Avantor® Showcases Scalable Fluid Handling Innovations at INTERPHEX

2025-04-01

Industry leading set of technologies to drive scalability, flexibility, and efficiency in biologics production

RADNOR, Pa., April 1, 2025 /PRNewswire/ -- Avantor®, Inc., a leading global provider of mission-critical products and services for the life sciences and advanced technology industries, announces its presence at INTERPHEX, the premier annual gathering of pharmaceutical, biotechnology, and device development and manufacturing professionals. The company will showcase fluid handling technologies that support every step of the bioprocessing continuum, delivering exceptional scalability, flexibility, and efficiency in media and buffer preparation, filtration, purification, and final formulation applications.

"Avantor's participation at INTERPHEX is an exciting opportunity for us to showcase technologies that redefine how biomanufacturers manage their fluid handling operations," said Benoit Gourcier, Executive Vice President, Bioscience Production at Avantor. "We're excited to connect with customers and attendees in New York City and demonstrate how our fluid handling solutions address their most complex production challenges."

Attendees are invited to experience personalized product demonstrations with Avantor's Magnetic Mixing Systems, the MasterSense™ smart ecosystem for Masterflex® peristaltic pumps, J.T.Baker® Direct Dispense Systems for buffer management, and customizable solutions for tangential flow filtration. Avantor's approach to fluid handling solutions provides biopharma manufacturers with unprecedented choice to match their unique bioprocessing needs. Avantor will be exhibiting at booth #3843.

Avantor's Magnetic Mixing Systems ensure homogeneous mixing with minimal shear, protecting sensitive biologics in a single-use, closed system. The new 10L tabletop system, along with the 200L showcased at INTERPHEX, joins Avantor's scalable family of mixers that extend up to 1500L, offering consistent and accurate mixing performance

across various batch sizes and production demands. Developed for full single-use applications and customizable to exacting specifications, the mixers easily scale from process development to commercial production.

Supporting aseptic and seamless fluid transfer, Avantor will demonstrate the Masterflex MasterSense pump system's smart, digital ecosystem built for precision and repeatability. With scalable pump sizes, intuitive protocol programming and real-time fluid pressure monitoring, MasterSense enables researchers and manufacturers to streamline tasks and save valuable time across fluid volumes.

Across its portfolio, Avantor prioritizes flexible implementation and modularity to meet the unique needs of single-use, multi-product, and hybrid facilities. Avantor is committed to advancing bioprocessing through innovative, end-to-end fluid handling solutions.

About Avantor

Avantor® is a leading life science tools company and global provider of mission-critical products and services to the life sciences and advanced technology industries. We work side-by-side with customers at every step of the scientific journey to enable breakthroughs in medicine, healthcare, and technology. Our portfolio is used in virtually every stage of the most important research, development, and production activities at more than 300,000 customer locations in 180 countries. For more information, visit [avantorsciences.com](https://www.avantorsciences.com) and find us on LinkedIn, X (Twitter), and Facebook.

About INTERPHEX

INTERPHEX is the premier pharmaceutical, biotechnology, and device development and manufacturing event where you can "Experience Science through Commercialization." The event is based in New York and brings approximately 9,000 global industry professionals and industry leading suppliers together to "Learn it, Experience it, Procure it" through a unique combination of exhibits, demonstrations, partnering opportunities, networking and INTERPHEX Conference in the Learning Lab to leverage quality, efficiency, and cost effectiveness in today's ever-changing global market. INTERPHEX offers annual domestic and international industry events and educational opportunities around the world. For more information, visit www.INTERPHEX.com.
