## Anthem PAC

2018

## **CHAIRMAN LETTER**

Anthem's vision to be the most innovative, valuable, and inclusive partner extends to the relationships we build with lawmakers at every level of government. These partnerships ensure that we are able to educate policymakers on how their decisions impact our ability to deliver a simpler, more affordable, and more accessible health care experience for our customers and their families.

We work to build these political partnerships with both Democrats and Republicans through a public affairs strategy that includes direct advocacy, grassroots engagement, and political contributions.

This report lists all political candidates and committees that received support in 2018 from our eligible associates through Anthem's Political Action Committee (Anthem PAC) and through permissible corporate contributions made by Anthem and its subsidiaries. It also includes a summary of our 2018 PAC receipts and expenditures and the criteria used to determine which candidates and committees received our support.

We are proud to share this information as part of our commitment to integrity, transparency, and accountability.

As you know, PAC donations to candidates for federal office do not come from the corporations that sponsor them, but from the employees of those corporations who are eligible to contribute their own money to a PAC under federal law. We are grateful for the nearly 2,000 hard-working Anthem associates who entrusted Anthem PAC with their voluntary contributions last year. Their donations made it possible for Anthem PAC to direct \$838,650 to federal candidates and committees and \$392,899 to state candidates and committees in 2018.

The 2018 elections resulted in the arrival of 98 new lawmakers in Washington, D.C., 20 new governors across the country, and hundreds of new state legislators in state capitals this year. As a result, we have many new lawmakers to get to build relationships with and to educate about the issues that are important to our consumers, including affordable coverage options, Medicaid managed care, Medicare Advantage and Part D, the high cost of prescription drugs, and how PBMs work to reduce drug prices. We are grateful to have our associates' support through Anthem PAC to make this outreach possible.

Julie Goon Senior Vice President, Public Affairs 2018 Anthem PAC Chair

## Participation in the Public Policy Process

As a health benefits company, Anthem is committed to advocating public policy solutions that benefit our consumers, stakeholders, associates, communities, and the general public. Anthem believes that participation in the public policy process is critical to our core business because legislative and regulatory health care decisions made at the federal and state levels of government have a direct impact on our ability to serve our customers and compete in the marketplace. Our active participation in the political and public policy process and our advocacy on both legislative and regulatory proposals is an important means of maintaining a viable operating environment, achieving growth in our business, enhancing shareholder value, and better serving our consumers' and business' interests by ensuring more informed policymakers.

Anthem participates in the public policy process in several ways, including executing a public and government affairs strategy designed to inform elected and appointed officials of key public policy issues related to the company's business; political giving through associate-funded federal and state political action committees; corporate political giving where legally allowed; and membership in health industry and business trade associations that help to advance our overall business objectives.

Anthem's participation in the process is guided by a set of core principles that govern our corporate policies on lobbying, political spending, and general engagement in the public policy process.

## **Core Principles for Participation**

Anthem works with members of the legislative and executive branches of government, others in our industry, the broader business community, our consumers and the general public to advocate public policies that support our consumers' interests and our business goals. The company's public policy positions and agenda are guided each year by our company's Mission, Objectives, and Values.

Anthem engages on public policy issues that are core to our business—and generally avoids engaging on non-enterprise related issues.

In general, Anthem is supportive of public policies that promote competition and free markets in health care delivery and financing, that promote a role for the private sector in public programs, and that are in the best long-term interest for our consumers, shareholders, and Anthem.

Anthem supports the implementation of reforms necessary for the sustainability of the health care delivery and financing system that promote free market principles and that advance the interests of our consumers.

Political spending by Anthem, both with corporate dollars and through our political action committees, reflects the company's interests and is used to further our public policy positions and not the personal position of individual officers, directors, or associates.

Anthem does not and will not make political contributions based upon party affiliation, positions taken on non-enterprise related issues, contributions made in previous election cycles, or client pressure. No campaign contribution will be given in anticipation of, in recognition of, or in return for an official act.

Anthem adheres to all federal, state and local laws, and regulations governing the public policy process, including communications with elective federal and state officials, agency officials, or other legislative and regulatory officials for the purpose of influencing legislative or administrative action, and has established internal policies and procedures to ensure compliance with these requirements.

Anthem discloses contributions made and received in reports filed with the Federal Election Commission and the various state campaign finance offices, as required by law.

Management of Anthem's participation in the public policy process is the responsibility of the senior vice president of Public Affairs in accordance with Anthem's enterprise risk management framework. Public Affairs updates are provided periodically by the senior vice president of Public Affairs to Anthem's Board of Directors.

The Governance Committee of Anthem's Board of Directors reviews, at least annually, the company's political strategy, contributions and activities, and oversees compliance with the company's policies and procedures regarding political contributions and activities. The risks associated with political and lobbying activities are managed in accordance with Anthem's enterprise risk management framework. In addition, Anthem's Internal Audit Department assesses the risk related to political giving within its annual risk assessment process, has performed reviews in the past, and will perform additional reviews as deemed appropriate.

## Lobbying

Anthem engages in lobbying activity to advocate our position on public policy issues with elected officials and others in federal and state government. These are issues that affect our company, our associates and, most importantly, our consumers.

