

EPAM Makes Fortune's 100 Fastest-Growing Companies 2019 List

August 26, 2019 2:00 PM EDT

EXTENDS PATTERN OF HIGH REVENUE, PROFIT AND STOCK GROWTH

NEWTOWN, Pa., Aug. 26, 2019 /PRNewswire/ -- EPAM Systems, Inc. (NYSE: EPAM), a leading global provider of digital platform engineering and software development services, today announced that it was again named to the list of Fortune's 100 Fastest-Growing Companies for 2019.

The Fortune Fastest-Growing Companies are publicly traded companies ranked each year by revenue growth rate, EPS growth rate and three-year annualized total return. The overall rank is based on the sum of three ranks. Since first appearing on Fortune's list in 2015, EPAM has more than doubled its revenue and scaled its unique integrated consulting and engineering delivery operations to 30 countries and more than 34,000 employees worldwide. In the 2019 list, EPAM is the only Information Technology Services company featured.

"We are happy to once again be recognized in Fortune's 100 Fastest-Growing Companies list," said Arkadiy Dobkin, CEO and President, EPAM. "We remain focused on delivering strong profitable revenue growth as we invest for the future. The consistency in our results is made possible by our strong commitment to our customers' transformation journeys, enabled by continuously building, integrating and deploying the best expertise combined with our proven IP and a people-centric, solution-oriented culture."

With more businesses focused on digital transformation, EPAM works closely with its global customers to help them become digital at their core – transforming not only their technology strategy, but also business, design and operations to run smarter and faster in markets that are continually facing technology change.

Since the company's IPO in 2012, EPAM has reported 30 consecutive quarters of over 20% year-over-year organic revenue growth and reported \$1.84B in FY 2018 revenue with a 2019 guidance of at least 23% growth.
