“2025 marked a milestone year for CAVA as we continued to deliver on our mission of bringing heart, health, and humanity to food while scaling the business with a long-term, intentional focus. Our market share gains underscore the strength of our value proposition and reflect how deeply our brand is resonating with today’s discerning consumer. For the first time in our history, revenue surpassed \$1 billion for a full fiscal year in 2025, growing 22.5% for the year. Despite strong prior-year comparisons and a dynamic macroeconomic environment, the power of our model and the momentum of our brand remain clear.”

— BRETT SCHULMAN Co-founder & CEO
