

PerkinElmer and Alpha Omega Technologies Inc. Enter Resale Arrangement

WALTHAM, Mass., Oct 23, 2009 (BUSINESS WIRE) --PerkinElmer, Inc., a global leader focused on the health and safety of people and the environment, has entered into a resale arrangement with Alpha Omega Technologies Inc. (AOTI).

Under this arrangement, AOTI will incorporate PerkinElmer's proprietary gas chromatography (GC) products into its customized offering within the United States and Canada. The offering will bring AOTI's petrochemical market customers new state-of-the-art solutions to better meet their most demanding measurement applications. Financial details of the arrangement were not disclosed.

Through this arrangement, AOTI will utilize products that are part of PerkinElmer's GC portfolio, including the Clarus[®] GC range of solutions, and leverage PerkinElmer's expertise in the Arnel line of analyzers, complementing Alpha Omega's application suite and providing a full spectrum of solutions for the petrochemical industry.

"We have selected PerkinElmer for their product quality, and their commitment to a high level of customer service and support, which is critical in an industry where customers demand reliability," said Alpha Omega president, Edward J. Zachowski. "We are certain that PerkinElmer's technology for fast GC on the Clarus[®] platform and their Swafer Micro Channeling technology will enhance our offerings in the area of turnkey applications and performance analyzers. We will be better equipped to meet the needs of our customers in the future."

About Alpha Omega Technologies Inc.
