

Earnings Conference Call Presentation

Second Quarter 2026

octave

Forward Looking Statement

In this presentation, we have included statements that may constitute “forward-looking statements” within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as “estimate,” “project,” “plan,” “believe,” “anticipate,” “intend,” “planned,” “potential” and similar expressions, or future or conditional verbs such as “will,” “should,” “would,” “could,” and “may,” or the negative of those expressions or verbs, identify forward-looking statements. We caution readers that these statements are not guarantees of future performance. Forward-looking statements are not historical facts, but instead represent only our beliefs regarding future events, which may by their nature be inherently uncertain and some of which may be outside our control. These statements may relate to plans and objectives with respect to the future, among other things, which may change. We are alerting you to the possibility that our actual results may differ, possibly materially, from the expected objectives or anticipated results that may be suggested, expressed or implied by these forward-looking statements. Important factors that could cause our results to differ, possibly materially, from those indicated in the forward-looking statements include, among others, those discussed under “Risk Factors.”

Any or all of management’s forward-looking statements, whether contained herein or in other publications, may prove to be incorrect and are based on management’s current belief or opinions. Octave Specialty Group’s (“OSG”) and its subsidiaries’ (collectively, “Octave” or the “Company”) actual results may differ materially from those expressed in, or implied by, these forward-looking statements, and there are no guarantees about the performance of Octave’s securities. Among events, risks, uncertainties or factors that could cause actual results to differ materially are: (1) the high degree of volatility in the price of OSG’s common stock; (2) uncertainty concerning the Company’s ability to achieve value for holders of its securities from the specialty property and casualty insurance business, the insurance distribution business, or related businesses; (3) greater than expected underwriting losses in the Company’s specialty property and casualty insurance business resulting in inadequacy of loss and loss expense reserves and the possibility that changes in reserves may result in further volatility of earnings or financial results; (4) credit risk throughout Octave’s business, including but not limited to issuers of securities in our investment portfolios, and exposures to reinsurers; (5) the Company’s level of indebtedness, including its ability to generate sufficient cash to service obligations, refinance existing debt, or obtain additional financing on acceptable terms, and the resulting impact on financial condition and operating flexibility; (6) dependence on third parties, including specialty insurance program partners, reinsurers, distribution relationships, and other service providers, and the risk of failures or disruptions in their performance; (7) inability to obtain reinsurance coverage on economic terms; (8) loss of key relationships for the production of business in our specialty property and casualty and insurance distribution businesses or the inability to secure such additional relationships to produce expected results; (9) the impact of catastrophic public health events, environmental or natural events, or political events, including as a result of global or regional conflicts; (10) restrictive covenants in agreements and instruments that impair Octave’s ability to pursue or achieve its business strategies; (11) regulatory risks, including disagreements with insurance regulators, changes in laws or regulations, and the Company’s ability to adapt to an evolving regulatory environment; (12) risks related to changes in the composition, valuation, or performance of the Company’s investment portfolio, including interest rate and foreign currency exchange rate fluctuations; (13) events or circumstances that result in the impairment of our intangible assets and/or goodwill that were recorded in connection with Octave’s acquisitions; (14) the risk of litigation, regulatory inquiries, investigations, claims or proceedings, and the risk of adverse outcomes in connection therewith; (15) system security risks, data protection breaches and cyberattacks; (16) our inability to attract and retain qualified executives, senior managers and other employees, or the loss of such personnel; (17) greater competition for our specialty property and casualty insurance business and/or our insurance distribution business; (18) loss or lowering of the AM Best rating for our property and casualty insurance company subsidiaries; (19) disintermediation within the insurance industry or greater competition from technology-based insurance solutions or non-traditional insurance markets; (20) changes in law or in the functioning of the healthcare market that impair the business model of our accident and health managing general agents; (21) failure to successfully execute business expansion initiatives, integrate acquired businesses, or realize anticipated benefits from such efforts and significant obligations under put rights granted in completed acquisitions; and (22) other risks and uncertainties that have not been identified at this time.

Octave Specialty Group: Pure-Play Specialty Insurance Platform

Our Vision

To be the leading MGA specialty insurance platform, delivering innovative solutions through expertise, technology, and trusted partnerships.

Octave at a Glance

NYSE: OSG
Well-Positioned Specialty Insurance Platform

Diversified Portfolio of Specialty MGAs

Aligned Capacity Differentiator

MGA Platform Growth (#of MGAs)

2025	Insurance Distribution Segment	1H2026
17.6% Organic Revenue Growth		42.9% Organic Revenue Growth
65% Total Revenue Growth		85% Total Revenue Growth
\$1.5B Available Third-Party Capacity		\$2.0B Available Third-Party Capacity

Why Octave?

Differentiated specialty insurance distribution platform built for sustainable growth

- **Dual Growth Engines:** Purpose built platform for launching new MGAs and acquiring established operations
- **Partnership Model:** Aligns incentives and focuses teams on profitable sustained growth
- **Aligned Capacity:** Provides coveted capacity to launch new programs and support growth and development of new programs
- **Disciplined Execution:** Proven track record with rigorous acquisition criteria and fast profitability timelines
- **Scalable Opportunity:** Multiple pathways with attractive margin profile

Second Quarter Consolidated Financial Highlights (2Q26 vs 2Q25)

Premium Production

Premium production was up 18% to \$409 million

- **Insurance Distribution**
premiums produced were up 26% to \$314 million
- **Specialty P&C Insurance**
Gross Premiums Written decreased 2% to \$95 million

Consolidated Results

Net income (loss) from continuing operations to Shareholders of \$(14) million vs \$(21) million

Adjusted Net Income (loss) to Shareholders of \$(1.8) million vs \$(10.6) million

EBITDA to shareholders of \$(1.7) million vs \$(9.8) million

Adjusted EBITDA to Shareholders of \$3.7 million vs \$(4.6) million

Insurance Distribution premium production includes \$8 million of intersegment premiums placed with Specialty P&C Insurance.

Octave Ventures Business Profile

- **Strategic Capital Deployment:** Targeted investments in high-potential underwriting teams with proven expertise
- **Partnership Model:** Aligned incentives focused on profitable growth
- **Capital Efficient:** Modest upfront capital requirements enable portfolio diversification
- **Accelerated Path to Profitability:** MGAs structured to achieve profitability generally within 18-24 months
- **London Market Advantage:** UK-based MGAs typically reach profitability faster, achieving scale in under three years
- **U.S. Market Scale:** Longer profitability timeline offset by significantly larger addressable market opportunities and growth potential
- **Target Profile:** Focus on businesses generating \$3m to \$10m+ EBITDA at scale
