**79th**

Scorecard

Publication date: 9 Feb 2026

Valid until: 9 Feb 2027

Environment

Impact on score ●●●●

↗ **70**<sub>/100</sub>

Environment | Policies

Impact on score ●●●●

↗ **75**<sub>/100</sub>

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Environmental policy on energy consumption & GHGs
Environmental policy on air pollution
Environmental policy on water
Environmental policy on customer health & safety
Environmental policy on materials, chemicals & waste
Environmental policy on product end-of-life
Quantitative objectives set on energy consumption & GHGs
Formal mechanisms to review and amend environmental policy
Environmental policy scope of application specified
Comprehensive policy on a majority of environmental issues
Dedicated responsibility for environmental policy

Environment | Endorsements

Impact on score ●○○○

→ **0**<sub>/100</sub>

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority

No conclusive information on endorsement of external initiatives or principles on environmental issues

Environment | Measures

Impact on score ●●●●

● → 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

Improvement of energy efficiency through technology or equipment upgrades
Energy and/or carbon audit
Purchase and/or generation of renewable energy
Training of employees on energy conservation/climate actions
Reduction of carbon emissions in transportation
Internal sorting & disposal of waste according to waste streams
Training of employees on waste reduction and sorting
Water audit
Water risk assessments performed
Adoption of cooling systems with reduced or recycled water consumption
Optimization of primary packaging for dimension and weight reduction or material mix simplification
Design features for easy disassembling, remanufacturing, or recycling of products
Provision of information on proper disposal of product to promote circular material flow
Provision of Safety Data Sheets (SDS)
Customer health & safety risk assessment performed
Company-specific emergency preparedness and response plan, including recall procedure
Environmental emergency measures in place
Actions for labeling, storing, handling and transporting hazardous substances
Use of alternative, less hazardous substances in operations
Reduction in generation or toxicity of hazardous substances or waste
Actions to reduce or eliminate the use and release of Persistent Organic Pollutants and its associated waste
Reduction of internal wastes through material reuse, recovery or repurpose
Wastewater quality assessment
Technologies or practices to recycle or reuse water
Control measures to prevent contamination of groundwater
Work processes or technologies implemented to mitigate odor
Company processes and facilities to collect internal and external feedback on customer health & safety issues
Training employees to safely handle and manage hazardous substances
Specialized treatment and safe disposal of hazardous substances or waste

Improvement areas

Low priority	No supporting evidence of reduction of material consumption through process optimization
--------------	--

Environment | Certifications

Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

ISO 14001 certified
ISO 50001 certified
External sustainability audit from a site of Group: no non-compliance found on environment

Improvement areas

Medium priority	Environmental management system certification covers between 26% and 50% of the assessed scope
-----------------	--

Environment | Coverage

Multiplying factor

● 50/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

Improvement areas

Medium priority	Supporting documents show a medium level of coverage of environmental actions or certification throughout company operations
-----------------	--

Environment | Reporting

Impact on score ●●●○

● ↗ 75/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Declares some sites/operations located in or near biodiversity-sensitive areas, but the activities do not negatively affect those areas (not verified)
External assurance or verification of sustainability reporting
Reporting in accordance with SASB
Reporting on recycled input materials
Comprehensive reporting on environmental issues
Reporting on total gross Scope 3 GHG emissions
Total gross Scope 3 GHG emissions reporting value confirmed in supporting documentation
Reporting on total gross Scope 1 GHG emissions
Reporting on total gross Scope 2 GHG emissions (market or location based)
Reporting on total energy consumption
Reporting on total amount of renewable energy consumed
Reporting on total weight of waste recovered
Reporting in accordance with IFRS Sustainability Disclosure Standards
Company reports to CDP
Materiality analysis in sustainability reporting
Reporting on total gross Scope 3 downstream GHG emissions
Total gross Scope 3 downstream GHG emissions value confirmed in supporting documentation
Total gross Scope 2 reporting value confirmed in supporting documentation
Total gross Scope 1 reporting value confirmed in supporting documentation
Reporting on total water consumption

