“In Q2 2025, we continued to grow market share and firmly establish our category-defining leadership position. Same-restaurant sales grew 2.1%, and we opened 16 net new restaurants during the quarter. Despite the fluid macroeconomic environment, we grew CAVA Revenue 20.3%. Additionally, we recently opened our 400th restaurant and our 2025 new restaurant class is on track to deliver AUVs above \$3 million – reinforcing the proven portability and underlying strength fueling our continued growth.”

— BRETT SCHULMAN Co-founder & CEO
