## From the Chairman

At Anthem, we believe that the best way to work with government decision-makers, at every level of government, is through honest, direct and transparent conversations on the priority issues affecting our members and our company. Informed stakeholders, policymakers, and consumers are integral to our ability to communicate our experience and perspective and demonstrate how we can help achieve an affordable, quality health care system. We hold steadfast to our commitment of transparency because it is important to our credibility that our various constituents understand how and why we engage in this process while adhering to all legal and regulatory requirements.

Our annual political giving and related activity report has been prepared to provide information about Anthem and Anthem PAC's federal and state political giving in 2016 in conjunction with the company's public affairs strategy. It includes a full listing of political candidates and committees that received support from Anthem PAC, the permissible corporate political contributions made by Anthem, a detailed financial accounting of those expenditures, and an explanation of the policy and process we use to determine where and how our political support is directed.

Our public affairs strategy has consistently focused on advocating on behalf of the key policy issues that are important to our company's ability to conduct business and to our members while encouraging others in our industry and broader business community who share our policy positions to become advocates on these issues. Our strategy also includes providing financial support through Anthem PAC and permissible corporate contributions to state and federal candidates for elective office.

In 2016, Anthem PAC maintained the support of more than 2,000 associates and raised more than \$930,000 in associate receipts. Thanks to our associates' generous support and dedication to these efforts, Anthem PAC contributed \$735,500 to federal candidates and \$270,137 to state and local candidates last year.

Our nation's political landscape underwent significant change last year at both the federal and state level. At Anthem, we remain vigilant in responding to new policy challenges and opportunities for our business and for our members. It is more important than ever for Anthem and Anthem PAC to forge relationships with decision-makers, assist in crafting innovative solutions, and inform legislators in the critical public policy debates ahead.

Julie Goon  
Senior Vice President, Public Affairs  
Anthem PAC Chair

# Policy on Participation in the Public Policy Process

## POLICY ON PARTICIPATION IN THE PUBLIC POLICY PROCESS

As a health benefits company, Anthem, Inc. is committed to advocating public policy solutions that benefit our customers, stakeholders, associates, communities, and the general public. Anthem believes that participation in the public policy process is critical to our core business because legislative and regulatory health care decisions made at the federal and state levels of government have a direct impact on our ability to serve our customers and compete in the marketplace. Our active participation in the political and public policy process and our advocacy on both legislative and regulatory proposals is an important means of maintaining a viable operating environment, enhancing shareholder value, and better serving our customers' and business' interests by creating a more informed policymaking process.

Anthem participates in the public policy process in several ways including executing a public and government affairs strategy designed to inform elected and appointed officials of key public policy issues related to the company's business; political giving through associate-funded federal and state political action committees; corporate political giving where legally allowed; and membership in health industry and business trade associations which help to advance our overall business objectives.

Anthem's participation in the process is guided by a set of core principles that govern our corporate policies on lobbying, political spending and general engagement in the public policy process.

## CORE PRINCIPLES FOR PARTICIPATION

- ★ Anthem engages on public policy issues that are core to our business and generally avoids engaging on non-enterprise related issues.
- ★ Anthem works with members of government, legislative and executive branch, others in our industry, the broader business community, our customers, and the general public to advocate public policies that support our customers' interests and our business goals. The company's public policy positions and agenda are guided each year by our company's Mission, Objectives, and Values.
- ★ In general, Anthem is supportive of public policies that promote competition and free markets in health care delivery and financing, that promote a role for the private sector in public programs, and that are in the best long-term interest for our customers, shareholders, and Anthem.
- ★ Anthem supports the implementation of reforms necessary for the sustainability of the health care delivery and financing system that promote free market principles and advance the interests of our customers.
- ★ Political spending by Anthem, both with corporate dollars and through our political action committees, reflects the company's interests and is used to further our public policy positions and agenda and not the personal agenda of individual officers, directors, or associates.
- ★ Anthem will not make political contributions based upon party affiliation, positions taken on other non-enterprise related issues, contributions made in previous election cycles, or client pressure. No campaign contribution will be given in anticipation of, in recognition of, or in return for an official act.

# Policy on Participation in the Public Policy Process

- ★ Anthem adheres to all federal, state and local laws and regulations governing the public policy process, including communications with elected federal and state officials, agency officials, or other legislative and regulatory officials for the purpose of influencing legislative or administrative action, and has established internal policies and procedures to ensure compliance with these requirements.
- ★ Anthem discloses contributions made and received in reports filed with the Federal Election Commission and the various state campaign finance offices, as required by law.
- ★ Management of Anthem's participation in the public policy process is the responsibility of the senior vice president of Public Affairs in accordance with Anthem's enterprise risk management framework. This position reports directly to Anthem's Chief Executive Officer. Public Affairs updates are provided periodically to Anthem's Board of Directors.
- ★ The Governance Committee of Anthem's Board of Directors reviews, at least annually, the Company's political strategy, contributions and activities, and oversees compliance with the Company's policies and procedures regarding political contributions and activities. The risks associated with political and lobbying activities are managed in accordance with Anthem's enterprise risk management framework. In addition, Anthem's Internal Audit Department assesses the risk related to political giving within its annual risk assessment process, has performed reviews in the past, and will perform additional reviews as deemed appropriate.