Improvement areas

Low priority	No supporting evidence of reporting on the total amount of water recycled and reused
Low priority	No supporting evidence of reporting on the total weight of air pollutants
Low priority	No supporting evidence of reporting on the total weight of hazardous waste
Low priority	No supporting evidence of reporting on the total weight of non-hazardous waste

Les industriels sont-ils capables d’atteindre la neutralité carbone en 2050 ?

actu.fr | 17 Jan 2023

L’industrie est un des secteurs les plus polluants, responsable de 20 % des émissions de gaz à effet de serre (GES) en France. Une des entreprises les plus émettrices de Bretagne est située à Quimperlé (Finistère). Les Papeteries de Mauduit font partie de la multinationale américaine Mativ. Selon la direction, l’usine de fabrication de papier, notamment pour la cigarette, rejette chaque année 30 000 tonnes de CO2.

Labor & Human Rights

Impact on score ●●●●

65/100

Labor & Human Rights | Policies

Impact on score ●●●●

50/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company’s intention to reduce impact, mitigate risk or improve performance.

Strengths

Labor & human rights policy on social dialogue
Labor & human rights policy on working conditions
Labor & human rights policy on employee health & safety
Labor & human rights policy on child labor, forced labor & human trafficking
Standard policy on a majority of labor or human rights issues
Labor & human rights policy on career management & training
Labor & human rights policy on preventing discrimination and harassment
Dedicated responsibility for labor and human rights policy
Labor and human rights policy scope of application specified

Improvement areas

Low priority	No quantitative target on labor and human rights issues
Low priority	Declares that no commitment or review has been conducted regarding payment of living wage
Low priority	No supporting evidence of a mechanism to review and amend labor and human rights policy

Labor & Human Rights | Endorsements

Impact on score ●○○○

● → 0/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority

No conclusive information on endorsement of external initiatives or principles on labor and human rights issues

Labor & Human Rights | Measures

Impact on score ●●●●

● ↗ 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

Age verification of candidates before hiring
Grievance mechanism on child labor, forced labor and/or human trafficking issues
Training of employees on child labor, forced labor and human trafficking
Skills development program tailored to employee needs
Regular assessment of individual performance
Individual development and career plan for all employees
Actions to promote internal mobility
Collective bargaining agreement on working hours, overtime, or leaves
Actions to ensure equal pay for equal work
Collective bargaining agreement on preventing discrimination and harassment
Grievance mechanism on discrimination and/or harassment issues
Collective bargaining agreement on career management & training
Actions to prevent discrimination during recruitment phase
Employee representatives or employee representative body (e.g. works council)
Awareness training on discrimination and harassment
Complaints procedure in place for employees to report on occupational health and safety issues
Actions to prevent noise exposure
Actions in place to ensure health and safety of non-employee workers and other contracted workers on premises
Equipment safety inspections or audits
Collective bargaining agreement on employees’ health & safety
Health care coverage of employees in place
Employee satisfaction survey
Family Friendly programs (FFPs) implemented (e.g. parental or care leaves, childcare services or allowances)
Grievance mechanism on working conditions
Actions to ensure adequate wages
Collectively bargained wages
Actions to address stress and psychological wellbeing in the workplace
Employee health and safety emergency action plan
Preventive actions for repetitive strain injury (RSI)
Employee health & safety risk assessment
Training of employees on health and safety risks and best working practices
Actions to manage working hours and overtime

Improvement areas

Low priority	The company declares its main operation(s) is located in a region where the right to freedom of association is restricted by local law/regulation
Low priority	No supporting evidence of compensation for extra or atypical working hours
Low priority	No supporting evidence of actions to prevent workplace harassment

Labor & Human Rights | Certifications

Impact on score ●●●○

● → 100/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

FSC chain-of-custody certified
ISO 45001 certified

Improvement areas

Medium priority	Labor and human rights management system certification covers between 26% and 50% of the assessed scope
-----------------	---

