FOR IMMEDIATE RELEASE: October 19, 2005 No.13/05

IAMGOLD REPORTS ADDITIONAL RESULTS AT QUIMSACOCHA

Toronto, Ontario, October 19, 2005 – IAMGOLD Corporation ("IAMGOLD" or "the Company") is pleased to announce the results of an additional 13 diamond drill holes on its 100% owned Quimsacocha project in Ecuador, including an intersection of 25 metres averaging 17.9 grams per tonne (g/t) gold, 49.5g/t silver and 1.7% copper in hole 226. Quimsacocha is located 40 kilometres southwest of the city of Cuenca in southern Ecuador.

Joe Conway, President and CEO of IAMGOLD, commented on the continued good results from the project, stating: "We are delighted that drilling at Quimsacocha continues to be encouraging. It is clear that whatever the resource estimate shows us at the end of October the deposit has the potential to become bigger as we are already intersecting mineralization well south of where the resource model was defined. Given the results to date, we have increased our exploration spending at Quimsacocha from $3.9 to $5.3 million for 2005, in support of further drilling and testing."

These results indicate the continuation of the Quimsacocha deposit to the south east and that the deposit is still open in that direction. Of the 13 holes reported in this press release, six (Holes – 224, 225, 226, 227, 228, 230) will be used in the independent resource calculation, by Roscoe Postle Associates Inc., due out later this month. The significant results are shown in Table 1 and the collar locations of the inclined drill holes are shown in Figure 1.

CONFERENCE CALL – THIRD QUARTER RESULTS

A conference call to review the Corporation's third quarter results will take place on **Monday, October 31, 2005 at 3:00 p.m. EST. Local call-in number: 416-640-4127 and N.A. toll-free: 1-800-814-4857.** This conference call will also be audiocast on our website (www.iamgold.com).

A replay of this conference call will be available from approximately 5:00 pm October 31 to November 7, 2005 by dialing local: 416-640-1917, passcode: 21158764# and N.A. toll-free: 1-877-289-8525, passcode: 21158764#. A replay will also be available on IAMGOLD's website.

	223.2	257.9	34.7	2.3	22.60	0.1

Note: Holes 231 and 236 were abandoned due to difficulties with drill rig.
Hole 233 was outside the mineralized zone and was not sampled.
* - denotes holes included in the resource calculation.

Qualified Person/Quality Control Notes

Analyses of gold in drill core samples were carried out by fire assay at the laboratory of BSI in Lima, Peru and copper and silver analyses were carried out by the same laboratory.

The "Qualified Person" reviewing the work at Quimsacocha is Dennis Jones, P. Geo, Vice-President Exploration at IAMGOLD, who as a result of his education, affiliation with a professional association and past relevant work experience, fulfills the requirements to be a "Qualified Person" for the purposes of NI43-101.
