

EPAM Has Earned the Modernization of Web Applications in Microsoft Azure Advanced Specialization

October 19, 2020 2:00 PM EDT

NEWTOWN, Pa., Oct. 19, 2020 /PRNewswire/ -- [EPAM Systems, Inc.](https://www.epam.com) (NYSE: EPAM), a leading global provider of digital platform engineering and software development services, today announced it has earned the Modernization of Web Applications in Microsoft Azure advanced specialization, a validation of a solution partner's deep knowledge, extensive experience and proven expertise in migrating and modernizing production web application workloads, and managing app services in Azure.

Only partners that meet stringent criteria around customer success and staff skilling, as well as pass a third-party audit of their web workload deployment and management practices, including their ability to implement Azure App Service, are able to earn the Modernization of Web Applications in Microsoft Azure advanced specialization.

"EPAM is committed helping our clients create innovative, data-driven customer experiences that create value and accelerate time to revenue. Using the Microsoft Azure platform and leveraging our digital and cloud engineering expertise, we partner with our clients to help them seamlessly transition to the cloud, optimize their platforms, increase efficiency and deliver results," said Elaina Shekhter, CMO & Head of Strategy at EPAM Systems. "Earning an advanced specialization from Microsoft provides another layer of expertise to our comprehensive list of services—enabling us to help our customers capitalize on using cloud-based modern technology to drive digital transformation."

Gaviella Schuster, Corporate Vice President, One Commercial Partner (OCP) at Microsoft Corp. added, "The Modernization of Web Applications in Azure advanced specialization highlights the partners who can be viewed as most capable when it comes to migrating, modernizing, and managing web applications in Microsoft Azure. EPAM clearly demonstrated that they have both the skills and the experience to offer clients a path to start enjoying the benefits of being in the cloud."