Labor & Human Rights | Coverage

Multiplying factor

● 50/100

Coverage means the level of deployment of measures and certifications throughout your company. It's a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

An employee died at a Whiting paper mill in May. OSHA proposed a fine of more than \$55K.

www.stevenspointjournal.com | 09 Nov 2023

Joshua Vyse, 40, was fatally injured May 14 while working at Mativ’s Whiting mill. The owner of a Whiting paper mill faces a fine of more than \$55,000 from federal inspectors after the employee's arm got stuck in a machine and he died earlier this year. Mativ also recently agreed to pay nearly \$9,500 to the U.S. Department of Labor's Occupational Safety and Health Administration in another case where an employee was injured at the mill in March.

Without a contract for almost a year, union workers in Lowville send message to corporate executives

www.wwnytv.com | 29 Sep 2022

As company executives traveled to Lowville Wednesday, union workers at the former Neenah paper plant used it as an opportunity to tell new management, they want a fair contract. Representatives with the United Steel Workers Union said 90 people at the Lowville Mativ plant haven't had a contract since November of last year. Mativ is a result of a merger between Schweitzer-Mauduit International and Neenah, Incorporated. It was finalized in July.

Ethics

Impact on score ●●○○

● ↗ 73/100

Ethics | Policies

Impact on score ●●●●

● → 100/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company’s intention to reduce impact, mitigate risk or improve performance.

Strengths

Exceptional policy on ethics issues
Policies on corruption
Policy on fraud
Disciplinary sanctions to deal with policy violations
Employee signature acknowledgement of ethics policy
Policy on information security
Policy on money laundering
Policy on conflict of interest
Dedicated responsibility for ethics issues
Formal mechanisms to review and amend ethics policy
Ethics policy scope of application specified
Detailed examples available regarding ethics issues

Ethics | Endorsements

Impact on score ●○○○

● → 0/100

Endorsements are your company’s public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority

No conclusive information on endorsement of external initiatives or principles on ethics issues

Ethics | Measures

Impact on score ●●●●

● ↗ 100/100

Measures are your company’s actions to support your sustainability policies and commitments.

Strengths

Specific approval procedure for sensitive transactions (e.g. gifts, travel)
Information security risk assessments performed
Whistleblower procedure for stakeholders to report information security concerns
Awareness training to prevent information security breaches
Information security due diligence program on third parties in place
Whistleblower procedure for stakeholders to report corruption and bribery
Measures for gaining stakeholder consent regarding the processing, sharing and retention of confidential information
Training of employees on corruption and bribery prevention
Audits of control procedures to prevent corruption
Audits of control procedures to prevent information security breaches
Incident response procedure (IRP) to manage breaches of confidential information
Measures to protect third party data from unauthorized access or disclosure
Corruption risk assessments performed
Implementation of a records retention schedule

Improvement areas

Low priority

No supporting evidence of an anti-corruption due diligence program on third parties

Ethics | Certifications

Impact on score ●●●○

● → 50/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

External sustainability audit from a site of Group: no non-compliance found on ethics
---

Ethics | Coverage

Multiplying factor

● 100/100

Coverage means the level of deployment of measures and certifications throughout your company. It’s a multiplying factor. The higher it is, the higher score will be given to the Measures and Certifications indicators.

## Mativ Holdings, Inc. Confirms Recent Data breach Affected Employee Information

www.jdsupra.com | 10 Oct 2022

On October 3, 2022, Mativ Holdings, Inc. filed an official notice of a data breach with the Massachusetts Attorney General's office after the company experienced a cyberattack that compromised sensitive employee information contained on its computer network. According to Mativ, the breach resulted in the names, dates of birth, medical information, financial account numbers, and Social Security numbers of certain employee's being leaked. Mativ also sent out data breach letters to those who were impacted by the event, informing them of the incident and what they can do to protect themselves