Key to our advocacy success are the relationships we build and maintain with public policymakers, including with members of Congress, governors, state legislators, and regulators. These relationships make it easier to ensure that we can educate policymakers and let them know how their decisions impact our ability to help deliver better care to our consumers, provide greater value to our consumers, and to help improve the health of the communities we serve. Through our lobbying and advocacy activity, we are able to educate and build professional relationships.

In 2018, Anthem spent approximately \$4.7 million on state lobbying activities<sup>1</sup> and \$4.9 million on federal lobbying activities.<sup>2</sup>

The senior vice president of Public Affairs of the company has oversight responsibility for all lobbying activities and expenditures. Other members of the Public Affairs organization involved with lobbying include the vice president of State Affairs, the vice president of Federal Affairs, and their direct reports.

Anthem complies with all disclosure requirements as prescribed by state and federal law. Lobbying activities generally include communications with elected federal and state officials, agency officials, or other legislative and regulatory officials for the purpose of influencing legislative or administrative actions.

### **Grassroots**

In addition to Anthem PAC and the collective efforts of our federal and state government relations teams, we've built a program specifically for Anthem associates which allows them to engage in the important policy and regulatory discussions happening in Washington and in state capitals across the country. Anthem Associates Coming Together (Anthem ACT) provides associates with the opportunity to learn more about Anthem's priorities and how those issues impact our business and the customers we serve.

<sup>&</sup>lt;sup>1</sup> State laws vary on how they define lobbying activity, expenses and what is reportable. For purposes of this report, state lobbying expenses include approximate percentages of associate compensation and overhead and outside lobbying consultant fees. Anthem's Tax Department tracks these fees, and the amount in this report is a preliminary amount based on provisional quarterly tax filings for 2018. Once Anthem files its official 2018 return due after the publication of this report, this number may be updated.

<sup>&</sup>lt;sup>2</sup> Federal lobbing expenses are reported as required by the Lobbying Disclosure Act of 1995 and the Honest Leadership and Open Government Act of 2007. Visit <a href="http://soprweb.senate.gov/index.cfm?event=selectfields">http://soprweb.senate.gov/index.cfm?event=selectfields</a> to search for copies of Anthem's Lobbying Disclosure Reports filed with the U.S. Congress.

### **Political Contributions**

Anthem provides an opportunity for eligible Anthem associates, as defined by federal and state law, to participate in the political process by sponsoring the nonpartisan Anthem, Inc. Political Action Committee ("Anthem PAC"), which allows them to voluntarily combine their personal funds to support federal and state candidates, political parties and political committees. Anthem PAC's disbursement of funds is made in accordance with an annual budget that is overseen and approved by the Anthem PAC Board of Directors.

While federal law prohibits Anthem from making corporate contributions to federal candidates, Anthem makes direct contributions to support state candidates, political parties, political action committees, and ballot measures in those states where such corporate contributions are allowed by law and may make inkind contributions, such as hosting a reception and paying expenses associated with the event.

Certain criteria are considered in making PAC and corporate political contributions, including the following which have been endorsed by Anthem's Board of Directors:

- Supports public policy that promotes private competition, choice and free markets in the
  delivery and financing of health care, that promote a role for the private sector in public
  programs, and are in the best long-term interest for our consumers, shareholders and
  Anthem:
- Voting record or announced positions on issues important to Anthem and its consumers
- Demonstrated leadership on key committees of importance to our business;
- Impact of contribution in a state or district where Anthem has a large concentration of associates and/or consumers;
- *Impact of contribution on the campaign.*

Throughout the year, members of Anthem's public affairs organization and associate PAC members offer recommendations for PAC and corporate contributions. All political contributions go through a legal review process and are approved by the senior vice president of Public Affairs of the company. Anthem operates pursuant to all relevant state and federal laws, and complies with all public disclosure requirements. Information about Anthem PAC's contributions may be found on the Federal Election Commission's website.

When participating in the political process, Anthem associates must comply with the company's ethics and compliance requirements identified in the "Standards of Ethical Business Conduct," which is available on our website. This document sets forth appropriate associate conduct relating to political activity and contributions, as well as interaction with government officials and regulatory agencies to avoid conflicts or perceived conflicts of interest.

## **Trade Association Memberships**

Like most major corporations, Anthem is a member of a number of national and state industry and business trade associations (organized under section 501(c)(6) of the Internal Revenue Code) to help advance our public policy agenda and related business goals.

Anthem believes that membership in these associations is generally consistent with the company's interests and plays a valuable role in bringing a collective voice to the process. Anthem also understands that not all members of an association will come to agreement on every issue. Anthem directly communicates its public policy positions to trade associations to inform their positioning; however, those associations may take positions that do not reflect Anthem's position or they may take positions on issues for which Anthem has not taken a position.

Even when Anthem does not share all of the views of one of these associations, we believe that membership is worthwhile because these associations encourage dialogue and help to move the industry to a consensus on important policy issues. Anthem does a careful assessment of the value of each membership each year, including whether organizations reflect the majority of Anthem's positions. Payments to industry and business trade associations are subject to the same "Core Principles for Participation" and Governance Committee review and oversight.

In 2018, Anthem paid membership dues to national and state business and trade associations, a portion of which may be allocated to non-deductible lobbying activity and political expenditures. Included in this report is a list of the national and state business and trade associations whose membership dues were \$50,000 or more for 2018, including the portion allocated to non-deductible lobbying activity and political expenditures. Some trade associations engage in activities beyond public policy advocacy, thus this report specifies the portion of dues used for lobbying and political expenditures.
