPAM is working closely with WorkFusion to execute platform deployments from its globally distributed locations.

At the core of WorkFusion's SPA software are three powerful capabilities – workforce orchestration, robotic process automation (RPA), and cognitive automation which, together, help organizations improve workforce agility and elasticity and automate manual processes through rapidly evolving AI. As WorkFusion automates more repetitive work, staff are elevated to exceptions handling and higher value tasks.

#### **About EPAM Systems**