## CORPORATE POLITICAL CONTRIBUTIONS

While federal law prohibits Anthem from making corporate contributions to federal candidates, Anthem makes direct contributions to support state candidates, political parties, political action committees, and ballot measures in those states where such corporate contributions are allowed by law and may make in-kind contributions, such as hosting a reception and paying expenses associated with the event.

Certain criteria are considered in making corporate political contributions, including the following which have been endorsed by Anthem's Board of Directors:

- ★ Supports public policy that promotes private competition, choice, and free markets in the delivery and financing of health care;
- ★ Voting record or announced positions on issues important to Anthem and its customers;
- ★ Demonstrated leadership on key committees of importance to our business;
- ★ Impact of contribution in a state or district where Anthem has a large concentration of employees and/or customers;
- ★ Impact of contribution on the campaign.

Throughout the year, members of Anthem's public affairs organization make recommendations for corporate contributions. The senior vice president of Public Affairs of the company must approve each corporate contribution. Other members of the public affairs organization involved with political contributions include the vice president of State Affairs, the vice president of Federal Affairs, and their direct reports. In making corporate contributions, Anthem complies with all disclosure requirements as prescribed by state and federal law.

# Policy on Participation in the Public Policy Process

## ANTHEM POLITICAL ACTION COMMITTEE CONTRIBUTIONS

Anthem provides an opportunity for eligible Anthem associates, as defined by federal and state law, to participate in the political process by sponsoring the nonpartisan Anthem, Inc. Political Action Committee (“Anthem PAC”), which allows them to voluntarily combine their personal funds to support federal and state candidates, political parties, and political committees. Anthem PAC’s disbursement of funds is made in accordance with an annual budget, and the same contribution criteria identified for corporate contributions is considered in determining Anthem PAC contributions.

Throughout the year, members of Anthem’s public affairs organization and associate PAC members offer recommendations for Anthem PAC contributions. Anthem PAC contributions are approved by the senior vice president of Public Affairs of the company. Anthem PAC operates pursuant to all relevant state and federal laws, and complies with all public disclosure requirements. Information about Anthem PAC’s contributions may be found on the [Federal Election Commission’s website](#).

When participating in the political process, Anthem associates must comply with the company’s ethics and compliance requirements identified in the [“Standards of Ethical Business Conduct,”](#) which is available on our website. This document sets forth appropriate associate conduct relating to political activity and contributions, as well as interaction with government officials and regulatory agencies to avoid conflicts or perceived conflicts of interest.

## ANTHEM TRADE ASSOCIATION MEMBERSHIPS

Like most major corporations, Anthem is a member of a number of national and state industry and business trade associations (organized under section 501(c)(6) of the Internal Revenue Code) to help advance our public policy agenda and related business goals. Anthem believes that membership in these associations is generally consistent with the company’s interests and plays a valuable role in bringing a collective voice to the process. Anthem also understands that not all members of an association will come to agreement on every issue. Anthem directly communicates its public policy positions to trade associations to inform their positioning; however, those associations may take positions that do not reflect Anthem’s position or they may take positions on issues for which Anthem has not taken a position. Even when Anthem does not share the view of one of these associations, we believe that membership is worthwhile because these associations encourage dialogue and help to move the industry to a consensus on important policy issues. However, Anthem does take these situations into consideration annually when determining annual membership. Payments to industry and business trade associations are subject to the same “Core Principles for Participation” and Governance Committee review and oversight.

# Lobbying Activities

Anthem engages in lobbying activity to advocate our position on public policy issues with elected officials and others in federal and state government. These are issues that affect our company, our associates and, most importantly, our customers. Anthem spent approximately \$4.9 million on state lobbying activities<sup>1</sup> and \$5.96 million on federal lobbying activities.<sup>2</sup>

The senior vice president of Public Affairs of the company has oversight responsibility for all lobbying activities and expenditures. Other members of the Public Affairs organization involved with lobbying include the vice president of State Affairs, the vice president of Federal Affairs, and their direct reports. Anthem complies with all disclosure requirements as prescribed by state and federal law. Lobbying activities generally include communications with elected federal and state officials, agency officials, or other legislative and regulatory officials for the purpose of influencing legislative or administrative actions.

In 2016, Anthem paid membership dues to national and state business and trade associations of which a portion may be allocated to non-deductible lobbying activity and political expenditures. Below is a list of the national and state business and trade associations whose membership dues were \$50,000 or more for 2016, including the portion allocated to non-deductible lobbying activity and political expenditures. Some trade associations engage in activities beyond public policy advocacy, thus this report specifies the portion of dues used for lobbying and political expenditures.

<sup>1</sup>State laws vary on how they define lobbying activity, expenses and what is reportable. For purposes of this report, state lobbying expenses include approximate percentages of associate compensation and overhead and outside lobbying consultant fees. Anthem's Tax Department tracks these fees, and the amount in this report is a preliminary amount based on provisional quarterly tax filings for 2016. Once Anthem files its official 2016 return due after the publication of this report, this number will be updated.

<sup>2</sup>Federal lobbying expenses are reported as required by the Lobbying Disclosure Act of 1995 and the Honest Leadership and Open Government Act of 2007. [Click here](#) to search for copies of Anthem's Lobbying Disclosure Reports filed with the U.S. Congress.

<sup>3</sup>The annual membership dues are reported based on the calendar year in which they are paid. The portion of annual dues allocated to non-deductible lobbying and political expenditures is based on the percent or amount provided on the annual dues invoice by the organization listed.
